ilove chpter book

---

### **Grace says**

I really how this book was put together. It left a few unanswered questions but it definitely was a fun quick read. It reminded me of a Saddle Club episode I watched but it was a unique spin to it.

Stevie has a concussion which causes her to act weird. She misses a few adventures with the Saddle Club but it feels like she is there with them.

I don't care how old I get, these books will always be enjoyable.
