Kayla Eklund says

Zooey the Acrocat is a cute children's book. If you like cats, you will love this book. Zooey is a very graceful cat. She runs around the house causing all sorts of mischief.

I liked how easy Zooey the Acrocat was to read. It had few words and a lot of pictures. It would be a perfect book for children that are just beginning to read.

The illustrations in the book are adorable. My favorite illustration was the one of Zooey knocking down the Christmas tree. As a cat owner, I can identify with it. I think that Zooey the Acrocat is a great book for children three and older.

Nicole says

This is a short children's story about two cats named Baseball and Zooey. The star of the book is Zooey and her incredible talents, which might just get her into some trouble.

A unique children's book, with hand-drawn pictures that will be relatable to young children and give the story a more personal feel. Though this story does not rhyme, the sentences are short and easy to read, which is perfect for helping children transition from being read-to, to reading the book themselves. Kelly tells the story of her two mischievous cats, which is relatable to every pet owner. A bit of an abrupt ending will leave readers guessing what Baseball and Zooey do next.
