Librarian note: this Kindle book was reissued under the name Emilia Beaumont, new paperbacks are not available and used paperbacks are under the name Avery Wilde.

**The groom was supposed to say 'I do'... except Connor Haden decided he wanted me instead!**

On the field, the superstar quarterback is a decisive machine, off the field he's a total playboy. Everyone was shocked—including me—when he got engaged, but the media is going to have a field day once they hear how he chose to ditch his bride!

It was supposed to be the wedding of the decade, but now he's destroyed my career and my reputation. Who's going to hire a wedding planner who ended up on honeymoon with the groom?

The bastard has got his sights set on me. I just need to survive two more scorching weeks in paradise without letting him win me over.

Easy, right?

If I can ignore his panty-melting smile and his lickable glistening abs, I'll be fine. And I'll just have to pretend not to notice the way he looks at me, or his oh so very luscious tight-end.

I won't let myself fall for another bad boy, not again.

Oh, how I can't wait for this honeymoon to be over!

*\*\*Bad Boy's Wedding is a full length (65k), standalone novel that includes hot steamy scenes and a HEA\*\**

## From Reader Review Bad Boy's Wedding for online ebook

### **Mauaqui says**

#### **The Love of a Good Woman can Perform Miracles**

Playboy extraordinaire, Connor Haden just cancelled his wedding. Wedding planner April Mathews was furious. She now won't get her commission to the wedding of the year after hours of back breaking work to make it happen. She confronts Connor in the hotel bar to tell him off. The confrontation is witnessed by Connors football teammates and a bet is made. \$80,000 if he can spend 2 weeks with April at the paid for honeymoon resort.

That is basically the storyline to this ebook. It had great potential even though a little unbelievable. Connors character grows from arrogant unfeeling playboy to love struck mushy feeling human. April is rather boring and had not much depth. I felt the ebook dragged in a lot of chapters but overall you can read it and be somewhat entertained with the written word. 2.5 stars.

---

### **Annie Wizel says**

This book was amazing, if i could i would give it a 10 star rating. The book basically starts off with Connor breaking off his engagement a couple days before the wedding and then making a bet with his football friends that he can be with a girl for 2 weeks and they end up choosing his wedding planner (April) to go with him. So when April gets fired, Connor gives her one of the tickets from his honeymoon saying she can go alone to the island but really he ends up going as well as part of the bet. They then end up spending time together and start to fall in love but then he tells her the truth and she leaves brokenhearted. After about three weeks, Connor's agent tells her he has been just as broken hearted as she was and so the agents gives her tickets to his pre season football game. She ends up going, he gets injured, she takes care of him and he makes a grand gesture and says I love you, 3 months later they end up getting married and go on a honeymoon where she tells him she is pregnant. I recommend this book to anyone who loves silly bets that turn into true love for two characters and a little bit of football.

### **Judy Lewis says**

**DELICIOUSLY CUTE AND DELIGHTFULLY ENTERTAINING !!!**

Title: Bad Boy's Wedding

Author: Avery Wilde

Designation: Bad Boy Contemporary Romance, Standalone, NO Cliffhanger

Reading Platform: Kindle Unlimited

My Rating: **FIVE DELIGHTFULLY ENTERTAINING STARS**

This is my first time reading Avery Wilde but it won't be my last. I'm always on the lookout for a great new author and apparently, Wilde is a relative newcomer to the wonderful world of indie publishing. And judging from her obvious talent shown in this book, I foresee great things in her future writing career. Since I was unfamiliar with Avery Wilde, I had no idea what to expect but she and her work were highly recommended by Emilia Beaumont, one of my all-time favorite contemporary romance authors so I decided to give her a chance and I'm so glad I did! There's nothing I love more than bad boys, steamy contemporary romance and

