# The Billionaire's Fantasy: Part 1

*Kate Hewitt*

**The Billionaire's Fantasy: Part 1** Kate Hewitt

**In Part One of The Billionaire's Fantasy:**

When Louise Jensen spends one wicked night with the devastatingly handsome Jaiven Rodriguez, she thought it would be enough. But Jaiven wants more. Is Louise really ready to be taken on the sensual journey this billionaire bad boy has in store?

**The Forbidden: *Billionaires who can look, but shouldn't touch!***

*For Logan Black, Jaiven Rodriguez and Zair al Ruyi, New York is spread out before them like the Garden of Eden...and no one knows the sweet taste of forbidden fruit better than America's most ruthless billionaires! Jaded, cynical, with a darkness that threatens to consume them whole, they think they've seen it all. But temptation has something new in store for each of them...*

# **From Reader Review The Billionaire's Fantasy: Part 1 for online ebook**

## **Alima Livzletlivz says**

Lust, fantasies, romance and love – “The Billionaire’s Fantasy” of Javien Rodriguez gets more than he bargained for when he decides to have a one-night stand with Louise Jensen. With a past tainted with street gangs, death and prison time, Javien has made himself into a power-house of running JR Shipping and making more money than he ever dreamed of yet, nothing can erase the guilt of his past.

Louise Jensen has her own demons to fight yet she can’t seem to resist the magnetism of Javien. As wild as the sex is and fulfilling fantasies that she never would have dreamed of, her abusive past stops her from opening herself completely to Javein or make any commitments.

Despite the hang-ups, both can’t seem to stay away from each other. Temptation is stronger than fears, want and need for each other above insecurities and the lure of having someone to care for bring Javien and Louise together.

This is as good a story as it gets. Kate Hewitt shows her writing prowess when she created Javien and Louise as two broken characters with a turbulent relationship. Independent, strong and stubborn, they annoy each other to the point of breakup. Kate keeps the emotions and fears of these two above all as she explores the relationship filled with desire and love.

Of all the three books of The Forbidden Series, this is definitely my favorite and Javien holds a special place with me. Captivating and sizzling, “The Billionaire’s Fantasy” is another captivating read.

## **Donna Feibusch says**

### **A Great Read!**

I enjoyed reading The Billionaire's Fantasy - Part 1 (The Forbidden Series), all about Louise Jensen & Jaiver Rodrieguez who met at her sisters engagement party. Seems that her fiancé Alex is his BFF since forever. They were both trading looks across the room most of the night, and Jaiver only does One-Night stands, so he's definitely up for that and he's hoping Louise will be as well! The author wrote a very interesting series and the characters made the series come to life. Read this story it will make you laugh, sigh, shake your head & cum up a storm! I enjoyed reading this first part, and can't wait to start reading part two.

## **Cristina says**

**DNF 15%**

I usually try to get to 25% before I DNF a book but in this case it was impossible. I don't demand explicit sex in the books I read because I also love YA and NA and those often don't have that. But when you insist on starting a book with a one night stand then you'd better make that sex scene awesome because it sets the tone for the remaining of the story...

The characters had ZERO connection and I only mean that in the lust department because they just met. I wasn't hooked in any way and I had the urge to skip ahead...so instead I did the only sensible thing...I gave up...

### **Samantha says**

I'm a little torn about this. Louise has insecurities and doubts. Her past was rocky, and now her little sister is getting married. At a party for the engaged couple, she meets Javien who is deeply intrigued by her.

He is used to loving and leaving, but Louise leaves him in bed and he can't get her out of his mind. The story is okay but there is just something missing.

---

### **Heather andrews says**

Jaiven does not handle blue balls well, "I'm in pain, woman," Jaiven growled. He reached for the belt of her coat and gave it one swift tug. "You've been torturing me for nearly two hours." Whenever Louise is around Jaiven is always sporting some wood, "did I mention the part about my fantasy where we have sex in a dressing room? Because I'd say that's definitely within the parameters." I fell in love with Jaiven yes he has his demons but he's my kind of guy.

