**Dilemmas** A.K. Michaels

*alternate cover edition for ASIN B014OE30KE*

Mac is loving his life within Cam's new Pack in the US, particularly loving his part-time work in Chastity's new orphanage for abandoned, or abused, Shifter kids. Life is good, almost perfect. Then his beast starts acting strange and what entails tests him beyond anything he's ever dealt with in his life. A dilemma that can only end in one of two ways: unending misery or a lifetime of joy.

Cam and Chastity are relishing their life as newly mated and as the Alphas of their new Pack when their world gets turned on its end. They're thrust on a mission to rescue a hybrid Shifter baby and they also have their own dilemma and news that will bring the Pack a happiness that none of them would have thought. That is, if all goes as planned, and with Cam and Chastity, that is rarely the case.

## Nikki Brooks says

Well if I could give this more than 5 stars I would!!! AK Michaels concludes this awesome series with a bang. Whilst other authors coast their series to the end, we wrap up the HWC series with a strong, emotional and very funny finale!!

The dilemma in question in Mac's. What's a Beta to do when Fate, that fickle female, puts a big ol spanner in the works? What do you do when your fated mate is...well just not what you expected??? No spoilers here but the story was big on OMG moments that you don't really see coming.

Throw in a mercy mission by Cam and Chastity to save a hybrid baby from a maniacal, bigoted, alpha and some good news from Grant and Shelly and it's an almighty roller-coaster ride. I wanted to hug Mac and then clobber him over the head with the nearest heavy object but he finally came through thankfully!!!

All the major characters have been settled with their mates now and I have enjoyed my time with the Highland Wolf Boys and their feisty mates. But what I really loves is that all the minor characters keep popping up in all the books and haven't just been used as a filler between the set pieces of the major characters. But I have now been left with a major question which has not been answered - Why is Clayr spelled that way????

Fabulous read which I have managed to hook my mother in law into. Something for everyone and I dare you not to love them all. Engaging story line, great characters, snappy dialogue and damn good bedroom naughtiness.

I dare you to count all the different Scottish words we have for idiot - hint there are more than you think LOL.

---

## Nicola says

I never thought this series could get any better but it did with this book. This was my favourite of the series. I really enjoyed reading about Mac's Dilemma, when book 5 ended with Mac's phone call to Grant, we were left wondering what was up with Mac, it was interesting to reading about his Dilemma and although I wanted to shake the life out of him a few times. I'm glad he made the choice he did. I have Loved reading this series and getting to know all the characters, I love how Ava makes all her Characters interesting and just as important to the story as the main characters. Throughout this series I have laughed, cried, felt happiness, sadness and joy. I fell into this paranormal world and truly lived it, I loved every minute of it! If I could choose a series to be a movie, this would be it! I highly recommend this series to anyone looking for a great read. Thank you for writing such a great series, I LOVED IT!! Easy 5 stars \*\*\*\*\*

Book: Highland Wolf Clan, Book 6, Dilemmas

Author: A.K. Michaels

Publication Date: 8/29/2015

Reviewed by: Tammy Payne- Book Nook Nuts

My Rating: 5 Stars

### **REVIEW**

Book 6 and I loved it as much as I have the others. Cam and Chastity are off to rescue an orphaned mixed breed shifter baby an Alpha has said he will drown. Well things do not go as planned because the Alpha is one mean person. They do get the infant back to their pack and begin life as a family. Of course, soon their family will become much bigger but I am not telling you why. Buy the book and read. Mac also has a surprise of his own and he is not dealing with things very well at first but after a talk with Grant and then with Cam he has made a decision. I love this series and each book gets better and better. This one had some hiccups but nothing massive. I would recommend it and if you have not read this series I'd suggest beginning with Book 1.

I was gifted this book for my honest review. And that is what I give you.

A.K. Michaels

## **Julie says**

Wonderful!!! There definitely was a dilemma, well for Mac anyway, he was just as surprised as everyone at the turn of events for him.

And Chastity and Cam go out to save a hybrid baby from a bigoted alpha who had planned to kill the child because it wasn't pure wolf.

A great story, I thoroughly enjoyed it, I believe this maybe the last to the series and what a great story it was and also as there is no loose ends and everyone is settled down with their mates it makes a grand finale to an excellent series. A great read and a fantastic series! I highly recommend this book and series to any lover of great paranormal romance.

## **Tracy Ehlers says**

AK Michaels continues to amaze me with her ability to build a story and keep me entertained..

