## From Reader Review Cold Blood for online ebook

### Ann (Fanni Ann) says

I received a free copy of this book via Booksprout and am voluntarily leaving a review. I've read all of the Four Horsemen mc and a couple of the Dixie mafia books and this story has characters from both, this is Justice and Etas story.

Etta, a social worker, is friends with Pretty boy from the Four Horsemen and Justice, who is suffering from PTSD, is on leave from them so he can sort himself out but whilst he's away from the club he does a bit of work for the boss of the Dixie mafia. Then Etta's ex-husband arrives, fresh from being on parole ..... I couldn't put this down, I was hooked from page one, I love the Four Horseman, it was this series that hooked me on Cynthia Rayne's books

Yeah, the author got back to great characters and a great story. I was worried about reading this one since I truly did not like the last installation. No worries here.

Great story very heartbreak and touching. Each character went through hell and came back. The only complaint I had was the recovery process for Justice seemed very fast. He went through so much and sometimes love isn't enough to over come PTSD.

Remember the the tissues Justice's story made me cry.

I received a copy from the author for a honest review. Great read will read the next.

I received this book early so I could give a review.....Cynthia hit it again with another MC story. Both Justice and Etta are broken and trying to find their way in this world. Justice because of the military and Etta cause of a ex husband....neither thinks they deserve to be happy. Cynthia has a way of weaving each other's story and they begin to heal each other..

If you are a fan of MC stories...this will not disappoint you...I am hoping she will continue with more of these guys...

Love Cynthia Rayne and her MC books!

by Bagladynj

I received a free copy of this book via Booksprout and am voluntarily leaving a review. Hot male lead? Well lets see Justice is ex navy seal, belongs to Four Horsemen MC and has a conflicted background, all the makings of a perfect hero. Etta survives abusive situation and finds herself back on the edge when the court releases her predator. She was a strong person and I loved all the character development. You understand the attraction, not some instant "love" with no reason. You want them to succeed as a couple and help each other to heal. Love conquers all!

Cynthia Rayne never disappoints. My only negative is that being a foodie I missed Voo and all the delicious food at his café!

I received a free copy of this book to leave an honest review. I truly enjoy reading about the jagged piece of people that fit together.

Justice is a truly good human being. To me, he is the epitome of what a man is. Kind, honorable, strong, compassionate and loving. He is scarred both physically and emotionally from his days as a Navy Seal when he was held hostage by the Taliban and tortured. He is a lost man without a compass until he meets Etta.

Etta, much like Justice, is everything I believe a woman should be. Strong, kind, compassionate and extremely capable of love. She was tortured by her abusive ex husband over the span of their 4 year marriage. She has been incapable of getting close to someone but, a heart as large as hers can't be locked up.

Watching these two hurt souls find each other is really beautiful. These are two people that truly deserve the happy ending that they choose.

I love the colorful nature of Hell and the people we meet along the way. The side characters that have either been Main characters like Pretty Boy and Eddie or the ones who will be like Ten, Trick and Tyler.

I enjoyed every moment and as always can't wait to see what happens next.

*Cold Blood* is an excellent example of the MC genre. Justice is part of the Four Horsemen MC, but he's been put on a temporary suspension so he can get his life together. He's suffering from extreme PTSD from his time in Afghanistan while serving as a Navy SEAL, and the nightmares won't let him sleep. So he smokes out a lot to deal with the memories that won't leave his mind. Etta is the social worker that he apparently met in an earlier story (I haven't read any of the other previous stories in the series). The two have a strong attraction, but she's intent on keeping him out.

When she needs help dealing with her abusive ex husband who just got out of prison, though, Justice is there for her, and slowly the two give into their attraction. Justice to me is the real star of *Cold Blood*. He's damaged for sure, but he's got such a huge heart and when he loves, he loves hard, and protects those he loves. Reading the two of them falling in love, dealing with their pasts, watching them slowly helping each other heal, is such an engaging experience. I love how they're both fully developed characters and and their

chemistry is strong emotionally and physically.

If you like your MC romances with sexy, badboy heroes and strong heroines who are true survivors, *Cold Blood* should definitely be on your TBR list.

I voluntarily read and reviewed an ARC copy of this book.

First off I love, love, love Cynthia and Sara Rayne's books! I started out on the Four Horsemen series and then the Dixie Mafia and they're all fabulous! That being said, I've waited patiently, for me, for Justice and Etta's book and I'm so thrilled that it was worth my wait. Justice has always intrigued me when he's shown up in other books and I was always drawn to Etta too, the two of them together are so sweet. This book was typical of Ms. Rayne's books...sexy, sweet, exciting and humorous...such a joy to read. I'm hoping that Ten gets a book soon, he's an interesting character in a totally creepy way. I loved this book and highly recommend it...and anything else Cynthia or Sara write...I promise you won't regret checking it out!!

Cold Blood is the fourth book in the exciting Lone Star Mobster series by bestselling author Cynthia Rayne. An emotionally captivating, romantic suspense that's a definite must read! With an intriguing storyline, complex characters, humor, angst, intense situations, and many twists and turns, this story will capture your heart from beginning to end. I absolutely loved this book, and can't wait for more of this series!

