Worthy of a 50 book series, and a tv show!!! So good...the twists and turns on every page leave you wanting even more. Follow Tuck on his adventures as a man-for-hire. Bodyguard, PI, you name it he does it. Oh to be his current fling.....

### **Marsha says**

Lianna by N. Kuhn is a hott read. Not exactly a love story but still filled with some amazing love scenes. This book is more about the mystery and chasing the bad guys. I am excited to see where Kuhn takes this series.

This was a very funny novella! Full of action and suspense with lots of lust mixed in, and the twists and turns on every page leave you wanting more.

The characters were great and the writing/story were well thought out with enough background and detail that you get pulled in right away.

Way to go N Kuhn! Wanting more.

### **Ashley Stoyanoff says**

Well this was a fun novella! Full of action and suspense with lots of lust mixed in. This one kept me interested right until the end.

I really enjoyed Tucker's character. He was easy to follow along and I loved his attitude. I wasn't a huge fan of the love interest (or better, the lust interest) Lianna. But with Tucker around, I hardly noticed her. My focus was pretty much only on him. All I can say is holy hotness.

Once the story got going, it was action packed and moved along at a quick and smooth pace. The plot was great and well thought out. I also really enjoyed seeing all the sexual frustration from a male POV.

So what stopped me from loving it? Well, with only 70-ish pages, I found myself putting it down a few times. There was a lot of information/back-story at the very beginning that made it drag a bit. It was definitely needed, but could have been spread out. As if was, it took me a bit to get into it and when I did the story was over.

Overall, it was a fun read. If you are looking for something quick that's packed with action and some steaminess mixed in then you should check this one out.

I'm not done with this book yet, but it's one you can't put down!!! Tuck is one hell of a guy with an attitude to go with it!!! I love the action and fast pace of the book!!! I will finish this review when I'm completely done with the book, but I just wanted everyone to know that this is definately a book to get!! I'm not a great review person, but when I have something to say about a book, I'm going to let others know to that this a great book and now I'm off to finish reading. A really brilliant author. You don't have to have Patterson or Grisham or Brown after your name to be brilliant!!! This is some great writing and I will buy every single book by N Kuhn. I have 4 now....but this is a great book to start with!!!

Always a fan,  
Jacque Brant

I loved this book! I'm usually more of a paranormal book reader but stepped out of my box and found a series and author I love. Tucked In: Jessica is cued up to be read next. This book drew me into the story right away and kept me there until the very last word.

### **Kelly Erickson says**

Tucked In: Lianna is a fun, easy, fast novella. The characters and story are well planned. But the number of errors in spelling and punctuation interfered with my enjoyment of what could have been a really cute story. With a good proofreader, this would have rated 4 stars. But I have to give it 3.

### **Ravenz Reviews says**

Tucked In: Lianna is a fun novella. Fast and easy to read and the characters are great. The writing and story are well thought out with enough background and detail that you get pulled in right away. There are, unfortunately, a lot of errors in spelling and grammar as well as repeated paragraphs that slow down the action. Several times I had to stop and try to figure out what the author meant to say. With a good proofreader, this would easily have received 4 stars. But I am a stickler when it comes to missing (or too many) commas and quotation marks. And when it was very clear that spell check had changed something to a similar but wrong word, I have to deduct a star. After reading some of the author's other works, I expected better.

I give this book 3 stars \*\*\*

This review was written by Kelly as such is my own opinion and not necessarily that of the others here at Ravenz Reviews.

## **Kandi says**

Full of suspense, action, lust and some personal revelation, this book is awesome! Lance Tucker has made a name for himself by tracking down, protecting and returning missing people. When he's called to "Tuck" Lianna Landry, he gets much more than he bargained for. Coming face to face with the gorgeous redhead, and having to save her ends up triggering painful memories. Can he handle it? Or will this "tuck" be too much for him?

## **T. says**

Mmm, what to say about this one? Ex-Military noir? What saved this from 3-star obscurity was the unique plot and the tangy flavor of an old hard-boiled Sam Spade novel blended with a contemporary crime-drama situation of a modern cop show. I would probably read another book in this series just to see if it grows on me a bit more. I liked it, although there felt like something was missing, but mmmm, not quite sure what it was. This is one I may read again in a month or two to try and pin down my vague dissatisfaction. 4-star worthy, still wondering what could have happened to make it a 5-star read.

## **Linda says**

3.5 Stars

For the most part, I really enjoyed this book. And I really liked Tuck, issues and all. However, my only downer is that I wasn't the biggest fan of Lianna. She was whiny and self-pitying, when she wasn't trying to get him into bed.

Tuck is ex-military. After his last mission went bad, he returns home to the only job he is skilled at, bodyguard / sometimes permanent problem solver. Lianna Landry was just a job, but one he didn't expect to be attracted to. She's a drug addict, has been actress given a second chance at re-animating her career. The career she threw away on booze and drugs. A child actress that made bad decisions. Tuck is hired by the studio to retrieve her when she doesn't show up for work one day. He finds her in the worst possible place. One that just walking out of isn't going to be easy, and actually leads to car chases, shootings, kidnapping, and eventually redemption.

Although the book wasn't perfect, it was written in a way that kind of had a somewhat old fashioned feel to it, but not. Can't really explain this, but again, if I could have liked Lianna, I may have liked this more, but she was just plain annoying. She finally became likeable at the end, but the book ends before we know for sure she'll actually turn her life around.

### **Kerry Erickson says**

I was very intrigued by this story from the start. Tucker is an easy character to follow and I loved his interactions with Lianna. The way he handles himself and deals with the rest of the world is something that could keep me busy forever! This is an easy read and I highly recommend it to anyone. The only thing I found to keep this from being a 5 star book were some editing mistakes that would have been caught with an extra round of proof-reading. I only notice them from doing proofing for another author as I'm naturally prone to catch them. Overall I LOVED the storyline and think this is easily one of my top favorite authors! I can't wait to read the next Episode!

### **Donna Harms says**

While reading this I could hear those old detective movie music playing in my head....I absolutely loved this from start to finish...You are drawn to Tuck immediately, his character/strength/integrity/attraction/pain. I just loved everything about this book. He has a no nonsense kind of attitude, which helps with the likes of a down and out movie star, Lianna,who is trying to make a comeback and manages to get herself into a lot of trouble. Looking forward to reading Tucked In: Jessica next.

### **Brianna Hughes says**

This was the first book from this author, that I've read and will be reading more from her. Her character Tucker is a very well developed character and a hottie to boot. The story was complete with the Suspense, Hollywood backlight, lust and dominance not to mention danger at every corner all packed in. It is a quick read, but still one worth reading. Way to go N Kuhn! Wanting more.
