#### 4 Stars

This short little diddy has something for everyone:

Daycare worker sent on a sweet Brazilian vacay by her bff, only to arrive and find out she's expected to nanny for an adorable little girl and her hot as hell daddy? Check.

Super fine widower still feeling the guilt over his wife's death? Check again.

Two single and not yet ready to mingles with an immediate attraction that can't seem to keep their dirty, filthy hands off each other? **Double. Freaking. CHECK!**

This book managed to squeeze a whole lot of sweetness into a teeny, tiny package and I loved it. I also appreciate the fact that Piper never had to compete with a deceased wife for Lucas's love.

Short novellas don't normally work for me, but *Brazilian Fantasy* most definitely did the trick.

### Sissy's Romance Book Review says

Brazilian Fantasy by Cathryn Fox is book Five in the "Dossier" series. This is the story of Piper Young and Lucas Santos. I have read some of the other books in this series but feel this is easily a standalone book. Piper and her friends have went into a pack where they draw another person name and give them an exciting vacation adventure. When Piper's 25 birthday comes around she is given her vacation information that she will be three weeks in Rio De Janeiro. When she arrives at the Manson there in Rio De Janeiro she meets Lucas and learns that Alyssa is his cousin and that she will be a Nanny to his daughter who just lost their nanny. Piper who is getting over a broken engagement thought this was her chance for fun and excitement not a Nanny job. But Piper can't seem to tell the handsome Lucas that or the broken little girl who lost her mother.

Along with being a really hot read this was a really great novella.

### Penny says

Holy tingling shirttails, Batman! *Brazilian Fantasy* is the definition of scorching hot and sexy.

Piper is finally due her very own secret dossier birthday extravaganza. And she is all ready to get her socks rocked off when she arrives at the impressive house in Rio. When hunky Lucas opens the door, she believes all her fantasies are actually coming true... that is until she meets Maddie, Lucas' 4-year-old and the little girl she's supposed to be nannying for the next three weeks.

Lucas is ready to kill his cousin when he realizes the friend she sent him to cover for the nanny has no clue why she is here... and he has a feeling his cousin was hoping the sweet and sexy non-nanny would take care of more than just little Maddy.

With extremely combustible chemistry, Lucas and Piper can't hold off for too long and are soon entangled in an incredibly hot affair. She'll only be there for three weeks, so they might as well make the best use of the time they have. Right? They just have to remember to keep their hearts out of the equation... Easy-peasy.

Lucas is one sexy geek. Of course, the only geeky part is his occupation. He has the muscles, the looks and the alphaness to make Piper's panties melt, and he most definitely knew how to handle himself. The way he was with his little girl was what made him completely drool-worthy.

Piper was sweet, caring and sassy. I loved how playful she could be and how against her better judgment she decided to stay and help Maddie overcome her trauma.

I loved everything about this story. Their chemistry was absurdly hot, their sexivities off-the-charts scorching, their banter funny. How little Maddie opened up to Piper was super sweet and I enjoyed watching them become a family.

I felt the ending was a bit rushed. Everything worked out way too fast, and by worked out I mean the three of them magically overcame their deep-set issues. Other than this little hiccup, *Brazilian Fantasy* was a totally satisfying quick read you'll want to read at home... unless you carry spare underwear wherever you go. Fun, hot and sexy, this is one quickie you won't want to miss.

ARC received for review

Okay, I read the first one in this series and wanted to read all of them, but either I forgot about them or didn't get approved for the ARC. I don't think it's the latter. Anyway, great story with a sweet little girl, sexy Brazilian man, and a daycare teacher (who has amazing friends). Lots of sexy times with a little angst and lots of romance thrown in.

Entangled Scorched titles are shorter and erotic. And, this one met both of those requirements. It wasn't

excellent, and it was definitely instalove, but it was enjoyable overall.

Piper is a daycare teacher who thinks she is going on an exotic vacation. Lucas is a widower with a daughter who stopped speaking after her mother's death.

