Called by the Bear, Part 1 V. Vaughn

This is a serial. The installments are not novel length.

I'm Carly Cutler and my dreams predict the future. So why am I dreaming about a sexy beast of a guy, a bear, and a paw print design? I don't know. A force I can't fight wants me to find out, and I'm leaving the only life I've ever known. With a fresh tattoo of a bear paw and my best friend by my side, I'm on a quest to find a man I've never met.

Sierra Steele here, and ready for adventure – We've been chosen. The moment I saw Carly's first tattoo, I felt the undeniable attraction of the guy I've been dreaming about. My cautious friend can't resist the pull either, and we're off to the mountains to get answers. Something's calling us, and I'm certain the hunky men are our exciting destiny. They'll keep us safe from the bear, right?

Gay says

Wonderful derful story of romance and adventure! Carly and her friend Sierra both have dreams of sexy men. They decide to leave everything behind and travel across the country to see where it leads them. Read on to finish their stories. I think you will be drawn in like was.

Helle Gade says

.Review of the way

Carol says

It started off slow and it just kept it's level of that. I thought it was one long story and didn't realize it was part 1 of 9 books??? 9??

Carly and her friend set out for an adventure after weird things start happening. Carly and her friend begin to dream about men they have never met. Carly being a tattoo artist up and leaves her ex-boyfriends shop and set on the road towards Maine where she is being "called" too. There she meets Annie and right off the bat she knows why those two are there. Then it turns out that the man Carly is dreaming about is Brady who is the brother to Annie (what a coincident.) just when the story is almost picking up, IT ENDS. I'm like what, that's it? Then to read the continuing story you have to get 2-9 and pay like \$2.99 for each and they only have about 81 pages?? sorry not paying that much for a book with less than a hundred pages.

I got this book cause it was free, it was an ok book, but not good enough for me to get the rest to find out what happens. Sorry...not worth it.

If you want to kill some time, you can read this book and be left hanging and then have to choose to buy the rest of the series.

A??ela W. says

This was a short quick read that I liked a lot. Carly is curvy, pretty, and smart, woman who is a master tattoo artist. She hasn't had success in the romance department. When she begins having sensual dreams of a forest, a large man with hypnotic eyes, a musky scent and a large fierce, furry animal she doesn't know what to make of them. She decides to leave and follow the call. There's nothing keeping her in California. Where she's going, she doesn't know But she is going, even if she goes alone. Carly and her best friend head across country following the beliefs that come from sexual dreams about hot men and animals they have been having. Signs have been coming from everywhere telling them that this is what their destined to do This is the first book in a new series for me this is also my first time reading this author this book was well written with no errors in spelling or grammar. I am looking forward to reading the next book in this series.

Nancy Eaton says

loved this series

Patti says

Overall rating: 5

The concept of this storyline is unique and refreshing. I found book one of this trilogy to be book nirvana! An exciting concept being driven by outstanding one of a kind characters. Every facet of this tale has been highly entertaining and the mature suggestive content all has been tastefully placed. No HEA as of yet but there is promise of great possibilities. Even the cliffhanger was perfectly placed! This voluntary review is based against an advance copy.

Ms Lady Jones says

Nice story. I liked the fact the women had the choice to walk way. But it got a little boring. I lost interest until we talked about the mate (r) of the girl mind. That was different and I liked the drama it could cause.

Lilting says

This was one of the fourteen books in the True Love (A Shifters in Love Romance Collection) that I read on NOOK. The beginning of the book starts with Carly and dreams of her future, but she is not the only one that is having these dreams, her best friend/roommate is also having them. They decided to throw caution to the wind and head East. Along the way they meet 2 other females from different areas that are having the same dreams. Oh, you have to have some "special" blood to be able to have these dreams (or so they say). Funny, Sexy and Full on Sex scenes. Not to be missed, you will be hooked and need to read the rest of the Trilogy to see what happens.

J.A. Fredericks says

This is the series that both got me hooked on serials and convinced me I DO like shape-shifters as long as they're incredibly hot men with a sexual appetite like Vaughn's bears. We all know the insta-love thing can be a real eye-roller if not done properly, but the way these women dream of their men before they even meet is both erotic and tantalizing, making me wish I had a hottie doing stuff to me in my sleep! The heroines Sierra and Carly are down-to-earth women that are easy to relate to and tell the story with ease. No spoilers, but the sex scenes just continue to steam up with each installment.

Adrienne Gibson says

Wait, what?!!

This proves to be a great start to a wonderful series, but you never even get to the heart of the story... if the second part ends like this, I am not sure I want to read it.

Sarah says

Part 1 of the Called by a bear by V. Vaughn

Great start to a new writer for me. Carly and Sierra are bff and family they are alone and plodding through life working at a tattoo shop. Both are having sexy dreams about huge sexy man bears that do naughty things to them.

Looking forward to them finding their mates

Margaret says

I enjoyed getting to know Carly and Sienna. I am looking forward to seeing if their dreams come true.

Lynn says

Really enjoyed this story, or what is the beginning of the story. I love the thought of doing a cross country road trip with a good friend. Like the way V. Vaughn is building the plot.

Now I know I like it I will be buying the rest of the sections.

Luzmaria Morneault-welton says

For a short read I thought it was well written so you got a good feel for the characters in such a short time frame. You don't find that happen all to often. It wasn't an exciting book but a great start to a mini series. Keep reading, it gets even better.

Mei says

Called and controlled...

Too many reasons not to continue this series about Carly Cutler and her friends being drawn to a town of men from their dreams. Dare I say more...

Yes, I dare...

What I really didn't like about this story is the way the author decided to break it up into a four part series. Frankly this book is not interesting enough to me to continue and spend \$9 on the remaking three books.

The pace of the story is slow and a bit juvenile. Carly, despite being overly cautious to the point of irritation, quickly goes all in, accepts every word to be law and marries the so called alpha, Brady La Roux, becomes pregnant and transforms to a bear—I'm not certain about the order, but this is what follows.

Proceed with caution. On my Were Scale of Hotness, 2 stars.