Landon "Justice" Page is a former Navy SEAL, and now is an officer in the Four Horsemen MC. Etta May Jamison is a local social worker. They couldn't be more different, but there's something that pulls them towards one another. They've both been through mental and physical torture, one at the hands of an ex-husband, the other at the hands of the Taliban, both surviving the unimaginable hell they lived through. This unique connection also brings an understanding of what the other went through. Although Etta May has fought the attraction between them since the beginning, she's beginning to trust Justice, and open up to the possibility of them being together.

With everything going on, will Justice be able to keep her safe, and take care of his other responsibilities, as well as himself too? Will they both be able to finally let down all of their walls, and see where the intense attraction between them goes? Can Etta May learn to be a part of the MC life that Justice loves? Will they get the HEA they both want, and deserve? You'll have to read this to find out! You won't be disappointed.

If you haven't read this series, I suggest that you start from the beginning. You'll get to read amazing stories, learn about each couple, and learn about the dynamics of the Dixie Mafia. It's an awesome series that you won't want to miss!

I strongly recommend this book, series, and exceptional author.

I have voluntarily reviewed this arc provided by the author.

Finally Justice and Etta's story!

Both Justice and Etta have horrid pasts. Both suffering from some form of PTSD.

They have been denying their feelings for long enough and decide to take a chance. But when Etta's past comes back with a vengeance, will Justice be able to protect her?

I was so happy to finally learn the background of these broken souls. They deserved to find a little piece of happiness. They are definitely survivors.

Thanks to the author for tackling some tough subjects.

"I received a copy of the book in return for an honest review."

Finally we get Justice and Etta's story and HOLY Sh\*t what an AMAZING STORY this is!!! We first met Etta when she was Pretty Boy's social worker and she truly wants to help people so they don't make the same mistakes that she made. Justice served his country proudly as a Navy Seal and unfortunately suffered severely while in service to his country. When Justice and Etta meet both are suffering from PTSD and are damaged and broken in their own different and unique ways. This book was so beautifully written that it breaks your heart. You feel Justice and Etta's pain as they travel on their emotional journey. The storyline is very original and the journey that Justice and Etta go on is NOTHING short of INCREDIBLE!! This is by far my favorite BOOK of the Series! I CAN'T WAIT for the next book in this AMAZING Series as each book just gets BETTER and BETTER!!! I was given an ARC in exchange for my honest review.

I received a free copy of this book and am voluntarily leaving a review.

This is a good read with great characters. Justice is a strong male with bad memories from serving in the war and Etta is a caring person trying to overcome her own personal demons. Together they help each other to face their nightmares and find love in the process. Cynthia Rayne paints a vivid picture of these characters and their journey to find each other and heal old wounds. Loved reading this book!

I was so happy to finally get this book and learn the background of these two . Justice and Etta deserved to find a little piece of happiness. Both Justice and Etta are broken and trying to find their way in this world. Justice because of the military and Etta because of an ex husband. Neither thinks they deserve to be happy, but together they help each other to face their nightmares and find love in the process. I absolutely love Cynthia books. They are all so amazing.

I received a free copy of this book and am voluntarily leaving a review.

This story follows Justice and Etta.

Justice is a Navy Seal and part of the Four Horsemen MC and is having problems with his past as it's close to the anniversary of what he and his fellow Seals went through in Afghanistan and the only thing that helps at the moment is whiskey and the weed pretty boy made for him.

Etta knows bad things are coming with her ex due out anytime now but keeps her feelings hidden so no one knows what she is going through or gone through, but when Justice comes to her house she knows she shouldn't get involved with him and does hold of but things can't be denied. When they start to open up together they find they have lots in common but can they have there HEA together or Will Etta's ex do something before they can be happy.

### **Emily says**

Former Navy SEAL Justice has been asked to step aside from his MC until he gets his head back on straight. Justice is suffering from PTSD and there seems to be only one person who makes him calm, social worker Etta May Jameson.

Etta had the relationship from hell and is not sure she wants to get involved with Justice. She can't deny their is an attraction but her fears about her ex are rising especially now that he is out of prison. Justice and Etta find common ground though when they realize they both need to face their ghosts head on and find a happiness both never expected.

Loved this one. Close to being my favorite. Justice was a fascinating character and Etta is a true heroine. I liked that they took the time to get to know one another and had elements of humor that helped during some of the more serious parts. Excellent.

### **Whitney says**

Cynthia Rayne out did herself with this emotionally engaging romance. Justice, a former Navy SEAL and current member of the Four Horsemen motorcycle gang, is struggling to come to terms with his experience overseas. The only light that he can find is in May Jameson.

May has her own ghosts that she is desperately trying to bury, but when her ex-husband is paroled she knows that he past is about to catch up with her future.

Together, Justice and May, will find the strengths to come to terms with their pasts so that they can have a future together. This is an emotional rollercoaster that will keep readers engaged till the very last word.

I received this book from the author at no cost to me and volunteered to read it; my review is my honest opinion and given without any influence by the author or publisher.