The sex with Lucas and Piper was hot, it was steamy, and the attraction between them was interesting, and it was intense. As this was a shorter story, and it is erotic, this was expected and the instant nature of their attraction needed to happen.

While I did enjoy this overall, I thought Lucas trusted Piper with his daughter a little quickly. Other than that, this book worked for me, and I enjoyed it overall.

4.5 Stars!

Are you looking for a well-written novella that is full of sexual desire and an engaging plot? Then pick up a copy of *Brazilian Fantasy* by Cathryn Fox, and immerse yourself in this erotic yet poignant story. This is the fifth book from the Dossier series and it can be enjoyed as a standalone.

Piper Young is a hardworking daycare teacher with a ton of heart. She has a degree in business that she would like to put to good use, however, corporate has yet to promote her. In addition, her fiance recently dumped her. Piper desperately needs a change of scenery, and one of her five best friends comes to her rescue. It is Piper's turn for an unknown adventure, and that is how she ends up in Brazil, looking forward to fun and epic sex. Imagine her surprise when she finds out she is the temporary nanny to a billionaire's four-year-old daughter.

Lucas Santos is a widower that lives with tremendous guilt in regards to his late wife's death. He is an extremely successful software engineer that works from his home in order to be close to his young daughter, Maddie. Maddie has not spoken since her mother passed away and she takes a while to warm up to new people in her life.

Piper and Lucas find each other incredibly attractive, and fall in love during the three weeks that Piper is in Brazil. Piper's ability to quickly bond with Maddie only adds to Lucas's newfound feelings. They have a ton of epic sex, which fulfills the friendship pact Piper and her friends agreed to years ago.

Ms. Fox does an amazing job of combining a sexy story with a touching plot. Piper and Lucas are extremely likable characters, because they are genuine and nurturing. Their sexy times are hot, especially when a closet is the only private space available. Lastly, this novella has a wonderful ending that will leave you with a huge smile on your face.

### **Ayekah says**

Off the hook fantastic! This is my absolute favorite of the Dossier series, Cathryn really hits it out of the park with this one right from page one.

Piper arrives in Rio a dream come true for her for a much needed break from things at home. Job loss, dumped by her man, anything that could go wrong did. She so needed this break. Giving her time to sort out what she wants to do rather than working at the preschool she's been working at, while holding a college degree.

When she arrives in Rio, walking up to the beautiful home in front of her was like a dream, and the man who answered the door, even better. Meet Lucas, eye candy for the weary. A little confused when he spoke in plural, "we" "us" Piper wondered if this incredible man in front of her was married. While still standing in the entry she see a blur of pink out of the corner of her eye and when she turns she sees a small child. Her wheels are clicking and while tall, dark and incredible is talking she's realizing that she's there to babysit, all the while at the same time Dad is realizing the same thing.

A call to Alyssa, his cousin who is now living on a tropical island with two men as a result of her "epic" weekend, Alyssa half explains the whole Dossier plan and the epic weekend and knowing he needs someone. Lucas has shut down since the death of his wife several years ago. His daughter hasn't spoken a word since the loss of her mother. He's hired a nanny and said nanny is on vacation so the assumption is that Piper is going to babysit. When he clarifies the understanding with Piper, Piper does what she does best, relates to children, even though she's made clear that she doesn't want any. Piper has a past too. Which you read about in the story. Lucas blames himself for his wife's death. The first thing Piper does is toss the nanny's schedule out. 4 year olds don't need that. They have girl time and Maddie warms to Piper really quickly. Piper, knowing what she's doing, talks Lucas into going shopping, which he hates but goes along and they hit the mall. Right into the pet store. Piper knows that the human dog connection is a strong one and this little girl needs that.

Meanwhile things heat up with Lucas and Piper. And things just flow.