great writing, and in Bad Boy's Wedding we get the 'perfect trifecta' of all three. By no means am I a professional reviewer but I know what I like, what I love and what I don't and I loved this book. I rate my books quite differently than most reviewers. I don't try to pick them to pieces nor do I search for gaping plot holes or glaring errors, although I will refuse to read a book that is poorly written. I rate a book on how easy it is to read, understand and follow and most of all, how entertaining it is, how well it captured my attention and on how much I truly enjoyed it. And I truly enjoyed this book! But when accolades are deserved, I'm more than willing to give them and Avery Wilde did a fantastic job with this book. It's well crafted, well edited and totally realistic. Wilde is a talented storyteller and has excellent language skills which is always a big plus in my book. I'll admit, initially I was afraid the premise for this story would be a little cliche, too used, too familiar and possibly too predictable but nothing could be farther from the truth. The narrative is beautifully written in the first person with alternating his and her points of view designated by chapter - my fav! I just love a book where there's never any confusion about what each character is thinking and feeling! The dialogue is smart, witty, amusing, well executed and flows effortlessly. Bad Boy's Wedding is a full length, standalone novel coming in at 348 pages. The pace is brisk but steady and the pages just flew as I remained glued to my ereader. Once I started, I couldn't put it down. I found myself turning the pages as quickly as I could to see what was going to happen next. But the primary component of this story and the element that completely stole my heart was, without a doubt, the characters. I found them to be captivating, engaging, relatable, sexy and completely realistic. After reading the first chapter, I was totally prepared to hate handsome Connor Haden, star quarterback, womanizer, manwhore, commitment phobe and male protagonist of this story. But surprise - I actually fell head over heels in love with him! Hey, I may be 64 years young but I ain't dead yet and I'm only human, right? I can still be attracted to a good-looking guy! And it's always quite refreshing to read a practical, more life-like love story where the guy and girl are both represented realistically. And April Matthews, the female protagonist is absolutely adorable. Don't get me wrong, I enjoy a perfect fairy tale romance just as much as the next guy or girl, but they're not always believable. Surprisingly, this one is not only believable, it's also completely imaginable and reasonable. I think that's one of the things I enjoyed about it most. It also has a lot of other wonderful characteristics like cutesy humor, heated attraction, great chemistry, steamy passion and seductive love scenes but this is not erotica, folks, although it does include some very dreamy love scenes, I would describe this book as a cute, sweet, fun, feel-good contemporary romance that is sure to warm your heart and leave you with a big, silly grin on your face. What did I love about this book? Everything! What didn't I like? Not a darn thing! Would I recommend this book? You bet and I am but I would suggest it for adults only! Will I read this author again? Absolutely - probably as soon as she releases her next book!

Connor Haden, self proclaimed womanizer, bad boy and star quarterback for the LA Lions, has found himself in quite the fix. He's engaged to marry socialite Crystal Wagner in only two days and has decided to end the engagement, the relationship and the wedding, realizing almost too late that it would be the biggest mistake of his life. Oh my! Marriage may have seemed like a good idea at the time but Connor knows he doesn't love Crystal and she certainly doesn't love him. Crystal is in it strictly for the fame and fortune - his fame and fortune. Regrettably, not only is his timing poor, so is his delivery of the news. Oh dear! And Crystal doesn't take the news well at all! And neither does the curvy, little wedding planner, April Matthews, who confronts Connor in the hotel bar and, none too kindly, proceeds to explain what a complete jerk Connor is. Unfortunately, Connor makes the situation even worse by coming on to her which only results in her throwing a drink in his face - in front of everyone including his teammates. Oh my! She's certainly a beautiful little spitfire! But nothing can change Connor's mind, not even the lovely little wedding planner. He's not ready to commit nor settle down; heck, he's not even close and has never loved a woman in his life. He doesn't even know what love is. There are too many beautiful woman in the world he still wants to sample and surprisingly, that number includes the cute little wedding planner with the mouth-watering rack and luscious curves. Oh dear! Unfortunately, he may have blown any chance with her by accepting the bet concocted by his teammates. Bet? Oh yes, I said bet. Leave it to a bunch of guys to come up with the terrible

idea of him seducing the wedding planner and remaining in a committed relationship with her for at least two weeks to win a bet of eighty thousand dollars. Oh no! Oh yes! And it's so on! Now, all he has to do is somehow convince her to accept the prepaid reservations for what should have been his and Crystal's luxurious honeymoon package at an exclusive, exotic resort on a secluded tropical island. If he can just get her to the island, he'll be there waiting for her and the bet will be in the bag and the money his. Too bad April knows nothing about the bet and certainly has no idea that Connor will also be there - in the same hut. Had she known, she never would have accepted. She's already had her heart broken once and after all, Connor Haden is the reason she was just fired. He has completely ruined her life so she hates him, right? She could never be attracted to a womanizer and self proclaimed bad boy like Connor Haden, right? Apparently she is very attracted to him, but surely she can make it through the next two weeks with her heart and her virtue still intact, right? We'll see! Let the games begin! Fabulous entertainment and an awesome read!

### **Raj says**

3.5 stars

Written in 1st person Dual POV.

I didn't get bored.

I love the drama

I didn't get that attached to the characters but it was okay.

Interesting story, it was a light read.

Safe to read in public.

---

### **Beth says**

I received this book in exchange for an honest review. This does not affect my opinion of the book or the content of my review.

OMG! What a page turner. I can honestly say I was drawn in from that first sentence.....it was fantastic (that first sentence) I have to say though, the whole book was FANTASTIC.

Conner Haden - QB for the football team (pro sports not school,) ego driven, cocky, knows he has it and uses the charm, arrogant.....and the list could go on for miles. Every girl knows one of these and probably in the mind has been in "love/lust" with one of these. However this particular one has some brains (above his waist line even - LOL) He doesn't really use the brains above the waist often but when he does start to use them, he makes the book pop and sparkle while coming to life. You actually will cheer him on.....really it is true.

