# From Reader Review **Hidden Pictures: Short Stories and Poems** for online ebook

## **wanderer says**

The title of this book fits to a *T. Castillo's* gift is the twist ending.

I'm not a huge short story fan. Most short stories just feel like baby novels, to me, and I'd rather have the full version. These are just right, though, like a perfectly seasoned appetizer.

My favorite, the one that stuck with me, was "The Shore Bridge Statue", a modern story with a Gothic feel. I also loved "Tamer" and "The Dryad's Choice".

I received this book for free thanks to a Goodreads.com First Reads giveaway.

Hidden Pictures is a volume of Castillo's short stories and poems. Full of imagination and colorful imagery, what I liked best was that I could skip around and read the different pieces in whatever order suited me at the time. Because I work in the local community college library, I particularly enjoyed the story "Paper." (Though I do not, in any way, resemble the librarian in the story--Phillip.)

If you are looking for a light read, a book to tuck in your bag for a commute, or something to keep on your nightstand for those moments when you need a word to snack on while waiting on sleep--Hidden Pictures may be just what you're looking for!

## **Celesta Thiessen says**

I've read the Toby the Trilby series and one of her other books and I really LOVED them. This one was a good collection of short stories. Some were great, some were good and some were ok. My favourite was Dryad's Tale. That was a beautiful story that could have been a whole novel by itself!
