Balls & Chain

Mia Watts

Balls & Chain Mia Watts

Sam Bahlson doesn't know what the hell is going on. The FBI storms his workplace, takes him into custody, and then tells him he's the target of a notorious hitman. Since he's pretty low maintenance and doesn't take a lot of risks, he finds it hard to believe. Yet when Agent Jude Cheney whiskers him off to protective custody, it's bullet a grazing chase to the finish line.

When Sam discovers that Jude's hot for him, he's determined to make protective custody as enjoyable as possible. The bad guys keep coming, and so does Jude. Will they nab the man behind the hit in time, or is Sam's life going to end at gun point?

Jilrene ♥ says

Maybe not quite 4 stars, but really close. Lots of laughs and some aaaahhh moments. Short/quick read.

Jess says

funny parts, extremely hot sex & super sweet ending!

I enjoyed myself.

Tailtiu says

3,5*

L-D says

About 3.5 stars

Sam Bahlson is taken into protective custody by the FBI and Agent Jude Cheney is assigned to his case. When he discovers he has been inadvertently involved in some shady dealings by delivering some unknown packages, he has to go on the run when a hit is taken out on him.

This was a cute story and I liked Sam and Jude's characters. It was a fun read for the length and I thought the interaction between the characters was humorous.

V says

Way better than book number 1 from this series.

ElaineY says

I enjoyed this more than the first installment of the Handcuffs and Lace series. Btw, why is there "Lace" in the title? All 3 books are MM and while there's nothing to stop the boys from wearing lace, none of them do.

Anyway, Balls & Chain was a speedy read yet had more substance than I was expecting of a fluff romance. Due, no doubt, to the Sam's personality and his sniping at Jude who, to my surprise, handles Sam perfectly. I

was expecting Jude to be annoyingly silent and immovable and perhaps he was but Sam knew exactly how to break that barrier down.

Again, the action sequence was lightweight but at least there weren't any implausible situations and while the reason for Sam having to go into safe custody was neatly wrapped up, I didn't mind at all. I was reading this for the romance, wanted some suspense/action in keeping with the MC's job as an FBI agent and Ms Watts delivered nicely here.

I'm onto the 3rd and final installment - The Policeman's Balls.

Tina says

4.5 stars

Mia out did herself with the novella. In one short story she has managed to include, two hot men, drama, smokin' hot sex scenes, romantic scenes all tide up with a wicked twist of humor. Looking forward to more books.

Isabella says

Yum! Jude and Sam were hot and steamy in this second book in the series. Ms Watts still knows how to make us love her cops....

Lasha says

3.75 stars.

The one thing I count on in a Mia Watts book is banter between the two main characters and Balls and Chain delivers beautifully. The story starts as Sam Bahlson is confronted by the FBI at his workplace telling him his life is in danger and he's taken into protective custody by the very hot, big and built FBI agent Jude Cheney (yes, expect a lot of Vice President tie-in jokes). Now Sam is no fragile flower and he pushes Jude at every turn, even when the bad guys are chasing them. With 70 fun-filled pages, expect the two men to bicker, flirt and elude the baddies.

As with the first book in this series, She's Got Balls, the characters of Jude and Sam are not cardboard cut-outs from a romance thriller. I loved Sam and how he challenged Jude at every turn. And Jude, despite his burly stature – I imagined Vin Diesel in my head – gives as good as he gets. Since one of my all-time favorite television shows was Moonlighting – I loved Dave and Maddie's arguments – Mia Watts' dialogue sometimes reminds me of that show. (A good thing in my eyes). While the thriller part of the novel wasn't in the league of a Jason Bourne movie, it did hold me interest, but in actuality, it was the passion between Jude and Sam that kept me reading.

My only niggle was the ending. Without giving out spoilers, I felt it was tied up in a neat little bow, and while I love my HEAs, the end of Balls and Chain seemed too pat and sweet. However, despite that issue, I

really enjoyed the book and eagerly look forward to book three in the series, The Policeman's Balls.

Reviews by Jessewave

blub says

A good story with some editing hiccups. I liked it but not as much as I did She's Got Balls the first in the series by this author.

Heather C says

It didn't like this one anywhere near as much as the first one. It wasn't as funny, sexy, or interesting. Actually it was kinda dull and boring. Not really sure why I'm giving this 3 stars instead of 2. I guess because it was a short escape.

Gigi says

A Mia Watts **WIN!** She got everything right for me in this one. Hot sex, hot FBI agent, hot protective custody subject, great story, even a kick ass epilogue. She is my hit or miss queen, but it is out of the ballpark here! **RECOMMENDED!**

Bubbles Hunty Honest & Direct Opinions says

I love Mia Watts and I wish I could give this five stars but I can't. I almost gave it five after her "about me" section. It's fucking funny.

Only four stars because of the numerous editing mistakes and name changes. It seems like I always was being pulled out of the story because the wrong word was used or a word was left out. Also the names were sometimes changed and it made it confusing also the characters were called by first and last names and it changed between the two a lot so it was sometimes a challenge to remember who was who

Other than this is a cute funny story that was very enjoyable

Trisha Harrington says

The ending was just too sweet for me to give it less.

Bergur Arnar says

Hemm. Humm. What to say about this book...

Honestly, I loved the characters. they were very cute and extremely compatible.

However, the rest of the book was just agonisingly unrealistic.

The FBI just *kidnaps* him and he gets no info whatsoever? I'm pretty sure that's illegal, but hey it's the USA, who knows?

Secondly, he's THAT important that they use a helicopter to transport him? *Seriously???* *Do you even know how much a helicopter ride costs?* Not to mention how conspicuous it is.

Much like the last book I read by this author, this book was amazing as porn. A good 3.9 stars. However, as a book, I'm giving it a *generous* **2.4 star** rating.
