## Perv Dakota Gray

I'm honest about what I am. You want to screw until you can't see straight? I'm your guy. You want to experience the best oral orgasm of your life, don't pass go and collect two-hundred dollars. Eating you for dessert is my specialty. I live for that. Skinny, average or meat on your bones, I don't care. Blonde, brunette...white, Asian, black...

Are you pink where it counts? Then you're my type.

I'm your guy.

For the duration of our affair, I will call you Sugar because I can't bother to retain your name.

That's the kind of man I am, and you will know that going in. I make sure of it.

So it's not my fault her friend loved me, but She is going to make me pay for that.

And I'm too addicted to her taste to walk away.

## From Reader Review Perv for online ebook

### Kim C. says

This guy was soooo pervy. And he was a total douchebag, but he was honest about it. He was pretty much an open book and I loved reading his POV. Robyn, on the other hand, annoyed me a bit because she was such a contradiction. Part of me gets where she was coming from, but the other part says 'nope'. But the sex scenes - - Wowsa! Smokin'hot.

---

### namericanwordcat says

Hmmm.

The most interesting part of me about this book isn't the fetish that Nate has for downtown, rather it is the more quiet discussion of connection and objectification and grief.

Those parts of the romance were powerful for me, however, Robyn's and Nate's working stuff out should have been on the page and in the book. Instead, we get melodrama, angst, and don't get the well deserved falling in love.

Revenge plot, jerk heroes and deep 1 person are not my favorites so this book was climbing a steep hill with me.

The sexy stuff is sexy (though opening a romance with him with someone not the heroine makes me cringe a bit).

So, didn't work that great for me and the author's note at the end of the book annoyed me as a reader who is happy to see something different.

However, I will try the next book in the series as Nate's friends are interesting.

---

### Gisele Walko says

This was funny, emotional, and there are no words for how sexy it was! I devoured the whole thing in a couple of days, loved every minute of it, and didn't skim once. From start to finish I was completely engaged in the Nate and Robyn drama. All the stars! One of those books I'm sure I'll reread at some point.

---

### Casey says

Meh...

Yes, the book definitely delivered on being one of the dirtiest things I've ever read, but aside from the smutty smutty smut, there wasn't much to this one for me. I never felt connected to the characters and some of the situations were just a little too much on the kink side of things for me. I didn't hate it, I just don't think one this was meant for me.

**Pre-read Thoughts:** That moment when the author of the sexiest, dirtiest book I've ever read suggests a book and says:

*" I read a positively filthy book over the weekend. It was so raunchy and dirty that at one point I was tweeting about clutching my pearls. "* - Kit Rocha

## **I NEED TO READ THAT BOOK**

---

### **Erika says**

Loved every word of it. Better review later when I can think lol.

---

### **Jessica Alcazar says**

You guys ..... **THIS BOOK** .... I don't even have words.

It has been a very long time since I laughed myself into hiccups AND felt the all the feels jumping from page to page. I'm not gonna tell you this story is sexy because it is WAY more than sexy. It's sex. Just S.E.X. in all its glory! And it was a glorious ride to read.

But don't be fooled by the sex of it all because there is a story here. In between the pussy licking and the My Little Pony anal plugs and every other hiccup inducing moment, there was a story. A story of two people who found the light in the dark. A story of two people who learned to be the best version of themselves thru each other and for each other. A story of love.

Pick this gem up and do it quick. It's filthy and dirty and just so much love :)

**Pixie says**

I tried. DNF'd at 41%. Overall if this is the type of book you're into then the sexy times are probably 5 star worthy. Very descriptive. I think it's possible the power dynamic may end up putting the two on equal footing but I couldn't say for sure. But I cannot get into the premise of not fucking someone because of "girl code" and then fucking them to... prove a point? Not sure, whole thing was lost on me.

That actually was really my breaking point. I hate to expose the secrets of the sisterhood but guys don't own the market on casual sex. There is no "girl code" if your friend slept with a fuckboy and then tells everyone he can eat pussy like a god. We do talk...and similar to guys we will put you in "one night stand" verses "boyfriend/husband material" just as fast as guys will deem a girl a slut.

