Kiss of Flame Madelene Martin

The Kingdom is suffering - burned and ravaged by a marauding dragon. There's only one way to stop it.

Soon after her eighteenth birthday, virginal Princess Lily is offered as a tribute. Tied to a stake in a burned village, she is carried off by the magnificent beast.

But what she doesn't realize, is the dragon doesn't want to make a meal of her - he wants her as his mate.

The last of his kind, Nalranith the dragon needs to breed. In both his dragon form, and human form, he takes the unwilling girl and uses her body, showing her unexpected ecstasy. And Princess Lily finds destiny in an unlikely place.

This 6000 word erotic romance features Rough, Reluctant Breeding with a dragon shifter.

An Excerpt From the Story:

Lily scrambled to her feet, backing slowly away. Nalranith continued to walk toward her, moving casually. Finally, she backed into the wall. Her eyes darted around nervously, confirming that, of course, there was no escape. She could see no exit aside from the cavern ceiling.

He loomed over her, looking through strands of the dark hair that fell over his face. There was a hunger in his eyes, almost as though he did want to devour her.

Suddenly, he lunged. She squealed and tried to run, but he caught her straight away, grabbing her wrists and holding them tightly as he pushed her face-first against the cavern wall.

"Don't resist," he murmured in her ear. "And I won't have to hurt you." He made a low purring sound, rubbing himself against her. Lily shivered as she felt his body press hard against hers, his huge, hard phallus sliding against her ass.

She had never been this close to a man, and she certainly hadn't imagined it being like this. He smelled of smoke and earth, and his skin was hot. As he breathed heavily in her ear, she felt the a shiver of arousal run through her body, lighting a fire inside her. It was like an awakening.

"I can make it good for you." The dragon rumbled, as he bent to suck on the skin of her neck, moistening it with his tongue.

His tongue was still long, she thought, but no longer forked. She remembered the feeling of his tongue on her... in her. She wondered what it would feel like to have that giant cock inside - it seemed unlikely it would even fit. How much would it hurt?

She shivered, feeling wicked and ashamed.

Holding her wrists easily in one hand, he cupped one breast in the other. His thumb caressed the nipple, and it hardened under his touch. His claw brushed her skin lightly - not hurting, but threatening.

Lily gasped, her face pressed up against the stone. She tried to struggle then, weakly and hopelessly, twisting in his grip.

It only spurred him on. She heard him chuckle quietly, and he let go of her wrists, only to wrap his hand in her long hair. He yanked her head back, and she winced at the sharp pain in her scalp.

Nalranith pulled by the hair, her away from the wall, and dragged her a few steps. There, he pushed her down onto the ground, so that she was on her hands and knees. Still gripping her hair so tightly, he caressed her round ass with his hand, claws brushing her skin.

"You don't want to make me angry." He growled.

Miku says

Well, I read this story mainly because of the cover.

The cover is just beautiful and intriguing that I can't help myself from reading it. This was a very good story. It's short but an enjoyable tale. I found that I really liked both Lily and Nalranith.

Lily's a princess and pretty much clueless on what's taking place in the realm. When she tries asking questions she's ignored. A week after her 18th birthday she's taken out of the castle and to a burnt out village. She doesn't know why she's there but certainly didn't expect the guards to tie her to a post and leave her there...apparently as a sacrifice for a dragon!

Nalranith is the last of the dragons. His mating instincts are pushing him to mate so he torches a good portion of the Kingdom to make them provide a virgin of royal blood. He's also lonely and I think he wanted a mate for companionship as well. When Lily is left for him he takes her and flies off to his lair with her.

This is a very short story so let me just say this. On the dragon/Lily sex mentioned in the description there's a little roughness but mostly just to make Lily not struggle. Nalranith makes an effort not to hurt her and even make her enjoy it. In the end, it's not insta-love but Lily finds she likes Nalranith and decides to make the best of the situation with him so it ends with a tentative HEA.

The story was not what I actually had in mind but I guess that was because of my expectations that I was a little disappointed. The story was not that bad for it had a HEA with them wanting to have lots of babies to have a big family.

Ti says

outside of the dubious consent its a decent story. No plot really. Pretty basic and quick.

Angel **Book Junkie says**

This was a little meh for me. I found it uninteresting and did not like the MC so I guess that is why I really did not like the book. It was short and short that is all I really have to say about my feelings for the book.

Jacob Bennet says

The plot is nothing we have not seen before. The princess is sacrificed to the dragon so he does not burn down the castle, village, and all the crops. Of course, this is erotica, so instead of eating the princess, he takes her back to his cave to make her his sex slave and brood mare.

All puns about fire and being hot aside, this story did have some interesting sex scenes. The dragon does sexual acts to the princess as a dragon and as a human hybrid. The author did a good job of describing the dragon and it looks awesome. The dragon only gets rough with her when she disobeys. Once she gets into it though, she becomes a wanton sex goddess eager to please her dragon and forcing us to tame ours.