April Matthews - a shy girl who is a wedding planner, yep Conner's wedding planner (I see Lifetime channel movie happening here - HAHA) she has been hurt so deeply that she chooses NOT to like Conner before knowing him (smart girl in the beginning.) She is one of us girls that know the game and the player and she is not about to be a conquest of his. (Good girl!!!) But then she is fired from her job because of the event not happening. She is beyond pissed and Conner is at the heart of that anger, so it is a surprise when Conner tries to play "nice guy" and yet even April knows something seems off about him being nice. The catch, what is the catch??

She decides to let go a little and take the offer given to her by Conner. However, there is a major change in plans.....is that not what should be expected? She kind of did and yet wanted to just allow herself some much needed R&R after the whole she lost her job, and the playboy QB that caused that trouble. No surprise that he once again is right in the thick of the whole change of plans, is it? Nope. That is what Conner does best. It will surprise you though how even as a reader you start off knowing the typical playboy out for one thing and that being himself (and what he will get from this situation - of course,) but I was even drawn in and let my guard down. Glad I did too. (Right there with you April. Wishing that sometimes I would have had this kind of fairy tale like happen in my life.....yep no such luck there)

Is April tricked into something? Does Conner have ulterior motives? Does Conner start to realize he has hurt April? Do they both try their best to steer clear from one another or do they let loose and allow themselves the freedoms to play and walk away? Is there a little bit of a change for the playboy in store? What is their HEA or is there going to be a HEA for this pair? You MUST read this book to find out. I guarantee you that you will not be disappointed when you do.

### **Natalia says**

H was a douchebag almost through all book!!  
Not enough grovel...

h was nice but swoon to early knowing all the shitty things he just made!!

---

### **Carol says**

Bad boy falls for good girl after ruining her life as a wedding planner in cancelling his wedding and getting her fired.  
Will she give him a chance??? Is he as bad as he presents?  
The author presents you with well developed characters that pull at your heartstrings. The setting is stunning and mesmerizing. You can picture yourself there with the characters.  
The story weaves deception, adventure, intrigue with twists and turns that keep you glued to the book.  
A enjoyable, spicy, quick read !!!  
Thank you to the author for this eBook. My opinion is my own

---

### **Amanda says**

It's always a bit more difficult for me to get into a book that begins with the H having a detailed sexual encounter with o/w... especially in this book where he is calling off his wedding, but let's the girl go down in him and then saying "What a beautiful parting gift that was, babe. Shame I didn't get you anything in return.", and then bounces. I understand that men in these books are supposed to be 'bad boys' but that is way over the line for being a dick.

---

### **Lindsay says**

Cute. Def a fun read!!

---

### **Rebecca Membreño says**

#### **Totally enjoyable**

Enjoyed these characters immensely and the great "honeymoon" locale. April is NP nonsense while Connor is a typical jock that is full of himself, but changes because of her. The twists are fairly predictable and the story ends as I liked.

---

### **Cassi says**

#### **4 Stars**

Its was a little hard to get into but after I did the book was good. I like her writing and the story line. Will see about reading more by her.

---

### **Christine says**

Arc review For honest review. After a big break up before his wedding to Crystal he runs of with April the wedding coordinator see their story what a very cute story that you will love.

---

### **Ofelia says**

Short steamy read

---

### **Kristy Dean says**

Review By: Kristy Dean (April 2016)

Title: Bad Boys Wedding

Author: Avery Wilde

(Arc for honest review)

The authors writing style: This is the first book that I have read by Avery Wilde and will be adding her to my favorite lists. I was glad that this story was good with an HEA ending. I felt the connection build between the

characters and the events happening. There were very few mistakes, cuddles to the editor. I also have a feeling that a book two could be made or a series about the other players on the team. There was not a lot of over details or repeated lines, which was great. This was a typical bad boy who finally finds love in different place with a different person with a happy ending. I will be adding this to my favorite books to reread again. Overview: Connor is the star quarterback for the LA Lions. He lives a fast and hard life. He picks women whom are the typical high maintenance. Two days before he is to marry Crystal, he calls it off. She is in full drama mode when he leaves and goes to his bachelor party. But soon he sees a new person who looks mad and hot. He allows April, the wedding planner, in the VIP room, only for find out that she is mad he is canceling the wedding and throws a drink in his face. April is shocked at how he is trying to put the moves on her after he just broke up with the bride. Because the wedding is off, April's boss fires her. April is even more mad at Connor. When Connor offers her a chance to use his honeymoon as a parting gift, she is mad and shocked, but decides to go. Connor decides that he is going to go too, but not tell her in hopes that she will fall for him. But soon they both find who they really are. Will they end up together? Will the past haunt both of them? Will Connor ever grow up and see what the world has to offer him? Will April the wedding planner find a new beginning in life?

---

### **Leah Smith says**

#### **Good book**

Good book but I'm not crazy about first person. Loved the characters. Will read others from this author. Very light easy read!
