The Patriots left me bloody and broken in an alley, but it wasn't them I feared.

I feared the wrath of Jared Lane, the only man I've ever loved. The man I betrayed.

Jared's not the only one who cares about stopping the Patriots. I may have worked for them, but I am not one of them. I care about him and his family, and that's exactly why I have to do everything I can to shut down this operation. Even if it means risking my life.

Paulette Hayes betrayed me.

My Paulie. A part of me is pissed that I let her deceive me. But when I find her in that alley on the verge of death, hear the doctor describe her injuries...my anger is redirected.

I'm a Navy SEAL who always gets the job done, and yet this mission isn't like the others. Not when those sick lunatics who call themselves the Patriots are threatening my family. Not when my brother Roman is still MIA.

No matter the cost, I won't let anyone hurt my family or take Paulie away from me.

Rachel Lynn Miller says

I had looked forward to Jared's story, and I was not disappointed. Even considering the madness in the previous stories, this one is the most intense one yet as Jared discovers the cruel and violent ways in which the woman he loves was tortured and almost killed. I love how Paulie's character really surprises readers in light of the way she is portrayed leading up to book four. She does not just want to sit at home and play the role of happy housewife, and I loved how there is an intriguing story line and theme of redemption that goes far beyond the intimacy and love that these two characters share in the bedroom.

Emelle Brennan says

This story could have been told with 75% fewer characters. Too much to keep track of, lost interest.

Irene Marshall says

Great read

Another of the Lane brothers gets his woman, Jared and Paulette go through their own hell just to be together, Paulette is badly beaten and is saved by Jared but she still faces the bad people. The plot against the Lanes thickens and the terrorist group is getting mores daring. I look forward to Romans story and what happens next.

Michele bookloverforever says

a damaged damsel rescued barely in the nick of time. more danger, betrayal, angst in this soap opera about the Lane family.

Jodi Cain says

I love the Lane family. It takes a strong woman to love Jared the way he needs to be loved. Paulie is just the right woman for that job. She is a very strong woman and will put Jared in his place when need be. Now time to read Roman's story..