---

### **Maria Rose says**

Smart focused female professor and sexy bad boy billionaire? Yes please! The story of Louise and Jaiven starts out well as these two meet at an engagement party for Louise's sister Chelsea. There's an instant attraction between them and when Jaiven offers Louise a chance to indulge in a one-night stand, she can't resist the temptation. Only Jaiven isn't quite ready to let her go after their night together and finds an excuse to see her again. The sex scenes are not overly explicit but still steamy. I liked that the story is told from both points of view and you get a clear sense of Jaiven's past, his insecurities in maintaining committed relationships with women (hence his desire for casual sex) and the fact that Louise is a little more intriguing to him than he bargained for. Louise was an interesting heroine, a little bit awkward, obviously less experienced in the sack but making up for it with her enthusiasm. The mystery of Louise's missing student (the common link behind the Forbidden series) is introduced but not really delved into yet. Looking forward to part 2!

Note: a copy of this story was provided by the publisher via NetGalley for review.

### **Jin says**

I did enjoy reading this book compare to other Billionaire series.

They are all too short to actually but I can't wait to find out what happens to Louise and Jaiven.

Louise is uptight Columbia professor who doesn't want to risk anything but when she meets Jaiven at a her sister's engagement party, she is changing. She has a one night stand with Jaiven and he couldn't forget about her. Jaiven tracks her down and proposition her for using each other for their needs..

I want to find out what happens to Louise and Jaiven. It was such a cliffhanger at the end, now i have to find out what happens. Is Louise ready for new adventure or she will cave.

thanks to NetGalley for the copy

---

### **Pavla says**

I've read this book right after The Billionaire's Intern, Book One in The Forbidden Series, and because I was more or less disappointed by the first book, I did not open the second one with much enthusiasm.

Fortunately, I was pleasantly surprised by the story.

Don't get me wrong, the beginning is slow and as one of the previous reviews says, there is no connection between the hero and the heroine, but things get WAY WAY WAY better as you read further. I am a sucker for abused heroines and tortured heroes, the messiness of figuring things out, stepping out of one's comfort zone, growing a pair and reclaiming your life and identity. Both Jaiven and Louise do that. I was really sorry to let their story go as I liked spending my time with them.

---

### **Clare O'Beara says**

A man in New York who made his money through shipping, meets a woman who is a college professor. Not in anything sciencey but women's studies. He thinks she is a challenge and invites her to have sex and for no reason I can see she accepts.

The rest of the book is a runaround of them agreeing to have a no strings fling, him showing up somewhere unexpected, they have sex, one of them leaves, she calls it off and wonders what has become of her dignity, rinse, repeat. There is no tension or personal growth.

We don't learn anything about either shipping or the life of a university professor, though we do see her office, unlike the docks. Towards the end a side plot is introduced regarding another woman and her need to find something out from the ship owner. She finds it out and she goes off to Nice to resolve the issue. We don't know what happens, because the story ends with our original twosome in the next chapter. So it was all just padding as far as this story was concerned.

You may of course enjoy this more than I did. An ARC was supplied to me and this is an unbiased review.

## **Monica Cardoza says**

Two broken characters, they both have a past and they can both heal each other.

In this second installment in the Forbidden Series you have Louise and Javien. Louise comes from a horrible marriage where her husband mistreated her. Now she is trying to make her own life and she will not take it when a man tells her what to do. Then you have Javien a young man that had a horrible upbringing. In order for him to feel like he belonged in a family he ended joining a gang and in that gang he did some horrible things. Now he has turned his life around and is a successful businessman. He gives other people that have come out of prison a chance to be able to earn their money with honest work. You have two total opposites but oh my can they come up with some fantasies that can burn up the sheets. But no matter what they both have to tell each other their story.

The Billionaire's Fantasy was a great read. I loved the development of not only Louise and Javien's story but also the search for Harlow. Javien was able to help Louise, Nora and Addison know a little bit more what happened to Harlow. The chemistry between these two characters was steaming HOT and they were perfect for each other. I can't wait to see what Nora finds out in the last installment in this series.

