Make Me Forget Beth Kery

Part One of the Make Me Serial

The *New York Times* bestselling author of *Because You Are Mine*, *The Affair*, and *Glow* is back with a tantalizing new serial novel about hidden pasts, dangerous obsessions, and uncontrollable passion...

Harper McFaddan has made her name as an investigative journalist by being both compassionate and fearless. After tragedy strikes her family, she moves to the shores of Lake Tahoe to find some peace. But when mysterious software mogul Jacob Latimer comes into her life, her thoughts turn from her own healing to an urgent need to get closer to him...

Jacob Latimer is the definition of a self-made man. The software entrepreneur built his corporation from nothing, but rumors abound about the shadiness of his rise to power and no one knows what secrets lurk in his past. Harper is the last person he should let into his life. As an investigative journalist, she's the one person who could expose his hidden origins. But Jacob knows things about Harper's past that make him irresistibly drawn to her. He wants nothing more than to make her his—and Jacob is a man who always gets what he wants...

Don't miss the next installment, *Make Me Tremble*...

Includes a bonus excerpt of Beth Kery's *The Affair*.

Angy Potter - Collector of Book Boyfriends says

Book Review: 4 stars

It's been a while since I read a serial by Beth Kery. I remember loving *Because You Are Mine* because it was filled with lots of kinky sex, romance and drama that kept me invested the entire time. The new serial, *Make Me*, promises to be as good as that one I read.

The first book of the series is *Make Me Forget*. Harper just moved to a new city, actually it's a small town where she got a new job as editor in one of the local newspapers, and mainly, she is starting all over again, in order to forget. There she met Jacob, a tech billionaire who was very interested in her, in a very obsessive way, I may add—Not that I'm complaining, I love a man like Jacob #BookBoyfriendAlert. He was willing to expose his private life to a journalist, just to get to be close to her. He was willing to lose control with her, in order to take her completely.

In this first installment of the serial, there are some revelations about both characters that added a good plot to the story, but don't worry, I won't say spoilers, I just have to say, pay attention to the details. I'm sure they will be very important as the story is going.

I can't wait to read the next book, thankfully, I won't have to wait much for it.

Geri Reads says

Very intriguing and oh so good. I've forgotten how much talent this woman has in writing erotic stories. She did not waste time into sucking me into this book. Right from the get go, I got a sense that things aren't what they appear to be, and that Harper McFadden are in for some surprises. Jacob Latimer...I'm dying to know what his deal is. There's definitely a big thing that he's hiding and I can't wait to find that out.

Make Me Forget is the first book in an eight-part serial, so yes, you'd have to wait a bit to get the full story. But I'm not complaining since this writer knows how to write serials. And by that, I mean, she knows where to end things and where to start it off. She knows when to give and when to withhold, just enough to keep you guessing and wanting more.

ARC provided by the publisher in exchange for an honest review.

Chris C - A Midlife Wife says

For a super short, fast read I love the setup and the start of the plot for this book. But the author draws you in, gives you one great steamy, passionate scene and it's pretty much over. How am I supposed to wait for

more??

With teasers galore and a smoking Hot billionaire on the loose, we are left hanging for the next installment. Sigh.... At least I can dream a bit knowing that more of Jacob is to come.

The author did a great job creating some intrigue so that you want to pick up the next one. I really wish that it would have been a full book. Even if it was just a novella it would have been better than just being over.

This is the first I have read from Beth Kery, but I can tell she knows how to write a story that will suck you in and tie you up! Good intro to what should be a great book.

Talk Supe says

Very short introduction and a good sampler of what's to come... Pun intended.

Right off the bat you kinda know what the whole story is going to be about: A vulnerable girl, a mysterious kinky billionaire with a past, one is going to submit to the other's dominance and it's going to be a sexy yet contentious story. I'm naturally curious and eager to peel off the layers while wary at the same time. The characters are stereotypes at this point but hopefully they break away from those shells as the story moves forward.

Novel Grounds says

Goodreads|Amazon

This was a fantastic series. I haven't read anything from Beth Kery in a long while so this was a nice treat to get. I received the serial as a complete series, so keep that in mind. They are coming out weekly currently. But again, this review is for the **WHOLE** serial.

This is an 8 part series with the first having released last week and the last set to release in May.

I love a good serial. I feel that the episodes have to be **JUST** long enough to really pull you in, but not long

enough that you feel like your reading a while book. They should feel like an episode on TV and that is exactly what Beth did with this series. It was perfectly paced.