---

## **Sue says**

I don't know how A.K Michaels does it, although this is book 6 in the series she continues to come up with storylines that grab your attention.

No spoilers, but I have to say she expertly conveys Mac's struggle to come to terms with what's happening, what is happening you ask ? You'll have to read it to find out but it was a twist I certainly did not see coming !

This is the last book in the series and I for one am sad to see the last of these sexy lovable Highland wolves but hey, whenever I need a fix I can always re-read them right !

---

### **L M says**

I read these books for the romance. If I wanted to read about same sex couples, I would get those books Poor Mac, he gets his mate but it wasn't what he expected or what I wanted for him. A ménage would have at least been a better compromise then Mac could have the mate and children he wanted so badly. Cam and Chastity's life really takes a huge turn and we have a lot happening with them. Hope Mason gets a mate soon and it was nice to see Ryder settling into pack life. Due to Chastity's being in labour we aren't told if Ryder is okay after the fight but one assumes he is. I found it strange Brett was working at the orphanage when he is an architect and engineer. I expected him to be busy working on stuff for Cam.

---

### **Karen Komarinski says**

I was given an Arc copy in exchange for an honest review. I have been a fan of this series since book one and never thought the story could get any better. But which each book I would come up with a new favorite and there is no way you can't fall in love with this family of characters. Things are changing for everyone in the pack and new beginnings are on the horizon for all. Grant has gotten in touch with Cam to let him know about what happened with their father and how their childhood friend helped him almost destroy Grant and Shelly. Mac has settled in with being Cam's Beta and doing work at Chas new orphanage for abandoned/abused shifter kids and one day his world is turned upside down for his wolf had found its mate and Mac is struggling to come to terms with it's choice. Along with some unforeseen chaos surrounding Cam and Chastity, much happiness is upon the Highland Wolf Clan and the Sinclair Brothers. Both Grant and Cam help Mac through his dilemma. I am so happy when I found book one on sale, I found an amazing and talented Author. I will miss this Series, but I have so many others of A. K. Michaels to read, and I am looking forward to every one of them. Thank you again for sharing your stories and talent.

### **mrs lynne gouaalla says**

#### **Excellent book**

I loved cam and chastity  
Yeah triplets  
They got there hands full

I hope there is more books to come in this series

I want to know about there fourth baby and would love to find out about grant and Shelly

Please let me know

---

### **Colette Wills says**

I was given a copy to review honestly and being honest about the book isn't hard. This book has so many exciting things going on that you won't be able to stop turning the pages. Every time you think you know whats going to happen Ms. Michaels writes some new direction into the story. Its nice to not be able to predict where the story goes.

---

### **Isabel says**

This book was amazing. So many changes in the clan. A.K. Michaels has not one but two unexpected twists in this book. The book deals with a couple of socially sensitive issues with understanding and class. Mac's life changes in ways he never expected. This book made me think, it made me laugh. The story pulled me in, it felt like it was happening to real friends & family. Bravo A.K. Michaels for a book well written.

---

### **Donna says**

Cover/Title: Boy does this title fit this book. It is definitely full of dilemmas.

Characters: Once again, all the characters that I like are back. There is no end to great characters in this series.

Plot: There is so much going on in this book. Cam & Chastity deal with the orphanage issues, their own family surprises and Mac finally meets his soul-mate. Maybe not quite what he expected but he finally found what he needed.

Overall: This series just keeps going. There is always something new happening as the characters and the pack grow. I am looking forward to what happens next.

---

### **Kelly Cooper says**

Once again A.K.Michaels does not disappoint!! Drama, romance, action, suspense it's all here with plenty of surprises and twists and turns along the way. I was on the edge if my seat as I read it and I literally couldn't put the book down until I had finished. Keep up the good work Ava, absolutely fantastic!!

---

### **Diana Page says**

This is definitely the best of the Highland Wolf Clan books to date. Cam has become the Alpha he was meant to be, Chastity has the shifter orphanage up and running and big surprises for Cam and the pack coming. An Orphan cub brings personal joy to Cam and Chas, but also danger lurks in her past and future. Mac finds his soul mate, just not in the way he always thought it would happen, so as a hard headed Scott he fights the mating, remembering almost to late that the Goddess doesn't make mistakes !! This is a definite 5 star read that you don't want to miss from Author A.K.Micheals !!

---

**Donna Langley says**

**Wonderful**

Simply wonderful loved this whole story. They had triplets omg!! I even enjoyed Mac finding his mate! Lol trust me you'll get hooked in this whole story so much to read so get started and you'll love to
