From New York Times bestselling authors Allison Brennan and Laura Griffin comes the next heart-pounding addition to the Moreno & Hart mystery series.

Scarlet Moreno and Krista Hart's PI business is teetering on the brink of failure when they land their next big case... and this time it's personal. After digging for years into the mysterious shooting that cost Scarlet her badge and nearly her life, Scarlet has finally unearthed some answers. She thinks she knows who is behind the plot to murder her three years ago, but to prove her case she needs the help of a previously overlooked witness who seems to have vanished.

Krista is on the job. It's the most challenging skip trace of her career, so she brings in the big guns—rival private investigator R.J. Flynn. While Krista and R.J. set out to track down the missing witness, Scarlet sets out on a dangerous quest for answers—starting with her former partner, who retired to Arizona. She trusts only Krista because everyone else is keeping secrets, including her boyfriend, Detective Alex Bishop. As Scarlet begins to unravel a shocking conspiracy, Krista hones in on the lone witness ... and someone close to both of them is watching their every move. With the clock ticking down and the body count rising, Scarlet and Krista realize this may be their last case ... because a vicious killer with everything to lose wants them both dead.

**Sad to see this series end.**

Each book built the reader up to the conclusion in book 3. I loved Scarlet and Krista. They really complemented each other with their different personalities and way of attacking problems. I'm really sad to see the series end.

This was a good wrap up to the trilogy, but I hope that LG and AB aren't finished with the series. While we did get a good HFN ending for Alex and Scarlet, we didn't for Krista and RJ. RJ still has a lot of secrets that he isn't willing to trust Krista with, but he wants her to completely trust him...duh...man thinkin. The entire trilogy was well done and I didn't see that bad guy coming. I would read the entire series in order to get the full story arc of Scarlet's struggle to find out who attempted to kill her and Krista over 3 years ago. That part does get tied up nicely.

### **Moreno and Hart**

I love the Moreno & Hart series. Once I read the novella, I was hooked and had to read the other three full books. Highly recommend and hope there are more planned for future publication.

I'm glad that we finally have some resolution about what happened to the past with Scarlett. It was interesting the path of bread crumbs that they followed to get to the bottom of things. I hated some of the things that Krista and Scarlett found out, people that they trusted that betrayed them, people that had to keep things hidden from them due to their jobs. Had they been able to tell the truth things would have been much better for everyone.

OHMAHGAWD...this book was FANFREAKINTASTIC!!!

This series is one of my faves but this book was by far off the chart. I was riveted and unable to stop reading. I was also on the edge of my seat...action, mystery, romance...THIS book had it ALL.

What a wild ride. These two authors have created such a fantastic series. I LOVE strong, kick ass woman that are the center of the story. Moreno & Hart are perfect examples of that. They are funny, strong willed, smart...especially street smart. If you are looking for a great series...YOU MUST READ!!!!

What a wild ride this book and series has been. We finally get to find out the who and why Moreno was set up and almost killed 3 years ago. All the questions we've had since the first book are answered with some shocking revelations.

I want to commend the two authors Allison Brennan and Laura Griffin for first writing two strong kick butt women and for also making the writing seem like it was just coming from one person. You really couldn't tell the difference between them. I hope that they find the time to collaborate again and give us more of Moreno and Hart.

I love these characters because they are flawed, human, and believable and the writing is very good. Brennan and Griffin, the two authors, did a great job of developing the characters throughout the books and making sure their 'voices' were consistent. There are still some plot line questions that didn't get answered for me and typos/editing issues throughout the series that a good editor could help fix.

Hopefully, we will see more from these 2 authors and from Scarlet and Krista!

### **Another great Moreno and Hart story- very satisfying finish**

These two characters are great and so well drawn by their authors. It's a satisfactory completion of a story that's been developed over the series- but I hope they will now work on more cases and we'll get to see them develop as PI's and in their relationships with Alex and RJ. I love these characters and don't want to let them go!

## **Kelli Jo says**

Griffin and Brennan bring it again in this latest of their Moreno & Hart series. Scarlet is DETERMINED to find who ordered the hit on her three years ago and she believes the answer lies with an overlooked witness. She goes to talk with her former partner, leaving Krista to find the witness, with the help of Flynn, the PI she's trying NOT to be in love with. They both end up over their heads, because they have come too close and the people in "charge" are nervous. It takes the men in their lives, their significant others, brother, former partner, to help save them AND prove what they know. Fast paced and un-put-downable! Do NOT pass this one over!!

## **Toni says**

Lost and Found is the third in Laura Griffin and Allison Brennan's ongoing collaboration the Moreno and Hart series. Like the previous two full-length novels it is two separate novellas tied together by characters. This installment, however, ties both novellas together into the thrilling conclusion to the ongoing case of who shot Scarlet three and a half years ago. Both novellas are solid reads on their own, but together they move the story forward to its dramatic conclusion. Though there is a definite break between them you don't actually notice the change in author or primary heroine as you are reading. Together the authors kept me guessing on who was behind the almost fatal shooting. They tied it together nicely into a believable outcome. Now that the overarching mystery is solved, I'm curious where we go next. I'm hopeful that Moreno and Hart will continue to take on cases as I really love these characters and hope to see more of them. If you haven't read the first few books, start at the beginning. The overarching storyline is so much richer when read in order.

Copy received from the author in exchange for an honest review.

As the other books from this series, highly recommended!

A little romance, a little sex, but not too much (and I think, this is still for ages 14 and above, but not real YA). Two POV's, one written mostly by Allison Brennan, one written mostly by Laura Griffin.

Fast paced thriller and a page-turner, with good plausible situations, most logically explained and concluded, a few loose ends or missing explanations are ok with me.

No one is acting as a vigilante, which really is reason for me to add the fifth star. Could easily have happened, and I really like it, a little torture (more threatened) from the bad guys but with the good guys not overstepping their boundaries.

Together with the Lucy Kincaid-series, this is so far my favourite series from Brennan, though I think I should also check out the books by Laura Griffin. Pre-ordered the book and began it next day after automatic delivery to my Kindle.

Could be read as a standalone, as some background from the other books is repeated.

## **Katey says**

I really enjoy the Moreno and Hart series by Allison Brennan and Laura Griffin. They both have similar writing styles, and I like how they are able to weave their separate stories into one final plot, like they did with this one. Each of the P.I.s have a guy who will be able to look for them, and I really enjoy that. I hope there will continue to be more in this series.

## **Gail says**

If you like exciting plot with intrigue, and have an ending that you didn't see coming. Full review coming!

## **Patricia says**

I love these two author writing together. I think they bring out the best in each other.

The series is definitely best when read in order.

As usual, this is just my opinion and it may drastically differ from others. I liked the first book in this series best. Scarlet and Krista make a good team of P.I.'s. I hope their story is continued in a longer, pulled together story.