This serial follows Harper McFadden. She has recently moved from SanFran to Lake Tahoe and is rebuilding her life there. The last thing she thought would run into her life was Jacob Latimer. I swear, after the first meeting you will be happy he ran into it too. This guy was YUM. Okay, but really, he was a complete gentleman and had a GREAT dog. That just about seals it. I love a good guy who is not only nice to look at, but more importantly kind with a good heart. You see that right from the start with him.

Jacob though earnest and sweet, could have a shady past. There have been rumors, and honestly that LAST thing he needs is a reporter getting close to him. What a shame because fate just won't allow Harper not to be a part of his life.

I felt like this wasn't quite a cat and mouse story, but kind of was at the same time. It was a suspense filled romance about accepting each other for who they are, and knowing that you can share your secrets with the right people. I was rooting for this couple from that first meeting. It was Kismet and I wasn't having it any other way.

Plus, some of those scenes will ave you fanning yourself. JUST SAYIN!

****ARC Provided by Publisher****

*****NOTE: This review is for the entire Make Me Serial from Beth Kery*****

Beth says

This is only part one of serial but I'm completely hooked...me, someone who is not a fan of serial reads...especially one planning on becoming eight parts but Beth Kery's writing shines through.

Harper left her past behind in search of a less stressful life finds herself in the sites of Jacob, a man with a press crucified past. Harper was a journalist so why is Jacob even considering letting her get close?

Electrifying passion sparks in the fast, enjoyable read. Much like the serial tv shows, there is just enough to really pull you in only to leave you waiting for the installment.

My Rating: 4.5 Stars

I received this ARC copy of *Make Me Forget* from Berkley Publishing Group - InterMix in exchange for a

honest review. This book is set for publication April 5, 2016.

Guilty Pleasures Book Reviews says

Leigh's review posted at Guilty Pleasures Book Reviews

4.5 stars

This first installment of the Make Me series was dark and mysterious and pure Beth Kery.

Make Me Forget is not a story to itself, but rather is the beginning of the tale of Harper and Jacob. We get to know these two fascinating people that have secrets and a dark past that weaves them together in ways that Harper does not fully realize. Ms. Kery does a wonderful job of introducing Harper and Jacob, making us care about them individually and together, and I found myself holding my breath when they got together. There is a history between these two strangers and Make Me Forget is the start of an addictive story.

A reserved newspaper editor and a mysterious wealthy entrepreneur with a taste for dominance, the first installment of this series whets the appetite and just made me hungry for more.

Shayna says

Ohhh, you all know I love me a Beth Kery serial series!!! They are just so sexy and enticing, and this is sure to be no different! MAKE ME FORGET is Part One of a new Eight Part Serial from Ms. Kery, and a new one will be releasing each week starting April 5th! I'm always incredibly consumed with Kery's writing. It's so intriguing and seductive and it just makes you tingle all over.

MAKE ME FORGET introduces us to Harper McFaddan and Jacob Latimer. One seeks healing...the other seeks ownership. Right away, you know there is so much mystery packed into this book. And with each new release, I'm expecting to get another piece of the puzzle. In the end I know Kery will give us a revealing that we will never forget.

The author sets us up with a good beginning, an enticing middle, and one hell of an ending. I'm so excited to see how Harper and Jacob's mysteriously sexy story unfolds. If you are a fan of serials, then GET ON THIS! Beth Kery's writing will pique your interest right away, and you can't help but to become addicted.

My Review:

Make Me Forget is a great book because its not an actual full story, its an accumulation of serial novellas, which I really like because it allows you to enjoy reading on a busy schedule. Kery is great. She creates fantastic stories and she's given us something that many readers like all in one book.

3.5 stars

“This time, she was too far gone to save herself.”

(Harper McFaddan)

* * *

“Now he was going to have to make sure Harper continued to forget, even while he remembered with painful clarity.”

(Jacob Latimer)

Michelle says

ARC provided by publisher in exchange for an honest review

“She understood how people could find him intimidating. He could be glacial. Impenetrable. Then she’d catch a glimpse of his warmth. His humanity . Raw sexuality twined with something she could only call a sweetness, impossible as that descriptor seemed given the rest of the package . It was the

mystery of that paradox that had her tantalized. But she'd have to be careful."

Intriguing!!!! This is the first word that comes to mind when describing **Make Me Forget**, the first serial installment by Beth Kery. Ms. Kery has perfectly and intricately laid out a story that piqued my interest as she introduces Harper McFadden, a young investigative journalist, who recently left her job in San Francisco to take up residence in Lake Tahoe as an editor for a local newspaper. Harper wants to forget her past, her pain, and the loss of her parents and hopes her time in Lake Tahoe will help clear her mind.

