I absolutely loved it....

Karen Durant says

7 hot & steamy standalone romance stories about bad boy billionaires, cowboys, soldiers & athletes ready for some sexy women for some hot, hot nights.

Terry says

Bad Boys are good

Love bad boy stories where they always get the girl, and the HEA. Then this is the book for you. This book has great stories even though a couple start out on the slow side. They make up for it by the end.

The only problem is the misused words. I really wish whomever proof reads them would pay better attention. It is rather distracting to the reader. Hence my reason for only 4 stars.

Pamela Davis says

A collection of sexy & spicy novellas just in time for Christmas.

Punished For Christmas - Bella Love Wins. A hot sexy short read about getting revenge.

Unwrapped- KB Winters. A sexy navy seal home for Christmas & hooks up with best friends sister. As usual with KB decadently yummy & spicy.

Bad Boy Crush - Regina Fox. Former army vet. Jack is back home for holidays in California & hooks up with his best friends sister who now lives in New York also home for the holidays. Also a short sexy read.

Close Encounters Christmas - C.C. Cartwright. 5 stars ***** (My favourite novella in this bundle) This novella is sweet & spicy sexy with decadently delicious scenes. Macy (Nerd) & Chase - No strings attached kind of guy (Frat Boy Football Player). A beautifully written novella with enchanting character's.

Breath - Ava Alexia. This short story is very sweet & romantic. As Ben an actor meets the new neighbor Laura & her daughter but things aren't as they seem.

The Billionaire's Vow by Jay S. Wilder & Kendra Wild. This one features engaged couple Adam & Anna who are trying to deal with there family issues of there recent engagement.

Hero Cowboy for Christmas by Bella Love Wins, JC Coulter & Chloe Grey.

This one features Emmett a bartender/ranch hand- Cowboy & Blossom a single mother & her young son. Tragedy strikes as a fire starts at a ranch & Blossom loses her hero brother in the fire. This short story is sweet & romantic.

I voluntarily reviewed an advanced reading copy of this boxset.

Valeen Robertson (Live Thru Books Blog) says

This is a boxset with a good mix of stories: military, billionaire, college sports, cowboy, etc.

Punished for Christmas by Bella Love Wins features Riley and Malcolm. She and Malcolm hook up one night and have a good time. Malcolm can't get her out of his head the next day and doesn't realize exactly who she is and what her agenda is. He finds out and she gets the punishment of her life! Short and hot.

Unwrapped by KB Winters features Steven and Ruby. He's a Navy SEAL home for the holidays and Ruby's his best friend Rick's little sister who is all grown up and knocking Steven's socks off. They end up hooking up, but can they turn their chemistry into a full blown relationship? As always by KB Winters, well written and sexy.

Bad Boy Crush by Regina Fox features Jack and Margo. Jack is former Army who's now home for the holidays when he sees his best friend Ken's little sister Margo. They end up in bed but there's a big obstacle to a relationship: she's planning on moving to New York on Christmas day. Also short, but sexy.

Close Encounters Christmas by CC Cartwright features Maci and Chase, 2 college students who meet when she accidentally walks in on him and another girl going at it during a frat party they're both at. They end up becoming study buddies, in more ways than one. He tutors her in the more physical aspects of biology and she tutors him in regular biology. I really like this one, it's short, but sweet and sexy.

Breathe by Ava Alexia features Ben, an up and coming actor and Laura, his new neighbor. It's a bit disconnected and I don't like Laura. Ben is sweet, though.

The Billionaire's Vow by Jay S. Wilder and Kendra Wild features Adam and Anna. We're thrown into their story where they're already engaged and now they're trying to appease their families. I like this one, too, although it wasn't completely fleshed out.

Hero Cowboy for Christmas by Bella Love Wins, JC Coulter and Chloe Grey features Emmett, a bartender, and Blossom, a single mom with a young son. Although I like this story, it was a bit strange. It almost seems historical but then there are modern things thrown in so I'm not sure exactly if this is contemporary or not. The story is sweet, though.

All in all, a nice boxset with a mixture of sexy holiday romances.

I received an ARC for an honest review.

Dora says

Lot's of great short stories by many authors. Was a great holiday read.

Will enjoy reading more by these authors. All the stories kept me kept my attention and loved them.

Goddess of Chaos says

2 stories read, very happy with this set

The holiday timing has felt secondary, in both of the stories I've read so far, to much larger and more impressive themes.

Punished for Christmas deals with corporate responsibility and activism, where Breathe takes on Chronic health conditions, and how they can effect individual's and couple's lives.

I appreciated that these quick, fun reads retained a light feel while touching on some serious and heavy material.

In both stories I have read so far I think with minor revisions Christmas / the holiday could be removed and the story would not suffer. I was in the mood for a holiday romance when I read these, but they are so light on that aspect I think they could be enjoyed year round, and even when that is not something I was looking for.

I was gifted with a copy of this box set, and switched to the Kindle Unlimited version when it was published. I enjoy these opportunities to read stories from authors I am familiar with, along with new to me authors.
