Jadeite Tijan

From Tijan's Facebook page.

Jaded and Still Jaded have both been written and published. I started writing the third, Jadeite, but I didn't like it. It was abandoned and the real ending to the Jaded Series, titled Jaden, will be released Dec 2014. Until then, here is Jadeite. It is not finished so be warned!!! This is the alternate version to Jaded 3.

Thanks to a few of Tijan's loyal fans, they proudly pointed me to the links of chap. 1-10 to her FB page. I'm assuming she wrote these pages for our reading pleasure because it (OMG I CAN'T BELIEVE I'M SAYING THIS!!!! TIJAN I hope you know that I am no doubt one of your greatest fans!!!) BUT it did seem rushed with a lot of holes in it. I know, I know the book is NOT complete nor is it the final cut. . Nonetheless I enjoyed it. If I'm not mistakened, the eta. is Dec. 2014 - but am I the only one who feels like I'm waiting for a lifetime? lol

I CANT WAIT. I JUST CANT. I AM GOING CRAZY.

Im lost in my own head trying to conjure possible scenes for this book. I am angry, i am sad, i am in love and ugh i am everything at once because of this. And once again, its Tijan that has done this to me. I dont know if i should be thankful or i should regret ever reading her work. A girl can only take too much.

But sadly, i am a sucker for emotional rollercoasters therefore that makes me a Tijan fan.

On to my sentiments about this series. I love the characters, everyone really. I love how Tijan portrayed them and i especially love how real they are. But despite my love for all the characters, i still have my favorite. And that is Bryce. I just love him. I love everything about him. And sometimes, Sheldon is my least favorite. There are times when i just want to cut the bitch but at the same time worship her. But Bryce and Sheldon together, well that for me is the real thing. I love them together. I love how Tijan described them together. When it comes to their relationship, nothing can turn out wrong in my eyes. Even if one of them screws up like when Sheldon cheated on Bryce with Denton, it still couldnt shake my belief in the couple. Theyre the type of book couple that reel you in and get you hooked. And that is something that i wouldnt want wasted.

Frankly, im not that concerned about Sheldon's new creeper. Because i know shes strong when it comes to that and that she may break but i also know she'll pull through. I am concerned though when it comes to her relationship with Bryce. We all know the girls got walls stronger than fort knox around herself when it comes to emotional stuff. Thats why i fear for her decision.

Yes, i think she loves Corrigan. But im pretty sure she loves Bryce more. Corrigan is great for her. He makes her complete, whole. But without Bryce, there wouldnt even be a piece to begin with. Its just how i see them. Theyre a threesome fearsome. They work as a unit and theyre thick to the core. But even Jesus had a favorite disciple. There will always be one that overpowers the other. And the way i see it, its Bryce when it comes to

Sheldon's heart. She may have forgotten it. But its only him, its only ever been him. Corrigan will always complete her heart but Bryce IS her heart. And this i hope Tijan sees too. I trust her to work her magic. But i cant help but fear you know.

So Tijan, thank you. I love you. And i trust you enough to give Bryce and Sheldon and Corrigan too (with someone else i hope) their HEA.
