## A Wicked Awakening Calinda B.

Since a child, Cherie has felt something deeply buried in her psyche longing to break free. When a beautiful man-like creature comes to her, the life she knew is no more. He draws out her latent memories of a past existence, releases suppressed desires and leads her to the ultimate sexual experience, without even touching her. Longing to release the secrets to life and ecstatic, erotic love humans dreams of, invoked by his presence, will she manage to thwart the dark evil, threatening to consume her?

## **From Reader Review A Wicked Awakening for online ebook**

### **Cherna says**

Refreshing book. I've been reading a lot of books lately and they start to blend into eachother regarding story and plot. This book had me wondering what would happen next and was fun to read: a dash of humor and characters with a background and enough depth to make them memorable. I'll definately buy the next book.

---

### **Liv Honeywell says**

Rapid pace and a great story and characters. Very intense and emotional with some very creepy moments. A great read :)

---

### **Eva Millien says**

The first book in the Wicked series is an intensely erotic read that awakens readers to an energetic and cosmic world. Cherie longs for something that lives deep inside her but dark forces are holding her and trying to ensure trying to suppress and restrain her inner being. Just when she begins to lose all hope a beautiful man like creature enters her life and helps her awaken her true self as a powerful galaxy dancer capable of using her sexual energy to transform not only herself but the people she loves.

This steady paced plot keeps readers guessing with lots of suspense, drama and sensual delights. The author brings this fascinating read to life with vivid imagery and details that capture the imagination. The characters are strong, striking and grab the reader's attention and draw them deeper into the story.

The story has lots of sexual chemistry that build up and radiates heat throughout the story and scorches readers with vibrant intensity. Drama and emotional turmoil adds lots of depth to the story and Cherie captures the heart with the all the trauma that she suffers in trying to deal with the evil darkness and learning just what she really is.

The readers are consumed with curiosity as they follow Cherie's story and the path she takes to deal with her two beaus and what life throws at her. This multidimensional and stimulating read heightens the readers desire to reach for more and to live life to the fullest.

I was totally engrossed in the delightful and emotionally stirring read from beginning to end although there were a few instances when the story got a little annoying (see a couple of never answer questions characters) which led to some confusion but overall the book was very entertaining and enjoyable with a refreshingly original erotic read.

### **Brandi Poole says**

After I got about halfway through the book, I started to enjoy it a little more. The beginning half of the book

was a little confusing, trying to keep up with what was going on. I really enjoyed that the story is broken up and told from each different characters point of view. I would love to learn more about Kayden and Natalie though and hear some of the story from their point of views.

---

### **Nancy Brady says**

Full disclosure: I received this and several other stories in the Paranormal Nights boxed set through a giveaway held by C.J. Ellisson...thanks to all those authors.

---

### **Wanda says**

Cheorio is an interesting character. I believe she belongs with Cam. Kayden is just too weird so far. Maybe once I progress further into the series I'll have a better understanding.

This was a different sort of read for me. I enjoyed it, but have decided it's necessary to take a break before reading the next one.

### **Becki says**

Possible \*SPOILER\*

Romance, suspense, fantasy and sex . Who could ask for more? Calinda B has written a truly unique story that sucked me in from the first paragraph. I highly relate to the heroine of the story...her innocence and inability to protect herself. At the end of the novel, Cherie is finally able to stand up for herself and one of the male protagonists gets his comeuppance. I'm torn between Cam and Kayden just like Cherie is. This novel has an ending in itself, but I'm anxious to read the rest of the trilogy and the short story that continue the "Wicked" series.

---

### **Jaime says**

As always with me, i found it a bit hard to get started, read the fist 50 pages in drips and drabs, but once i finally applied myself, was unable to put the book down. Wicked awakenings = wicked awesome.

Full Review posted on Book Lovin' Mamas

Calinda B. throws in not only Cherie's dilemma with the job she has to do for her boss, but she throws in

something that has been bothering the character since she was younger. It takes one incident to show demons again in Cherie's life that she never knew about until now.

I want to read the 2nd book in the series when I have some free time. I want to learn more about these Galaxy Dancers and their stories on Earth.

I recommend this book to anyone who loves paranormal romance and are fans of Calinda B.

I received a complimentary copy of "A Wicked Awakening" by Calinda B. for the virtual book tour in exchange for an honest review.

### **Cheryl says**

Wow this is a different read from what I am used to but I really enjoyed it. And can't wait to read more about the characters in this book.

---

### **Dea says**

One night can change lives. Especially with a tall dark and handsome! It is easy to just lose yourself in the book! Great read!

---

### **Carrie Garza says**

Paranormal? Totally different from any thing I've ever read before in that genre. Couldn't put it down, just dying to figure it out. But I have to read the reviews to decide if I want to read the others.

### **Nic says**

This book had a unique story and I really liked it! Something that was different about this book than others I have read is the author gives you the perspective of the antagonist--she devotes entire chapters to what's going on inside their heads. It has a New Age nuance to it that I dig, but I have to say that it's definitely unusual. I'm impressed by the original idea behind this book.

Something I didn't like within the story was one of the characters who I thought I could grow to like, but instead ended up cringing on the inside and longing to do bodily harm to that one character in honor of the main protagonist!

I would recommend this book to those who enjoy paranormal romances with lots of naughty scenes interspersed.
