London, 1806

Lady Cassandra Osborne is ready to take a new lover to her bed—and knows exactly the man she wants: Sir Ian Chandler, her late husband's rakish best friend. The single kiss they'd shared had made her feel alive again, awakening dark needs she didn't even know she had...though Ian had quickly pulled away. Cassie is sure he doesn't want her, until their reunion at a Christmas house party tempts them to succumb to the desire that has haunted them both....

Another instance where a really sweet story is rather underdone because of its length. Cassie is a widow who is ready to take a lover and she wants Ian, her and her husband's best friend. But he's been avoiding her since their passionate kiss. So she'll move on with someone else at her friend's party. But when she goes to that person's room, she finds Ian instead and ends up sleeping with him. There probably should have been some conflict afterwards...at least that' what it felt like should happen. But there wasn't really. Especially in light of the fact that Cassie had planned on sleeping with another guy. That and the ending felt like it needed to be drawn out more.

I read this for a Christmas challenge. I was curious as to what exactly 'Regency Undone' books were so I bought two that were on offer. Apparently they are smutty versions of historical romances. LOL This one had a good premise, but it was a bit of a fail in some areas. The heroine is in love with the hero (duh) and then decides to sleep with someone else completely (huh?) but the hero realises she is going to do this and swaps rooms so she sleeps with him after all. Yeah... Huh? Anyway, it was incredibly short. Which I found out must be the norm for this series, as the other one I bought at the same time was also novella size. Maybe I want a little more for my money, Harlequin. Just saying...