The plot was perfect, I have to admit the first couple pages I was peeved about Piper having to be a nanny but the story... took care of itself. The characters were over the top great. I loved Lucas and Piper together and of course Maddie. The steam factor was over the top. Cathryn's writing flames, forget the smoke! This book was a page turner, it wasn't at all predictable and I absolutely loved it.

Mark it as a TBR and buy the book! As I said, my favorite of the whole series. Epic? Absolutely.

It was beyond epic. Showers of stars!

### **Richelle Zirkle says**

This is the second title I've read in the Dossier series, and I enjoyed it just as much as the first. Piper's dossier sends her to Brazil. Recently passed over for a promotion and dumped for a woman who wants a family, Piper is ready to get away from her problems. Alyssa is responsible for the distraction and ensuring that Piper rings in her birthday with a bang. Piper's destination isn't what she expects. She finds a hot Brazilian dad, who happens to be Alyssa's cousin, and his adorable daughter. Unbeknownst to her, this mission is at least part babysitting. Will she be able to walk away when she sees how much Maddie needs her? Moreover, will she be able to resist the pull of Lucas drawing her closer? This wasn't what she wanted or what she signed up for, but has Piper found what she needed in Brazil?

This is another quick and highly enjoyable read from Ms Fox!

### **Elizabeth Neal says**

Piper, a daycare teacher, gets enough adventure watching her students on a daily basis, but she agreed to a pact with her five best friends. The rules were for them each to draw a name, that person then pays for and plans every aspect of the recipient's journey as a birthday present. They're all in ruts, dating and otherwise, and agree this is the way to shake things up. Piper is reluctant at first, but embarks for Brazil and spots the sexy billionaire, her friend, Alyssa's cousin, chosen for her. But, things aren't as she imagined and her vacation isn't really one as she's there to babysit.

Lucas has become a workaholic since losing his wife, well, before then too, though he now works from home to be available for Maddie. Their daughter hasn't said a word since her mom died, and Lucas doesn't know what to do, how to help. When his nanny takes a vacation, he's thankful his cousin is able to send a temporary one to help him out, one who apparently had no clue she'd be doing so. But Piper isn't anything he expected, she's so much more.

Lucas and Piper's chemistry is intense and immediate, though they fight it, each for their own reasons. Piper and Maddie also have a strong connection and the change in the little girl is obvious.

How long can Lucas and Piper resist each other? Can Lucas risk his heart, and that of his daughter, again? Will Maddie change Piper's mind about never wanting to have her own children? What happens when Piper's vacation is over? Will Lucas and Maddie convince Piper to stay? Is a HEA possible?

One-click now and follow along as two people must decide whether to explore what's between them.

### **Bec\_BookMagicReviews says**

Piper Young needs to get out of her dating rut. Luckily, her friends have sent her to a beautiful place where she can hopefully let loose and have the adventure of a lifetime. However, once she gets to Brazil, she finds she'll be babysitting the daughter of Lucas, a gorgeous Billionaire. But the more she gets to know Lucas, the more she finds herself captivated and wanting things she never thought she wanted. Will Piper and Lucas get their happy ever after?

This was a super quick read for me and I loved it from the beginning. Piper is looking to have some fun and get away from her job as a Daycare Teacher, but it seems she can't escape that world. Will she leave or will she help the little girl finally recover from the trauma she's suffered of losing her mother the way she did? However, it was from the moment the hero and heroine come face-to-face for the first time that had me really enjoying this story, as there's instant chemistry between Lucas and Piper that just keeps getting stronger the more they interact. Will Lucas be able to win Piper over? Will Piper be able to help Lucas heal from the hurts of his past?

As for the dialogue, it was intense due to the main characters back stories, as both have been hurt by past relationships, but I liked how they helped each other move forward. Certainly, Lucas's daughter needs Piper as much as Piper needs her to realize that she should want more in life than being a Daycare Teacher and having great friends; things such as love and children. Moreover, I liked that once the heroine accepted her new adventure wasn't going to be as adventurous as what she thought, I liked how she did her best to seduce the hero. Will her plan work? I also liked the growing bond between the heroine and the hero's daughter, especially since the young girl doesn't communicate with anyone after all she's been through. Will Piper be able to help the little girl find her voice again?

