In 2011, Jeremy Robinson released a series of eight novellas—deemed the 'Chesspocalypse.' Each novella follows a single member of the Chess Team from his Jack Sigler thriller series. The stories take place after the events of *Threshold*, the third full-length novel in the series, and before the events of *Ragnarok*, the fourth. The novellas are all co-authored by Jeremy Robinson and one of six other fantastic authors. The Chesspocalypse novellas are designed to introduce readers to the series. If you haven't read the novels, no worries. Enjoy the ride!

The stories were released in the following order:

Callsign: King—Book 2—Underworld

Callsign: Bishop

Callsign: Knight

Callsign: Deep Blue

Callsign: King—Book 3—Blackout

This collection contains the **Knight** and **Deep Blue** stories.

The three King books were collected in the bestselling *Callsign: King—The Brainstorm Trilogy*. The Queen, Rook and Bishop stories were collected in the *Callsign—Tripleshot* collection.

CALLSIGN: KNIGHT

When a team of Delta operators goes missing in Shenhuang, one of China's newly constructed ghost cities, Shin Dae-jung—Callsign: Knight, is called in to assist. But the Osprey transporting him to the scene falls prey to an EMP attack and is forced to crash land atop a parking garage. With a wounded pilot in tow, Knight explores the empty city for signs of life and finds two terrified children, who warn him that something monstrous is stalking the city. When the pilot disappears, leaving a pool of blood and spent bullet casings behind, Knight doesn't doubt their story.

As bullets fly and bodies drop, Knight must protect the children, uncover the fate of the missing Delta team and defend against an unstoppable killer, whose ability to regenerate and whose horrible appearance reminds him of something he's faced before—the mythological Hydra. But he's not alone in the surreal abandoned city. A team of SAS soldiers, along with Anna Beck, a former member of Manifold Genetics' private security force, join the fray. Together, they fight—and die—against a nightmare that follows its objective to the end: kill them all.

CALLSIGN: DEEP BLUE

Tom Duncan—Callsign: Deep Blue, former Army ranger, former president of the United States and handler of the black ops force known as Chess Team, is visiting the team's new secret headquarters. The underground facility, known as Alpha, once belonged to Manifold Genetics, a corrupt corporation shut down by Chess Team. But despite being abandoned for years, Alpha still hides secrets.

Security doors slam shut and lock, sealing Duncan and his assistants inside. As Matt Carrack, the leader of Duncan's security team, attempts to gain access, Duncan discovers they are not alone inside the abandoned facility. High tech intruders have infiltrated the base, their goal unknown. But a far greater threat rises from the subterranean depths beneath Alpha—failed regenerative experiments from the days of Manifold, and they're fast, hostile and hungry.

While the security team are beset by ingenious death traps, determined mercenaries and vicious creatures that defy their imaginations, Duncan and his personal bodyguard must battle the growing tide of creatures, stave off the incursion of enemy forces and prevent the violent intruders from releasing the horror currently contained inside Alpha, to an unsuspecting outside world.

Jamey Goodyear says

Double the fun. Two great guys.

This volume holds two Chess Team novellas. One is about Knight, a highly efficient member of the team and the other is about Deep Blue, the ex-president of the United States.

In the first story, Knight is sent on a mission to an abandoned Chinese city. He's on the trail of something that wiped out an American military camp and a British military camp. What he finds is a mad scientist's creation. With the help of a few friends he picks up along the way, he battles it out with the creation. A fast paced story with an explosive ending.

In the second story, Deep Blue is at the old Manifold headquarters. This facility is being refitted to house the Chess Team. However, it isn't far enough along. Manifold security is able to infiltrate the place and cause a lot of problems. They have been sent in to retrieve a sample from an old experiment. Fortunately, Deep Blue is not there alone. While his security detail is trying to find a way in, he's trying to find a way out. All are trying to find a way to stop Manifold's security.

These tales are highly addictive. There are eight novellas in the Chess Team series and all are worth a read. Jeremy Robinson is highly imaginative and presents action packed stories. I am very glad that I found out about his books.

Two books in one

Thought this was addition to series ...nope two earlier books together , my fault just donated to ongoing J R experience. Will look forward to next in series.

Kelly says

These books are fantastic for anyone that enjoys the Chess Team (Jack Sigler Thrillers) as they really flesh out two of the main members of the team and gives you a greater insight as to who they are. Each book is action-packed as you would expect. They are easy to read and due to the length only take a short time to read. I have my fingers crossed for more individual novellas for these characters.

Doubleshot features two of the solo chess team novellas, this one featuring the Knight and Deep Blue novellas. Here's what I thought:

Knight

Call Sign: Knight is exactly the kind of story you would expect from someone named Knight. Damsels and children to "rescue", a monster to fight, and a bad guy to stop. I liked this Chess Team novella a lot. It follows Prime, Pulse, Instinct, Threshold, and Call Sign books King book 1, 2, & 3, Queen, Rook, and Bishop. Awesome awesome series.

Deep Blue

Deep Blue is the Chess Teams' Charlie (who has Angels). He's charismatic and as we find out, no stranger to danger! While procuring a new facility, the previous owners want it back, as well as something else...

I loved this one.

Make sure you check out the Brainstorm trilogy if you haven't, as well as the Tripleshot of Queen, Rook, and Bishop. Then keep reading Chess Team novels! There's Ragnarok and Omega yet, and they are awesome!

Sharon says

love the chess team series.

If you like action adventure, with a lot of explosions, kicking butt and monsters - this is for you.

Deep Blue has retired to the caverns of new Hampshire - to guide his teams. But of course, he life cant be easy.

I am really looking forward to more of the Chess team adventures.