As Harper was taking in her new residence, she never expected to run into a young mysterious man and his lovable big pup. They exchanged a few pleasantries with each other but nothing serious. On her first day, Harper gets an exclusive personal invitation to a cocktail party hosted by Jacob Latimer. Harper knows very little of Jacob and is shocked as to why she was invited. At the party, she soon discovers that the man she met at the lake is Jacob Latimer.

Jacob Latimer is a self made man. He leads a secretive life and wants to forget things of his past. And with Harper, she became the distraction that he needs. Together Harper and Jacob can forget things of the past. But what does Harper and Jacob really want to forget?

"I mean that you want to forget so many things. I can help you forget , Harper. You can help me forget some things, too. Maybe that's why you came back."

I love the premise of this serial and can't wait to discover what secrets will be unraveled in the next installment. **Make Me Forget** was sexy, mysterious, and had that Beth Kery signature of intrigue. So if you are a fan of serials, I definitely would recommend you to check out this book.

Casey says

Find this review and more at Ramblings From This Chick

Make Me is the newest serial novel from Beth Kery. There are 8 parts to this story with the first part releasing April 5, 2016 and part 8 scheduled to release May 24, 2016. I am not a fan of serial novels, but for me Beth Kery is the exception. Her stories are always so good that I know it will be worth the wait to get the whole story. Luckily I was able to read the whole story at one time, and let me tell you that it is definitely worth the read! Beth Kery never disappoints, and the Make Me serial is another fantastic read from her.

After a tragedy took her parents away from her, Harper McFadden moved from San Francisco to a small town on the shores of Lake Tahoe. Looking for peace, Harper never expected to meet the mysterious Jacob Latimer. Jacob is known for being a successful entrepreneur building his software company up from nothing, but rumors of shady business dealings have left many trying to dig deeper into his past. Jacob knows that the last person he should let near him is Harper, a journalist known for her investigative skills. Yet the

connection between Harper and Jacob is more than either of them can fight and they find themselves unable to stay away from each other. But with secrets between them, can Jacob make Harper his or will the truth destroy any chance of a future together?

I really liked both Harper and Jacob. I felt the chemistry and connection between them right away, and with each new piece of information revealed I couldn't get enough of them! There was so much more to each of these characters than you see at first glance, and I really liked getting to know each of them better. Jacob was determined to make Harper his, yet he also knew that she was the one person that could expose everything he has hidden. Harper was looking for peace and healing after losing her parents, yet she was drawn to Jacob right away and couldn't fight the pull she felt to him. These two were great together, and I loved seeing how things played out for them.

Overall, I really enjoyed this one from start to finish. I am so glad that I didn't have to wait for the entire story, but let me tell you it is definitely worth it even if you do have to wait. The 8 installments are short and easy to read, and they leave you anxious for more. Jacob and Harper's story was impossible to put down, and I was intrigued right from the start. I don't want to go into details so I don't spoil the story, but I was surprised with all the twists and turns and I had to know what would happen next. Beth Kery is a fantastic writer, and this serial was filled with steam and emotion, as well as mystery and intrigue. I highly recommend this and any of Beth Kery's stories, and I already can't wait for more from her.

Thank you to NetGalley and Intermix for a review copy of this book.

1-Click Addict Support Group says

Tantalizing start...

I am not a big fan of serials but for this author I had to make an exception. When I know a good story is on offer it's hard to resist and this first installment has me eagerly wanting more.

Harper McFadden has exiled herself to a small town to regroup and heal. Jacob Latimer is rich and reclusive so when she, a newcomer, is invited to his heavily guarded home she is surprised but curious.

“How could a man as cold and imperious as he'd seemed just seconds ago come off as shy?”

From their first encounter to the next, you can feel the tension building. There is physical attraction, on both sides, but there is more than that between them. Why would Jacob – rich, aloof and very much an isolated figure – reach out to Harper? She is a journalist, a reporter, someone whose very nature wants, and needs, to

dig and find the truth. With the unanswered questions about the wealth he has accumulated, why would he open his doors to scrutiny? Oh, the mystery begins...

“Dangerous, a voice in her head insisted.”

Dangerous. Cold. Compassionate. Sexy. There are mixed messages but I can't deny the sparks that fly between these two. After that final, explosive, beyond sexy scene? *No one* can deny it!

There are intriguing glimpses of Jacob's past and a lot more to learn about these two... I can't wait to find out! ~ Diane, 4 Stars

Has says

Full Review to be posted The Bookpushers soon:

A sexy and intriguing start to Beth Kery's erotic romance serial. Both leads are engaging and appealing and I loved the opening scene with the rambunctious dog and you got to love a hero who shelters 16 dogs who have their own house. The set up of the romantic suspense element was intriguing although I wished there was more of a romantic tension buildup but the last scene was hawt!
