Risa Kennedy will stop at nothing to save her company. Connor Dunn is a ruthless corporate executive who only cares about the profits. When the two are pitted against each other in a corporate buy out, sparks fly... and not just sparks of anger.

Connor has everything most women find attractive: he's wealthy, astonishingly handsome, successful, charming and he loves his dog Picasso.

But the last thing Risa wants is to be attracted to Connor, especially since he's trying to buy her pet-food company and shut down the low-cost vet clinic that she loves so dearly.

As their worlds collide a spark of attraction turns into a burning desire. But both of them are hiding secrets that could jeopardize everything.

Will Risa and Connor satisfy their desire or will the secrets between them extinguish their reluctant romance?

## **Heather says**

Great read! Loved the romance and of course loved the dogs!

---

## **Eldarwen says**

Fast, sweet, lovely dogs, with a few ridiculous reactions, but those are unfortunately part of this kind of romance recipe.

It was a fun read - and I enjoyed it more than the Lexy Barker cozies. Better written, too.

### **Well done!**

Bravo! I simply love this book. The characters are fresh and real. The addition of pets in the story made for a funny and loving side of Conner and Rosa. I especially liked the ending.

**Story is good but dog conversations felt off**

The story is actually good but the dogs' conversation at the end just felt a little bit off to me.

Posted at Oh My Books!

Such a cute romance. I'm a sucker for animal lovers characters, and this one satisfied my animal lover heart. Risa is a veterinary, daughter of the owner of a pet-food company and low-cost vet clinic. She loves her job so that's why she isn't going to help Connor buy the company and destroy it.

Connor needs to make a decision about the company before letting his father buy it, but Risa isn't making it easy. And their attraction is making it worse. Their dogs wants to be friends, but can he trust her?

It's a cute story, kind of short. I loved the dogs and even when I thought Connor needed to trust Risa a lot more, they made a sweet couple. It has everything to keep you interested and it's perfect for a quick read.

#### **Cute story**

The dogs stole the show in this book. Old friends reunited during a company buyout with plenty of angst and miscommunication. Risa goes out of the way to create chaos while dreams of romance with her old friend. This was a quick read with a bit of fun. I liked it!

This was a very good contemporary romance! I started reading and didn't stop until I was finished. I like the authors style of writing, her books are always entertaining.

Both the human and dog characters in this book were very likable. In all, it was a sweet heart warming novel!

### **Ange Chan says**

It was an enjoyable, if somewhat predictable easy read.

This was my first read by Leighann Dobbs. I enjoyed it; it was simply just a simple love story, quick read. Risa and Connor grew up together in the same neighborhood. Connor has always had a crush on Risa however never did anything about it. Both of their fathers own businesses with their children working for them. One day, Connor's father decides to buy out Risa's family company which puts Connor and Risa at odds against each other. The best part of a takeover is that even though these two are at odds with each other, sparks of chemistry start to fly between. Each of them is carrying a secret, could these secrets destroy their growing relationship and help each other out. Guess you'll have to read to find out. There is only one real sex scene in the storyline, not too heavy at all, just a quick, steamy, little love scene. I would recommend this story really to 16+ age group.

Cute fast read with plenty of twists and turns to keep you turning the pages until you have finished reading the book.

Kindle Unlimited, Leighann Dobbs writes under Leighann Dobbs, Annie Dobbs and (soon) L.A. Dobbs but her real name {not sure if she writes under that one} is Lee Dobbins, Hazel Martin Mysteries only one I found for this type with her, she has not made sure that terms used match the British terms as well as in other areas for that period of architecture and assorted styles.

The Notch Cozy Mystery Series {5 out as of this writing} and the Blackbore Sisters Cozy Mysteries are not on Kindle Unlimited which as said before about 1 & 7 {the only ones given free, sure would not have bought them} and ditto for Ghostly Paws which is 1 of 5 at this time but did get others free over time.

While some of her other books are Kindle Unlimited none of the Blackmoore Sisters Cozy Mysteries are which doesn't matter to me as read #1 and #7 and was way underwhelmed. Leighann Dobbs writes under Leighann Dobbs, Annie Dobbs and (soon) L.A. Dobbs but her real name {not sure if she writes under that one} is Lee Dobbins, Hazel Martin Mysteries only one I found for this type with her, she has not made sure that terms used match the British terms as well as in other areas for that period of architecture and assorted

styles. By the way, bakeries and other food service places don't run like that. Badly needs to proof things, it's messing up the flow of the book, which my computer reads to me, so that's bad. As for these, it's not that the situations couldn't happen, it's in the telling of the story, with unlikable unbelievable characters and situations, again.

Yet another goodreads won't hide it don't want to see the badly proofed badly plotted poor excuse for bad soft core porn crap. The 'historical' ones are like that and so are the some of the non cozy mysteries and some of the sorta but not really mysteries because can't write, etc ad nauseum. The most any of them got was 2 changed to 1 for crap cozy, some get a 1 which means basically crappy soft porn 'romance' etc.

3 in Silver Hollow Paranormal Cozy Mystery Series so far which are on kindle unlimited, 3 in the Moosamuck Island Mysteries , 5 in the Mystic Notch Cozy Mysteries so far {not ku}, Blackmore Sisters has 7 {not ku}, Hazel Martin Mysteries only has 1 so far, Lexy Baker Cozy Mystery series 12 so far is on ku. Others.including Scandals and Spies Book series so far 4 which are basically romance soft core porn dreck but hey you can get them on ku. Witches of Hawthorne Grove 1 so far,Cevonne Bride of Oklahoma, Unexpected Series 4 so far ku.

The Lexy Baker Cozy Mystery Series By the way, bakeries and other food service places don't run like that. Badly needs to proof things, it's messing up the flow of the book, which my computer reads to me, so that's bad. As for these, it's not that the situations couldn't happen, it's in the telling of the story, with unlikable unbelievable characters and situations, again.

Copy/paste fill in the blank seems to be pretty much what she is doing in her books, which wouldn't be half as bad if the plots and ploys and actions were believable at all.Just change the name for a book and maybe change the series list under, and you are right back to copy paste same old same old.

NOTE: I specifically mentioned certain of the 'books'/series were achieving soft core crap status, and specifically said which ones those were, reference AGAIN the above quoted review, and did not specifically mention the blackmore ones as that, BUT and had not mentioned that had went back and rated all no talent no plot cardboard characterized 'stories' listed above as 1 as well. I will change the original review to reflect that, but it is still a 1, and MY review of the crap stands.
