**Welcome to the world of Blood Courtesans. Where Vampires are real, and blood is a commodity.**

Once upon a time, I was a princess, a real one, but my life is no fairy tale. My parents died in a tragic accident; my aunt Flora, the woman who raised me as her own, is gone too. Now, I'm losing my ancestral home.

I'm desperate. Tomorrow, I'll be homeless and completely alone for the first time in my life. If only there was a way to earn what I need in a month... Maybe there is—become a blood courtesan and sell myself to a rich and powerful vampire.

Time has run out, and I have a decision to make.

The Vampire Blood Courtesans: It's not supposed to be about love... until it is.

The Blood Courtesans project is a multi-author series set in the world created by Michelle Fox.

### **Joann Herley says**

Desired: Stella (Blood Courtesans) is a Paranormal Contemporary Romance. It takes place in Rome, and Ms. La Porta's descriptions easily transport you there. Stella Colonna, once a princess, has lost her family and her home. She is struggling to survive. The vampire, Fabian, is an actor that resides not far from Stella and is often seen by her standing on his balcony. When all hope is gone, Stella must make some difficult decisions. One of which brings her face to face with danger and her past. The story is a little slow in the beginning but it soon becomes a drama full of angst, passion, and love. This story is on my "Read it Again" list.

### **Melanie Hawkins says**

This story had gripped my emotions from the very beginning. I kept reading and wondering was Stella ever going to get a break. I understand all too well when all things go wrong and it seems nothing could go right. In walks the man of your dreams (literally) and you might have that change of hope, or will you.

You will not be disappointed in this journey with Stella and discover if she finally gets her happiness again. Don't forget the tissues, trust me.

Until Next Time... Tabi

#### **A different but good tale**

The back story leading up to Stella's decision was more involved than in most of these stories, but a welcome change of pace. These two are a good couple, both suffering because of the same vampire. All in all, a great addition and I'd like to hear more about this couple, even if in another book in series.

Stella is a princess by birth, but she knows loss and hard work. Finding out that she is facing another devastating loss she makes the decision to become a Blood Courtesan. Fabian is the famous movie star vamp next door. These two are an interesting pair. I really enjoyed reading their story and watching how things played out. Would love to see more from them in the future.

**Fate**

Loss, history, danger, love great words to describe what you will find in this installment of the Blood Courtesans. Funny things happen to you when you catch the eye of a vampire.

Although not the 1st blood courtesan book I've read it was the 1st book by this author. I absolutely loved it and read it all in one sitting.

I loved the whole celebrity crush becoming a reality. Fabian and Stella are my favourite couple so far and Malvina is an excellent baddie. I can't wait to read more from this author.

All that's left of Stella Colonna's family estate is a large tumbling down house in the heart of Rome. She is barely making ends meet. The house needs urgent work that she can't afford. Can she sell the only thing she has left, herself?

Fabian Laurentis is a two thousand year old vampire and a movie star.

He has a very special reason for keeping an eye on his beautiful neighbour.

This is an exciting story with lots of blood thirsty vampire fights and a nice sexy romance. It is part of the "Blood Courtesans " series but written as a stand alone.

It has just about everything you can want from this genre.

#### **Another great vampire courtesan novel!!!**

I loved this one as I have most of the series. All written by different authors all with the same idea but each with their own very unique story line!! And this one was awesome.

#### **Highly Recommend**

Dive head first into the wonderful world of the Blood Courtesans series created by Michelle Fox in this emotional journey and awakening by Monica La Porta. Stella's story is different in many ways from the other books in this series. The story takes place in Rome. Stella is a penniless Princess trying to save our family home. She is strong willed and determined. Like other books in this series, Stella turns to being a blood courtesan in her hour of need even when vampires terrify her deeply with good reason. The vampires in this series is not your typical vamps. They are protective, intensely romantic, and beyond sexy. All paranormal romance lovers will devour this book one page at a time.

What happens when you fall from grace? The once prominent family has lost is societal placing and as one knows there aren't any friends there to help you once you don't have the money to stay there. A young woman finds this out early in life, but the fall hasn't stop and she hasn't hit bottom just yet.

Keeping an eye out and holding the truth; he can only stand by and watch. If his maker even gets a whiff of his interest or guardian behavior he will pay the price. But it soon becomes obvious he needs to step in.

"How" is the real issue. It's been years since he even spoke to her but he will makes things right.

Absolutely heart felt and tear jerker of a story with danger, a past forgotten and love that knows no bounds. If you haven't gotten hooked on these books by now this one will have you moved. I voluntarily received a complimentary copy for an honest review.

This for me is the only book in the series that is well-rounded. I also enjoyed the connection and friendships between the characters. It was a win for me that Fabian and Stella shared a past so, their romance didn't seem rushed like in some of the other books. It was more of finding each other again even though she was unaware of his feelings from the beginning. I have only one more book left in the series 'Cursed'. I hope it is as good as this.

Stella has had a huge crush on her neighbor Fabian the Actor. She doesn't know why he throws huge parties all the time and is always having loud sex too. Her virgin self can only dream about being with him. Great read couldn't put down till finished.

\*\*\* I voluntarily reviewed this book, I gained no monetary incentives nor was I specifically requested to review the book, these are my honest ramblings and I hope you enjoy reading them - kat\*\*\*

Well this was a quick read, I started at lunch time (30 minutes) then completed the book tonight, couldn't put it down. I have read 2 other stories from this series, one being Escape: Flora and the second of that series Freedom: Flora Both are great, the rest of this series is going on my TBR list, I have one more to read next which I hope is as good as the ones I have just read.

So what did I think to Stella's book? - Italy, Vampires and Artists (Great Combination!)... well Monica La

Porta has captured me as a fan with her other books that were based in Rome (A serious bucket list destination for me) and since its the other side of the world I will have to be content in visiting it via Ms. La Porta's books.

Stella was an easy character to like, an artist who has fallen on hard times (both things I have experience at!) Italy has a lot of history, the monarchy has been disbanded but the bloodlines continue, some prosper and some do not, Stella is at the end of the line, about to be kicked out of her ancestral home, because it is in dire need of repair, and she has no money to pay for it to be repaired... Unless she becomes a blood courtesan, and although she is very wary she puts herself up for Auction.

The Winner of her Auction? Well he was a Vampire that although Ancient, had not lost his humanity and I loved his honourable personality. You will see why I came to this conclusion when you read the book, but I do not want to give anything away.

The book has action, suspense and romance, everything to give the reader an escape into a HEA. I hope that there will be more about Stella and her Vampire.

Desired: A Vampire Blood Courtesans Romance

by Monica La Porta, Michelle Fox

?????

What a great story to read! Its so enjoyable, well written and the scenes are fabulous. I couldn't stop reading and this my first time reading Monica La Porta, every book I have read of Michelle Fox I have absolutely love! This is Stella and Fabrian's story. Stella Colonnas once lived as Princess until a car accident killed her parents. Fabrian Laurentis was a gladiator in ancient Rome before he was turned into a Vampire. The characters are well developed and intriguing. From the start of this story there is temptation, action, betrayal sensual scenes and dark encounters. This is such a entertaining story to read. The Vampire Blood Courtesans series is a series of various authors, each story is a standalone story which can be read in any order and there are no cliffhangers. This series is worthy of a following. I certainly intend to read all of the Vampire Blood Courtesans series.

I am loving this series. I love vampire books. This is a quick read, perfect for when I don't have a lot of time to read. These characters pulled me in and I was rooting for them to get their happy ending. I love the little suspense and action. This series is exposing me to authors I haven't read before and and happy to be finding now.
