Her Shameful Secret Susanna Carr

Claimed but not forgiven

Isabella Williams would know those expensive shoes and that arrogant swagger anywhere. After months of hiding, Antonio Rossi has found her! The cravings that she'd thought buried come flooding back, and with them the taste of regret?for her mistake means she'll never kiss his lips again. But now she has more than just herself to think about and, hand cradling her stomach, she faces his wrath. Antonio might have masked his reasons for approaching her with business, but his need for her is entirely personal. And that's before he discovers her secret...

"Sizzling tension and beautifully crafted scenery, an essential read for a romantic!"?Lucy B, Receptionist, Leeds

Arizbe says

This is the worst book I've read... Disappointing

RomLibrary says

She has baby with the brother. Hated this book started great but it was deceiving. She is waitress he arrives. She is pregnant. So she runs. She falls on her knees and he catches her. The brother drugged her but still it is icky. Claimed but not forgiven

Isabella Williams would know those expensive shoes and that arrogant swagger anywhere. After months of hiding, Antonio Rossi has found her!

The cravings that she'd thought buried come flooding back, and with them the taste of regret for her mistake means she'll never kiss his lips again. But now she has more than just herself to think about and, hand cradling her stomach, she faces his wrath.

Antonio might have masked his reasons for approaching her with business, but his need for her is entirely personal. And that's before he discovers her secret...

?????? ???? says

Just terrible, heroine's betrayal ends in pregnancy. Even more, the child is son of his brother-in-law. Unforgivable.

Yanira Soto says

siempre es bueno leerse una novela de estas, rapida fluida e interesantes de principio a fin, despues de tantos libros de mas de 500 paginas es relajante una historia que definiremos el mismo dia....lo unico que no entra en la cabeza...porque quedo embarazada del hermano

Shanelle says

Enjoyed it thoroughly. I prefer the stories that are more about the interaction between the main characters. This author knows how to create tension between the characters and keep it there. The emotion is real, honest. People make mistakes, and do stupid things especially when emotions are running high.

Fanniny Moreno Zavaleta says

Wow, she really loved him the first time...

Xai Xai says

Oh! WoW! This was deep! The protagonists loved each other. However, lack of trust and communication caused the antagonistic brother to hurt them, who ultimately met his death. They've learn to find their way to each other without demanding proof of innocence. They learned to heal together and grew stronger to succeed and ultimately beat the odds.

IamGamz says

I can sum this book up in one word: Angst!

There is so much hurt and sorrow and self flagellation going on in this book that I was actually surprised I enjoyed it.

Isabella and Antonio fell for each other the moment they met. Their affair was hot. Torrid. But nothing lasts forever and Antonio's lack of trust makes him destroy his relationship with Isabella and literally kick her out of his life.

She turns to the only friend she has, Giovanni, Antonio's brother. Gio and Antonio's relationship is one full strife and Isabella unknowingly ends up as a pawn.

The level of pain and regret in the book is enormous. The challenges the H/h face seem insurmountable. Ms. Carr writing keeps you riveted and rooting for the happy ending that you just isn't sure will come. This one was an excellent read.

Amber Meller says

Pregnancy is one thing, being on the run is another. Mistakes are always being made, they don't know what to do. One is actually trying to look after a child, but can't quite get the money. While the other is more ruthless, and wants all the family shares, with a very intimidating mum. She doesn't know how to interpret his outward feelings. He can't keep his family secrets, no matter how bad they are perceived to be.

It is a good read, I'll give it read and quick.

Dracanea says

La historia no es mala, tampoco original, lo que me ha dado vergüenza ajena es como la Protagonista deja que la traten sin soltar un simple guantazo. Soy la primera que me tapo los oídos porque a veces se dicen cosas que no se quieren decir, pero que te machaqueen de esta manera sin rebelarte creo que no es lo que espero de una protagonista.

