## When Silence Falls Shirlee McCoy

Life was busy and organized, just the way Lakeview music history professor Piper Sinclair liked it. Some recent family research even meant a new book to write. Until she witnessed an attempted kidnapping--and became a target herself. Someone wanted her out of the way permanently. Someone who seemed to know her all too well...

His expertise as a former crime scene photographer left Cade Macalister with memories he couldn't shake. Encountering Piper at the crime scene brought a different set to mind--his friend's little sister had certainly grown up well, and she couldn't take on this mysterious assailant alone. Of course, convincing Piper of that would be the only way to solve this dangerous riddle...and keep her alive.

Every time I read one of Shirlee McCoy's books, (and I do have a great collection of her books) I think they can not get any better.....BUT....then I read the next one and I wonder to myself, how in the world can she do this!! Each book is better than the last!! I thoroughly enjoyed "When Silence Falls" as it was filled with nail biting, heart beating suspense from beginning to end! And NO, I did NOT guess the bad man in this book either!! I have yet to be right!! I truly enjoy all Shirlee's books with the Sinclair family and this one with Piper was outstanding! Piper is such an adorable and feisty little character! You will love her. I definitely recommend this book to all that love a good suspense book and is written by a wonderful Christian author that writes for the Glory of God and is willing to share her talents with us! God Bless you Shirlee!
