**Love and War** David Archer

NUKES ON YOUR HONEYMOON? SOMETIMES LIFE'S JUST NOT FAIR...

Meet retired cop, Sam Prichard.

Sam and Indie are finally married, and off to enjoy their honeymoon in beautiful Hawaii, but sometimes fate has a cruel streak! When Sam notices something odd as they're departing Denver, and then finds out that terrorists have planted small nuclear bombs in twelve US cities including Honolulu, he's on the case, honeymoon or not!

With Indie's computer hacking skills to help him, he finds the nuke and captures the terrorist who planted it, but he's not done yet. Old friend Harry Winslow from Homeland Security needs a man who knows what they're up against, and the honeymoon gets cut short so Sam can get back to Denver and track down the terrorist cell behind it all!

How does a simple Private Eye end up saving the country? Well, if it's Sam Prichard, it's all just a matter of being in the right place at the wrong time! The only questions is whether he can stop the terrorists from carrying out their evil plot before thousands of Americans die!

## **Michelle Wilson says**

Again the plot was good, making Sam Pritchard a super hero but all the constant 'do you love me?' From him or his wife is not exactly needed. Too much loving and not really needed to this good story, on to the fourth book now.

### **Great story**

I have read several of you Sam Pritchard stories. They are always interesting and hard to put down. I look forward to reading more of your works.

## **Steve says**

Sam's honeymoon is put on hold when a terror plot holding the entire continental United States hostage takes center stage. It's an ambitious concept, but the plot holds up surprisingly well for the most part. There are no small cases for this detective.

### **Again fun to read**

I am enjoying this series, the story is good, fun and well articulated.  
It can get reAlly cheesy in some parts, and that breaks the story.  
But the overall result is quiet good.

Just finished the third book in David Archer's Sam Prichard series. It was hard to put this one down. Sam doesn't have to look for trouble, trouble just finds him and next thing you know, he's in it up to his eyeballs. Very good story line and Sam just has to get involved simply because he loves his country, his people, and even those he doesn't know and he has a huge heart that has to try to keep others for being hurt. Losing his best friend makes it all the more heartbreaking, but Sam just isn't a quitter. He's going to try to solve the problem. Again thanks to the author and hopefully he will reward us with more reads like this.