TheMadHatter says

Actual Rating: 1.5 Stars (Rounded up as feel one star is harsh for anyone who has actually managed to write and publish a book) :-)

I am currently reading two books, neither of which are holding my interest. The thought of reading either of them on a relaxing Friday night so didn't appeal that I picked up a M&B book from a pile of books from my Mum.

I hate to say it, but this book is DREADFUL (Capitals totally intended!). The success of these books hinge on you liking the female lead and I hated this girl. She was weak and spineless and manipulative and totally clueless.

The other issue I have is that current M&B authors all seem to be trying to outdo each other with these crazy outlandish storylines. They have forgotten the art and elegance of simplicity. Check this one out: "Trashy american chick in Rome on holidays. Gets it on with hot Roman. He thinks she is cheating with his evil brother. Kicks her out. So she goes and wait for it actually cheats on him with said evil Brother and gets pregnant. Evil brother dies, but leaves her his share of the family legacy. Original guy is upset and tries to seduce her into staying to get shares and custody rights and is still angry because he said she cheated. She said she didn't as they technically weren't together at the time she did sleep with him. I am sorry sweetie, but if you loved this guy as much as you declared for the 20 or so pages then sleeping with his brother as payback is really not the answer or the way to show devotion. This book is wrong on so many levels. What is worse, is that nobody calls her on it....wtf?

If I am going to pick up one of these books, I am not expecting literary excellence, but I am damn well expecting guilty pleasure. To fail on that account just makes me angry for ruining a trashy Friday night. Bring back characters with a backbone and bring back simplistic back stories.

Becca says

!Que protagonista tan ligera de cascos! Eso es todo lo que diré.

Tali says

This book reads like it's half-finished. It literally goes from the heroine telling the hero that she'll never forgive him to the epilogue where they're happily married and this isn't the only time in the book either

where issues and plot threads are left dangling without hope of resolution. I kind of felt like this is the kind of story that would perhaps be better off being twice as long (possibly not a Mills & Boon). I also struggled with the issue of the heroine protesting her innocence following accusations of cheating with the hero's brother, yet being pregnant with the brother's baby at the time. It just didn't work for me. This isn't necessarily a bad story, I did speed through it, but I don't think it's one that I'll be recommending. 2 stars.

Yazmin says

4.5 Stars

Her Shameful Little Secret by Susanna Carr is a sweet and hot read.

Isabella Williams has had a hard time since her lover Antonio Rossi tossed her out of his life and his brother Gio took advantage of her pain and changed everything forever. Now she must work and save enough money to return to her real life in the US and continue her live the best she can, even if it takes her months.

Antonio Rossi has not been able to forgive or forget Bella's betrayal, but now that his brother has died made her heir of half of what is rightfully his inheritance, he will locate her and make her explain why he did and make her give everything back. But he what he doesn't expect is the rundown place where she is living and working at.

After he learns that she is expecting his brother's child he sees that as proof of her betrayal of him and he will seek revenge. But can he really hate the only woman he has truly loved and the child who is also related to him? Antonio will have many lessons to learn about trust and what secrets can do to damage a relationship, as well as both Bella and him will have to learn to forgive errors in judgment (even if they are in very different ways than you expect) if they want to be together and be the family they wish to be.

If you want a hot read with a deep romance then you will like Her Shameful Little Secret.

Ana Maria says

Spoilers!!

I don't know why the bad reviews. First this one book satisfies my need to have the tables turned on the Hero for a change. I have read countless books where HE cheated and She had to forgive and accept the child of the other woman. I wouldn't. So this book is from the other point and He must accept the child.

Then there is no cheating!!!! He dumped HER! She slept with the brother AFTER she found out from the

press he`s getting married. The brother got her drunk andtook it from there. So in my book she was free agent and had a bad involvement .

Now he.... well he`s the skunk in the story since he had more bed partners than her before and after their affair.

So because he is a bit of a stupid jack and doesn`t suffer enough the book lost a star.

All in all the book was good.
