**Joyful Parent = Happy Home: 14 Insights to Parenting with Joy** Mary Hudson , Jentzen Franklin (Foreword)

Do you get angry at your children easily? Do you often feel like giving up and throwing in the towel? You DO NOT have to feel or react like this anymore!

It is difficult to watch your children do things “their way,” especially when it looks like it is totally the opposite of God’s way. You want to shout, “Stop!” because you clearly see the danger ahead. Mary Hudson shows you how as a parent you can look past your hurt and love your children despite their actions. Joyful Parent = Happy Home will encourage you to love your way into your kids’ world. Loving your children unconditionally is the primary ingredient to becoming a Joyful Parent.

Once you figure out what is stealing your joy, you have won half the battle. The enemy is the one that is stealing your JOY – not your children. This is a spiritual battle. The enemy’s most effective weapon is deception. And if you fall for his lie that your child is never going to change and will always live a certain way, you have been duped by one of the devil’s oldest tricks.

You will be surprised – you will get a brand-new view of parenting when you appropriate a brand-new attitude toward your children. We have to encourage our children with a vision for their future, with the plans that the Lord has for them. We need to remind them that the world will use and abuse them, but God will never fail them. Start speaking life to your children no matter what they are up to or what they are up against. Then, you will start to see life arise in them!

Goodreads win. Will read and review once received.

This was a well written book. It was very interesting and kept my attention. It was easy and a fast read. I will admit I probably wouldn't have picked it up on my own, but am happy to have won the book through goodreads. I would definitely recommend this book to anyone.

In compliance with FTC guidelines, I must disclose that I received this book for free through Goodreads First Reads.

When I signed up for this book giveaway, I did so thinking this was a book on parenting and self help. In truth, it is a book on how to raise christian children. Being a staunch agnostic as I am, this is not the book for me. That being the case, I do not feel right giving it a rating, so will leave that portion blank.

Also, I have given the book to a christian friend of mine with the request that she review it on this site, so hopefully my getting picked for the contest is not all for naught.

This book was received through a Goodreads First Reads Giveaway. It provided advice for parenting rooted in God and Scripture. Honestly when I requested the book it wasn't that clear in the description. I feel it has been updated or expanded since. Recommend if you are seeking this. I wasn't necessarily so it was just ok for me. Well written and easy to read.

I won this through a Goodreads Firstreads giveaway.

I decided to read this book during the Eater weekend. It was a very quick read and very inspirational. It is trying to teach you that sometimes your children are the problem it is you. This wakes you up immediately. Many of the things in the book were so true and I have seem myself in those pages. One of the most important lessons in the book is to fix yourself and the way you view your child. Sometimes all the negativity coming from you passes on to your children and in turn makes them act out even more. Great Book