Lastly, and this is probably nit picky as fuck but if a guy has a fetish that is basically getting off on the way a woman's pussy taste (and I know this may be crude to some of you but that is this guy) he's not savoring that sweet nectar through a dental dam.

---

**velvetgypsy says**

5 \*\*I'm a cumless fuckboy\*\* freekin stars??????!!! Nathan is seriously filter-challenged.....Fun stuff :)

---

**Carmen says**

*I cup her face and make her meet my gaze. The shadows are there. They might always be there, but I know I can put joy on her face. I don't know what happened to get her standing here, but I only need her to know one thing.*

Okay, I have **a lot** to say about this book. A lot. I want to make sure I do this book justice. It deserves a long, thoughtful five-star review.

Nate is a man who loves to eat vulvae and he is excellent at it. He doesn't remember women's names, he calls everyone he 'dates' - and I'm using the term 'date' loosely - 'sugar.' But he meets his match when Robyn seeks him out in revenge for her friend.

^^ Simplest summary I can give you, it's a complicated book.

Let's get started.

For one thing, this book is very complex and psychological. I've read tons TONS of erotica, especially this new, modern erotica which focuses on these kind of I-fuck-a-ton-of-women-I'm-so-good-in-bed heroes. And most of it is trash. Good for jilling off, in some cases, but completely without any depth or substance.

Which was why I was so delighted to discover this little gem while walking around Amazon.

### **THE GOOD:**

- The story is super-fascinating. From a psychological angle, there are about a million things in here to analyze and dissect. This was probably about my twentieth reading of this, and I'm still finding new things - which delights me. Now, don't get me wrong. This is no *Pride and Prejudice*. You wouldn't teach a lit class on this (at least most people wouldn't) but compared to most of the erotica books out there nowadays this is gold. Gray is bringing something extra to the table.
- The book is genuinely funny. Not so much laugh-out-loud funny, but more of a sardonic, dry wit. The author is smart and funny. She will have you grinning wryly to yourself a lot.
- Perfect characterization. Moreso for Nate than Robyn, since we are in Nate's head most of the time. I can picture this man. I can predict what he will do. I can understand where he's coming from and where he's going.

Now is he the kind of man I'd date? The kind of man I'm attracted to? No. But that isn't the point. My point is that Gray had the time and skill to flesh him out.

- Nate has an army background - five tours in Afghanistan - but Gray does not focus on this. Nate is neither obsessed with his military past nor is Gray trying to make some sort of statement about servicemen. Most of the time when I read romance/erotica about military men, it always devolves into this sort of "He's a SEAL!!!!" obsessive mentality as if all people who serve are the same.

Nor is Nate subject to some sort of he-man complex about being army. He doesn't hang out with all his buddies from the service and he doesn't get physical with people in a 'fighting' stance. SO many romance novels about military/former military men is them hanging around in a relatively large group of men they used to serve with, and usually the author chooses to 'show off' the male's skills or training in some kind of fight. Nothing like that here. He doesn't even have a confrontation with anyone.

- Robyn is hurt. Common, common romance trope. When she gets entangled with Nate, she's been celibate a year.

What I really love, though, is how Gray handles this. For one thing, we don't really get into it until 51%. When Nate and Robyn exchange sexual info and STD screening results, and etc. etc. (another nice touch. Protection is also covered by Gray) it is at 24%, and Nate doesn't pry.

*"You test for everything? I thought you used dental dams?"*

*"I'd rather be safe than sorry. Your turn."*

*She bites her lip. "Of course."*

*To my surprise, a flush darkens her skin as she pulls out her phone. Now she curls into herself and puts distance between us. Eventually she slides her phone to me.*

*The results are a year old. I try not to react outwardly to this news in any way. She's already blushing. I'm not going to be a dick about this.*

*"There's a hotel down the street from here," I say, still cautious but optimistic.*

*She admitted, by way of these results, to having a sexless year. Do I want to know why? Yeah. Do I want to know how a woman like her could go so long without... touch? Sure. Can I fathom going that long without? Fuck, no.*

*What's important is the way her expression softens when she realizes I'm not going to tease her or ask questions about her celibacy.*

Hmmmmmm, I really like this. When we get to fifty-one percent, she is talking to him and she tells him about her first trip to a BDSM club. They discuss sex and power exchange.

