All My Friends Are Still Dead Avery Monsen

From the authors of the breakout national bestseller All My Friends Are Dead comes a brand new illustrated compendium of the humorous existential ruminations of people, animals, legendary monsters, and inanimate objects. Readers will appreciate the plight of the light bulb whose only friends are burnouts, the caterpillar whose friends have all really changed, the cookie whose friends are crumbs, the cactus whose friends always kind of look like they're flipping you off, the robot who was not programmed to understand the concept of friendship, and many more, and fans new and old will laugh (and cry) out loud with this new, darkly funny celebration of the inevitable.

Toni Rodriguez says

Retiro lo que dije del libro pasado, esto definitivamente no es para niños.

Lo entendí cuando el dinosaurio bebé hizo su aparición, me encanta, aunque espero mis sobrinos no terminen leyéndolo.

Súper divertido, me hizo reírme mucho.

No hay más que decir, es un libro sencillo, como esas historias de los libros de texto de primaria, casi como los que venían en el amarillo de primer grado (si viven en México), pero más retorcido.

Algo que mi yo de siete años amaría, el yo de veinticuatro lo hace.

4/5

karen says

look who's back!

this book was fun like the first one, although i tend to disapprove of sequels to books like these. i just bet that if you put your mind to it, you can come up with something else funny that you can extend into a short humorous book perfect for gift-giving. don't just trade in on the same joke again. impress me with your diversity! now!

having said that, there are still some cute drawings in here, and some good variations on the theme.

i like the manic expression on that worm, for example.

but no one bought me this as a gift, so i don't get to write a blissfully happy "thank you" and call it a book review this time, like i could with the first one.

i can afford to be a little sullen.

all my friends are books.
and book people.

and now i have to go and be responsible

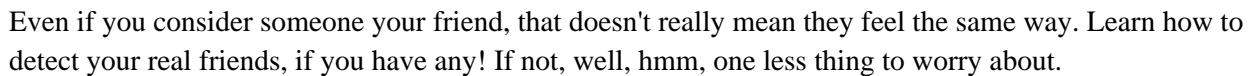

i will miss you all...

Florencia says

This guy did it again. A hilarious book that I wished it was longer (is that remotely correct?). Loved it. Loneliness is a serious matter, I should know, so you must have a dark and twisted kind of humor to really enjoy this. Big fan over here.

There's people and animals complaining about having all their friends dead. There's a bored angel complaining because all his friends are still alive. All sort of objects whining because they're pathetic friendless things waiting for some affection, or because their friends aren't exactly what they expected. Even poor Mr. Grim Reaper wants to connect with other people, but, sometimes, no matter how badly we want to be friends with someone, it's beyond our control and people can be severely injured...

There are some hilarious cartoons like this one:

Even if you consider someone your friend, that doesn't really mean they feel the same way. Learn how to detect your real friends, if you have any! If not, well, hmm, one less thing to worry about.

That robot, that pretty robot...

En serio, me encanta la diferencia que puede hacer un personaje, por más pequeño e "insignificante" que aparente ser.

"I was not programmed to understand the concept of friendship. And yet there is an emptiness inside me that I cannot explain. Let me try... Never-ending solitude."

"I think I smash buildings because my father was distant."

Kai says

Loved the first book, but this one was weak and not even funny.

Annet says

Ah, I remember reading the first one. All my Friends are Dead. Bought it in NYC, couple of years ago, in Borders I think, saw some lady laughing her *** off in a corner of the bookshop, leafing thru the book... and people walking away with multiple copies bought from the bookstore. Presents for everyone. And I thought... have to have it too! Recently found out about this sequel, All my Friends are *still* dead. Still pretty d*mn funny, those cartoons. :-)

Recommended for a tragi-comical laugh.

Farith says

2.5 stars.

Read my review for the first book [here](#).

This was different.

I liked the first book but this one was pretty meh. The jokes were less funnier but the message was still the same and yes, I think it's important, but at the same time was pretty meh.

brea says

Not only is this a wonderfully witty and comedic little book, I was fortunate to received a "censored" copy of the book which made it all that much better. A younger reader, I presume, took it upon themselves to cover all the undesirable words in the book and replace them with more appropriate words, and quite frankly that just made the book 10x funnier. Five stars!!

Merve Özcan says

?lkinden daha e?lenceli buldum. Okusan?za be. Siz de çekin. :D Gülüyorsunuz ama, söz veriyorum. :3

Jacob J. says

Like when your nephew says something that genuinely makes you laugh and, emboldened by your response, he repeats it, thinking it will be funnier the second time.

It's never funny to repeat a joke.

Never funny to repeat a joke!

Also, *Austin Powers* had some good gags. Why not do all of them again in two more movies?

Adriana Scarpin says

Sem o frescor da originalidade do primeiro livro, é bonitinho, mas nada de mais.

Sarah says

Perfect for a quick laugh when you need a swift escape from reality.

Kika says

Tak si idem do mesta s tým, že si nejdem brať knihu, že mám niečo v telefóne, tak budem čítať v buse a to, a určite bude zhasnuté, tak by som nijako nevidela. Lenže čo keď kamoš mešká a tak vojdeš do Martinusu a vrámcí nudý sa na tomto rehočeň nahlas (lebo v kníhkupectve nie je nik okrem teba, lebo je piatok). A okrem toho som prečítala jeden príspevok zo zborníka o Slovanoch, čosi od Alexy Chung či jak sa volá, a ešte pári iných vecí.... :D

Matthew says

Not quite as witty as the first one, but still pretty funny! I think they tried a little too hard to make it the same, but not enough of a complaint to make me say it isn't good.

Anya says

Since I'm an introverted person, this kind of really hit close to home. I mean, c'mon, my little doggie has more friends than I do. ;____;