I have read some other reviews of the story saying that the princess acted weak and was nervous about being fucked too hard. This is a fair statement, but you have to remember this girl is a virgin and she is having sex with a dragon. That is enough to make any woman nervous.

Overall, I do recommend this one for any fans of erotica. Dragons make everything more awesome and dragons with beautiful women cannot be beat!

Future Slayer Girl says

I actually thought this one could be just a touch more dirty.

I know, I know, I know...

How can you say Dragon Erotica isn't 'dirty enough'.

Easy, the sex was to tame. The words weren't verbally dirty enough and the dragon went soft on her after the dub-con scene. I found myself adding to the scene as I was reading it. Like I said in the other review the writing is a bit 'easy'. As if she doesn't trust her readers enough to add in more detail while still making a book dirty as all get out.

I mean, the idea is a great concept. Maybe it was the lead female in this one. She was just kinda dump and silly if I am being honest. The other chick was a thief and kind of tough. This was a more, "Oh no mister hunky dragon don't hump me real hard..." You get what I'm saying.

I'm hoping the next one will kick up the awesome girl character more. This one was sort of boring for me to be honest. However--I still think dragon erotica is hot!

Lila Lockhart says

2.5/5.

I have quite mixed feelings about this. It starts off pleasant, but then dives into rape-territory, which I found very off-putting. However, the ending is sweet. I would almost consider reading more, if the following story were to hold onto that sweetness.

Iesha (In east shade house at...) says

I've only read a few chapters of Kiss of Flame, and I've loved it!.

IkeaGoddess says

It was okay, but nothing special. I liked the idea for the story, but it just wasn't hot enough, nor dirty enough. I thought the dragon was a fun idea, but teh heroine was just too boring.

Djg says

Super quick but good for a short read.

A princess is sacrificed to the last dragon so he can breed with her to continue his kind.

Kumiko Lei ~Lost In A Book~ says

Ok.. to start, I have to say when I got this (freebie) from Amazon I had no idea it was labeled as "rough reluctant monster breeding erotica". And my face is a little red now because on GR it is labeled as such with big old flashing letters (at least they seem to be flashing at the moment). It really seems more like a shifter erotica -- he's not a monster if he kinda turns human, right?

At any rate -- other than my embarrassment at the label, I did like this story. It was a little weird, but hey, I'm up for weird. And not for nothing... the weird was kinda hot.

Wyrddness says

Extremely short. I actually found myself feeling sorry for the Dragon and the Princess and wondering about the greater story behind the "virgin bride tribute" thing, which is pretty impressive since the entire set-up exists for one lone sex scene.

Sadly being so short means it wasn't really ideal for me since I really need a developed story to sell me sex. Plus I'm a bit squiffy over dubious consent which seems to be the go-to mode for shifter/ monster erotica. Then the sex scene itself seemed to be pretty much a copy and paste job from the handful of other stories I read at the same time by this writer. In fact I'm not entirely sure why I sat down and read this and the others knowing all of that to begin with.

Anyway, if you're just looking for some short themed smut then you'll probably enjoy this, but this is really not for anyone looking for a deeper, longer story with some character connection.

Ashley says

Poor girl getting tied up at the "crossroads" lol at least this one had a somewhat happy ending :)

Kelly says

Oh, hey. I liked this one. The consent might be a little on the dubious side but when you're the last dragon, you gotta do what you gotta do. And he made sure Lily enjoyed herself. A good dragon always makes sure his lady friends arrive before he does. Or something like that.

-Kelly @ Reading the Paranormal

Kiss of Flame was a free Kindle book I downloaded on 05/14/13 for the Why Buy the Cow? reading challenge.

Sofia says

Cute, but a small epilogue would have made it better.

Malinda says

3.5-4 stars

This was a very good story. It's short but an enjoyable tale. I found that I really liked both Lily and Nalranith.

Lily's a princess and pretty much clueless on what's taking place in the realm. When she tries asking questions she's ignored. A week after her 18th birthday she's taken out of the castle and to a burnt out village. She doesn't know why she's there but certainly didn't expect the guards to tie her to a post and leave her there...apparently as a sacrifice for a dragon!

Nalranith is the last of the dragons. His mating instincts are pushing him to mate so he torches a good portion of the Kingdom to make them provide a virgin of royal blood. He's also lonely and I think he wanted a mate for companionship as well. When Lily is left for him he takes her and flies off to his lair with her.

This is a very short story so let me just say this. On the dragon/Lily sex mentioned in the description (view spoiler) Overall there's a little roughness but mostly just to make Lily not struggle. Nalranith makes an effort not to hurt her and even make her enjoy it. In the end, it's not insta-love but Lily finds she likes Nalranith and decides to make the best of the situation with him so it ends with a tentative HEA.

This was a very enjoyable story. It's short but hot story with a sweet side. I'd recommend this. Thumbs up!
