This was a great series. This author is now on my list of authors to read. There was never a dull moment in this series. Just when you thought you knew it all or figured it out she hit you with another twist.... Great Job Miss Sutton.

Finally a happy ending for Deja or is it? Personally I'm tired of the series thing and I would love a good stand alone novel. Although I was not disappointed in the series I'm burnt out on the cliffhangers.

Keke Chanel says

One of the best series I've read in a long time! So glad to see a happy ending, but cannot wait until Kai's series. Great job Tajana Sutton, I am definitely a fan!

L says

I am glad Deja is finally smiling. Xavier and Jay surely take protection of their family serious, and I mean by any means necessary they will protect their family. This was awesome, however I am left hanging will there be another sequel or is this the end of the Deja series?

Charnee Emery says

THIS WAS A GOOD BOOK. JADE IS VERY HARD HEADED & DOES NOT KNOW WHEN TO LISTEN. DEJA DEJA DEJA IM HAPPY FOR HER & XAVIER CANT BELIEVE WHO APPEARED FROM HER PAST THAT WAS A MAJOR SHOCKER I WASNT EVEN EXPECTING THAT BUT IM GLAD THAT IT HAPPENED MAYBE NOW SHE CAN GET SOME TYPE OF CLOSURE FROM HER PAST

Elle1986 says

At the moment I feel like Rocky when he made it to the top of those stairs.. yeah exactly the same way.

I promise that most of the people in these books have nine lives like freaking cats or they are all connected in some way. I mean after X's baby momma and Shawn, I was like okay that was a good one! That was a

different way to swing it.. and then it continued to happen and I was thinking... yeah no no it was cool the first time but then again.. yeah no over it.

Overall rating all 5 books (I made it to 5.. I know Kai has a book but no interest in reading it) I would give them together a solid 3.95. A few of the books I really enjoyed and others not so much.

I will say that this these books did have some great twist and turns and shockingly out of all the characters I actually enjoyed Izzy the most.

So nice read but glad I am done!

Signing off "DONE"

The end of this saga was okay. I'm not a big fan of coming back from the dead and at least 2 people previously thought to be dead all reappeared in this book. I didn't feel like the ending really captured the true essence of the original story. Unfortunately, the books don't stand on their own accord and must be read in sequence or you won't understand references. Quick read.

LaDawn Yearby says

I love the entire series I would recommend this series to a lot of people which I have!

Shanta Shaw says

Let me start off by saying that I have had this book for a while and did not pick it up until a couple days ago...lets say when I picked it up I just could not put it down. Once again Tajanna leaves me speechless. I enjoyed this book from beginning to end. The different twist and turns I just loved. I was on the edge of my seat the entire time and I loved every minute of it. I like how the character came to life, old and new. I loved the fact that each character played his or her part well. There wasnt a time when I was like I knew that was going to happen it was a shocker from beginning to end. I know a few people gave Tajanna a lot of hell about this book but I do disagree. I think that she did an awesome job with this one alone with the others in the past. I can't wait until she hits us with another 5 star read. GREAT JOB! Thanks for keeping me entertained. LOVE IT!!!!!!!

Another Page-Turner

This whole series was twisted, crazy, unpredictable & I loved every bit of it. Once again the ending left me speechless with Kai's revelation & new discovery. I can't get enough of these characters!!

ROSA MICKENS says

Secrets and lies

Secrets and lies always come to the forefront. It doesn't matter the reason whether its to protect or to hide any type of issue.

All these couple have great love and friendship with each other, but this book depicts how secrets and lies can harm and damage relationships.

Natasha Hall says

4.5 stars.

Tonia says

Too much!!

So much to take in and now I'm about to dive into Kai's story which is book 6!! Also found out there are two more books out there in relation to this series...spin-offs I guess is what they're called.

Donna Lewis says

Another bomb my Ms. Sutton. Just cant get enough of this group!

Carla says

Tajana Sutton has done it again! Deja 5 flowed wonderfully, had many twists, and moved at a fast pace. I was on the edge of my seat the entire read. Wish it was a little longer but I most definitely enjoyed! Can't wait for the Kai series.
