## **Sonny's Salvation** Carol Lynne

Sonny Good loved his life as an FBI agent, but when his father died and he was needed back home he quit the agency and became a rancher. Now several years later, Summerville, Nebraska is starting to seem a little isolated. An openly gay rancher in the middle of Nebraska just doesn't have many prospective dates.

That is until Garron Greeley moves to town. Garron is the town's newest resident and bad boy bartender with shoulder-length dark brown hair and tribal tattoos. Sonny is struck by lust at first sight. Things between the two of them take off like a rocket until Sonny learns Garron is also the brother of the man who owns the neighbouring ranch. The man Sonny considers his enemy, which leaves Sonny to decide what's more important—the feud with his neighbour or a potentially blazing passion with Garron?

### **Shelby P says**

This story was too short and I have to ask myself "what was the point?" Oh to set up the series? You don't really get to know Sonny or Garron. And just because Garron is safe with his HIV negative results how the hell does he know that this stranger Sonny is also negative?? Why do authors do this shit?

Also I find it highly unlikely that we have 3 or 4 gay brothers who then happen to live next door to two gay brothers as well. I'll read Coach from her third series and see how it goes.

3.0 Stars

Meh, but better than I expected it to be.

---

### **Caipi says**

I only read this for the Ultimate Team Challenge, and yeah, it was okay for these few pages.

---

### **Dina says**

There's no way anyone can make me believe that two people can meet, fall in love and live HEA in a quickie. No. Way.

---

### **Pianisuparse says**

3.5 'For a quick little read it had all the things you need. Good characters and plot and feels. Few issues here and there and definitely not The Brick Yard which I LOVED but still an enjoyable shorter read' stars.

---

### **Serena Yates says**

While I originally read this book in 2008 and remember really liking it, coming back to revisit it was a lot of fun. It's as short as it is hot, and a great introduction to Summerville, Nebraska, and the characters of the 'Good-Time Boys' series.

Rancher Sonny, a retired FBI agent and former Army man, and bartender Garron, a former Marine and cop,

are both men who know what they want. There isn't a whole lot of angst or prevarication when they meet. Their lust for each other flares hot and fast, despite Garron being the brother of Sonny's neighbor and perceived arch enemy. Sonny may not have been looking for a man to commit to, but things with Garron develop quickly and when the bartender changes job and becomes a cop in a neighboring town, Sonny knows it's time to deal with his brother as well. And - surprise surprise - things turn out to be totally different from what Sonny suspected.

If you like cowboys, ranchers, and cops who look like bikers, if two men who fall into lust the moment they meet are your thing, and if you're looking for a quick, fun read that is as hot as it is short, then you will probably like this short story.

### **Trisha Harrington says**

I really liked this book. For a short story I felt a lot of the emotions in this. I am not normally one to read short stories but the series sounded good. I would be happy to recommend this. I loved Sonny and Garron. They were amazing together :)

---

### **Addicted to Books says**

No rating !

It was really badly done. Not much of a plot, characterization or anything else at all.

---

### **Ralph Gallagher says**

When Sonny Good's father died, he left the FBI to return to Summerville, Nebraska and take over the family ranch. One night, while having dinner at the local bar, he meets Garron Greeley for the first time. Garron just moved to town to help his brother run the ranch next to Sonny's.

Though it was a little short, this was a pretty good story. I would've preferred it to be a little bit longer and their relationship a little more fleshed out. As it is, you only get to see a brief glimpse into their lives and not the full scope of their relationship.

The characters were all pretty interesting, not really stereotypes. It probably would've helped if Lynne had developed the side characters a little bit more and given them bigger roles. As it is, you only really get to see Rawley in a detailed way. The twins and Garron's brother only play brief roles.

Not deep literature by any means, but a good quick read. I recommend reading this if you're looking for something short and sweet to read.

\*\* Warning \*\* This novel contains sex scenes and may not be appropriate for readers under than age of 18.

### **JenMcJ says**

This books is the first of four and those four lead into her Cattle Valley series that also crosses over to her Campus Cravings series.

This is a quick book and like all of the books in all of her series that I have read(see above) the two main characters realise that they love each other very early in the book. I usually bet with myself how many pages in before it is thought or said first.

Once you start reading one expect to read all 30 or so in all three series since they all cross over each other.

---

### **Wax says**

I know this was a short story, but it wasn't that good, and didn't really whet my appetite for more in the series. The relationship moved in leaps and bounds and honestly I didn't really feel any of the characters.

---

### **Moomba says**

**3.5-3.75 stars**

---

### **Skye Blue ?\*~??(``?)~\*? says**

Rated as a PWP. It has some steam. As a story...well, it's a little weak. But as a set up for the sex, it was just enough to tie it together. Very simple. I did like that all the brothers were close.

---

### **llv says**

Rating: 2.5 stars

I usually don't read extremely short stories like this. I always feel cheated and left wanting more plot or background information. I got this book for free and for what it was it was okay. It was basically a set up for the series of books that come after it. There really wasn't much to it. The book was told exclusively from Sonny's point of view and he wasn't the most likeable character especially in the beginning. What little of Garron there was in the story, I liked but there really wasn't much there. As I write this, I'm debating reading the next book in the series. I'm just not sure I like the characters enough to continue it.

---

**jenjn79 says**

This was a very short m/m story, and the first of the Good-Time Boys series. It's only 28 pages so it's really only a little vignette. The series is western-set and based on 3 brothers, one outwardly gay, a set of twins who are gay, but bi for one woman, and another brother who won't admit he's gay.

This one features rancher brother, Sonny who meets up with bartender/ex-cop Garron. The story moves swiftly and they meet, sleep together, and stay together. It's fairly hot, but there's not a lot of depth. The sex-scenes Lynne writes don't really do much for me. They're very quick, not a lot of finesse. Kinda wham-bam-thank-you-mam (or in this case, man). But there is a sweetness to the story. I wished it was longer when I finished.

But there is a continuation...according to the synopsis, book 2 goes back to Sonny and Garron and deals with the problems they face because they are gay and in a relationship. So I will have to read that one to see how things go.

Overall, this was an okay story...a little too short to leave much of an impression, but it had its sweet and hot moments.