## **WTF Are You Reading? says**

O.k...o.k...I know!

Yes, it is yet another billionaire vs. commoner erotica trope.

But before you round up the torches and pitchforks...hear me out!

This is the second offering in the Forbidden series. A new Special Releases collection from Harlequin.

You will notice that the part about our fair commoner being an unsuspecting ingenue is blissfully absent.

That's right!

She has had sex before!

Hallelujah!

Not only that, but wonder of wonders...she is a full grown woman to boot!

Louise Jensen may be an esteemed professor at Columbia University, but one perusal of her lush curves from across a crowded room, leavens billionaire shipping magnate, Jaiven Rodriguez, determined to pursue a very sensual course in Women's Studies.

Things start out as all fun and games for these two, but as the sex intensifies, so do the feelings that the two share. This leads to some very hard to face truths from both their pasts, which threaten any hope for their shared future..

Though this book is very sexy, fun, and light for the most part. It deals with very real issues of body image, spousal abuse, gangs, forgiveness, and redemption.

Both Louise and Javien are very down-to-earth characters, that you have no problem identifying with and rooting for.

This is the perfect one sitting read for those who like their happily ever afters passionate, playful, and more than a little rough around the edges.

---

### **Debbie says**

Louise Jensen has come a long way in the world from battered and abused wife to tenured professor of women's studies at New York's Columbia University. But when she meets a bad-boy billionaire who fulfills all her sexual fantasies as much as she wants to let him into her heart as well as her bed she's just too afraid the real her would be a huge turn off for him.

From ex-con to successful entrepreneur, Javien Rodriguez is a self made man who pulled himself up from his tragic youth. When a sexy college professor catches his eye and his libido he knows he's only good enough to offer her physical enjoyment because if she really knew what he'd been in the past she'd run screaming.

It's all about forgiveness in Hewitt's latest romance starring a couple trying to re-build their lives out of the ashes of their tragic pasts. She throws readers right into her lust at first sight story with a steamy affair that really works for her stars, plus it doesn't hurt that the heat between the sheets is explosive. Her street-wise narrative is seductive and really fits the earthiness of her duo, as does her eclectic New York backdrop.

### **Jess says**

This is what I think is supposed to be the second book in the Forbidden Series. It's not labeled here on goodreads but judging from some of the things that happen in this book and the previous book, I think that this was meant to be the second one.

This story is about Javien and Louise. Javien is a billionaire who operates a shipping company. He's made his way up in life starting on the streets of the Bronx and doing some unsavory things to get by. Louise is a professor of Women's Studies at Columbia University. Louise and Javien meet at Louise's sister Chelsea's engagement party. They feel a mutual attraction and agree to a one night stand. Things begin to change as they start seeing each other more and both of them have to decide if they are willing to be truthful about their pasts and really let down the walls they've been using to keep people at bay.

Louise was a really interesting person, at times she was very strong-willed and knew what she wanted and at other times she seemed very confused. But I liked the dichotomy she presented, as most people in real life have different sides to their personality. Javien was just adorable and I loved how he was just so unbelievably confused about his feelings towards Louise. The romance between them was great and was the best part of the story. The side story of the missing friend fell short in this book and kind of seemed to just be thrown in to connect the last book to the series.

I really liked this one and I'm going to be looking into other books by this author.

Thanks to Netgalley and Harlequin for providing me with a copy of this book to read and review.

### **Bibliophile Wonderland Reviews says**

Who would of thought that a billionaire play boy and a female professor make such a good story. I loved this one like really this was very different of what I have read in the past. Louise has one wild night with Javien Rodriguez. She thinks that it will be just a one night stand and wild memory. After Javien has her and she left him he wants more. He just can;t have one night with her. The chemistry that they had together and their banter back and forth I enjoyed it.

### **Melanie Thompson says**

#### **A bit short but still enjoyed this book**

Good book but too short could have been a lot longer to be more enjoyable look forward to reading the second half