While the hero, he's been through tough times with what happened to his ex and the guilt he's felt since her passing. However, the hardest he's suffered is not being able to help his daughter enough and I liked that he gave Piper a chance, even knowing that when they first meet she doesn't seem happy to be caring for a child. I also liked how confident the hero is and that he goes after what he wants and what he wants is Piper. Will he get a second chance at forever after?

Overall, Ms. Fox has penned another fantastic read for this series where the romance was fan-your-face hot and totally steamy; and the ending had me loving the choices the heroine makes when it comes to being with the hero. How could she not want her life to change for the better, especially when love, family and happiness are the reward? I would recommend Brazilian Fantasy by Cathryn Fox, if you enjoy a quick read with lots of heat between the characters or books by authors Naima Simone, Nina Croft, Samanthe Beck and Tessa Bailey.

Tears will turn to Love in this amazingly heartfelt romance. Cathryn Fox delivers the pairing of Piper with Lucas. A much needed sexy vacation starts out to be a babysitting gig. Pages explore tragedy, loss, healing

and joy. A glass of wine and this sweet story will not disappoint. I have read a few of Cathryn Fox novels and they all had a HEA and no cliff hangers even though this is #5 in a series it can be picked up out of order. ### **Isha Coleman says**

The appeal of the Dossier series is "GIRL POWER". Amidst the naughty allure is a strong bond of friendship. Through the storm, these women laugh, cry and encourage other. Even if that means pushing each other to step outside of their comfort zones. Brazilian Fantasy is Piper's story. For Piper Rio De Janeiro is the beginning of escapade. She finds a couple of surprising developments at the end of her destination. (1.) The greatest temptation is one you never saw coming. (2.) Giving away your heart is the biggest risk of them all. Cathryn Fox doesn't hold back with Piper and Lucas. Her aim is tried and true.

### **Deborah says**

Piper is arriving in Rio on her epic twenty-fifth birthday trip planned by one of her best friends. She's starting a three week much needed vacation! She's been through the ringer lately as her fiancé broke it off, she's been paying her bills by working at a day care, while trying to find a job utilizing her business degree, and she's just plain stressed! Sun and fun is on her agenda!

Only not is all that it seems! When she gets to her destination, its a picturesque home along the water and a rather handsome man, Lucas, greets her. She's very confused. Lucas talks of we and us, so Piper assumes she has a rental room in a couples house-like a B and B. But then she notices a small child. Lucas mentions her being the fill in nanny for his daughter, Maddie, and Piper is wondering why her friend would set her up to do this when she needed to get away from her job with kids! Lucas figures out pretty quick his cousin has set them both up. After a call to Alyssa, she explains about the dossier and Piper needing to have an epic vacation. Plus she knew it was time for Lucas to start living again. The death of his wife saddled Lucas with mounds and mounds of guilt, and Maddie hasn't spoken since that dreadful day. When Lucas tells Piper what Alyssa set up, she decides not to turn her back on them. He's pretty easy on the eyes after all!

I loved the story and I loved how Piper approached her position to help both of them. Piper and Lucas had an amazing chemistry which just kept heating up until it boiled over! They seemed like a very good fit for each other and just understood one another. I was miffed that Alyssa would send her best friend on a nanny job for a vacation, but it ended up being so much more. Not only was Piper helping them, they were helping Piper too. Everybody had a bit of baggage to sort through! It definitely was an original, intriguing, and inventive story!

All of the books in the Dossier series can be read as standalone books. Brazilian Fantasy is book five. I know once you read any one book in this series, you will be clamoring to read the rest! They are THAT GOOD!! I am a fan of Cathryn because she continues to give us interesting stories along with some pretty great characters! You want to be them, or know them, or go on their adventures with them! She has a knack of drawing you in and you really do not want to stop reading once you start!