*"Letting him spank you?"*

*"LET HIM is the important phrase here. So... not power but control."*

*"You topped from the bottom." He shakes his head as though he's disappointed, but there's a wicked light in his eyes. "Yeah. I can see you as a bad submissive."*

*"Which is why I'm not in the lifestyle."*

*His chin tilts up and his eyes are laser sharp. "Who gave you trust issues?"*

*I bite his lip to shut him up. He laughs. I've made it obvious he's hit a soft spot, but he can't have access to my sore bits. I don't care how good he is in bed, he can't cup my pain and inspect it.*

*If I give him Lawrence's name... If I tell Nate how my first crossed a line during a scene, made OBEY an ugly word for me - I can't do that. I'm not still writhing in the pain of mistrust but it's part of my DNA now.*

*Nathan can't have my blueprint.*

And that's how things sit until 59%. She never gives Nate Lawrence's name. He never hunts him down and confronts him. AND THAT IS GOOD AND IMPORTANT. Too many romance novels feature the hero beating up or intimidating a former lover. Which is really quite silly. I realize romance is a... wish fulfillment genre, but I'm glad Gray sidesteps this trope. Anyway, at 59% she tells Nate she had a bad dom.

*"Who made it hard for you to trust?"*

*She pulls back and her lids lower. "My first."*

*Of course. "What did he do?"*

*"He was a bad Dom."*

*I can assume the truncated story. "How bad?"*

*"He didn't listen when I said my safeword. Humiliation was his kink and not mine."*

*I keep my voice level but my hands ball into fists. I want to hurt the asshole who hurt her. "Pain?"*

*"I can take it. A lot."*

*But what about pleasure?*

So. Nate, in exactly his Nate-like way that is completely in character, suggests that Robyn allow him to take her home and tie her up. Not because he is a dom - although this book insists on calling him an alpha a lot, I disagree, but more on that later - but because he a.) wants analytically to help Robyn get over what happened in the past and b.) he wants to prove himself, not as a dom or as an alpha or whatever the fuck - but prove to her that he will be someone she can always trust. She agrees, she agrees on a safeword - and she picks one she knows will needle him because she loves to needle him - and tentatively suggests she'd like to find out if she enjoys having her nipples spanked.

They have a highly successful and consensual and pleasant BDSM session when they get home. These are HIGHLY RARE in erotica and I have to admit I am no BDSM expert, but I have to give Gray major, major props for this.

Again, I'm not into tie-me-up, tie-me-down, chips, dips, chains, whips. I am more or less vanilla. So I wasn't exactly jonesing on this BDSM scene. But it was extremely loving, respectful and romantic, if you see exactly what is going on here. It was one of the sweetest BDSM scenes I'd ever read, and that is really not something I usually say.

Again, IMO Nate is not a dom. As in "BDSM is part of my life, or I need to practice this lifestyle or I have needs that can only be sated in a relationship that involves BDSM." No. But she likes it - or at least she used to like it - and he can step up to the plate for her, so he does.

I have to give kudos to Gray for nicely including a bit of BDSM into the book without being all like, "OMG, S&M, CHRISTIAN GREY!" and shit. It's nice, normal, and woven into the fabric of the book in a not-over-the-top way. Much like Nate's military background.

- Another thing that was so refreshing in this book is that Nate is white - and from Georgia - and Robyn is black. Again - Gray talks about this, she doesn't just shove it under the rug - but nor does she make it into a huge "OMG, interracial relationship!!!!" deal. It's just the perfect balance IMO. Very well done.

- Robyn and Nate slowly, slowly get to know one another. I mean, the fucking starts from the beginning. This is erotica. But the great thing about the book is how these two actually start to care about each other - against all odds - slowly develops and crystallizes.

A nice touch Gray includes in this is how delighted Nate is when Robyn laughs. The first time she giggles, his heart nearly stops (this is already some ways into the book, they are not the giggling kind for the first third). After that, he is always seeking her laughter. And he doesn't seem like a joking kind of guy, but you can almost see him relaxing and letting down his guard a little bit so that he can allow himself to be a bit

goofy (and he's not a goofy guy) - all for the hope of seeing her grin or hearing her laugh. He lives for it. I really enjoyed seeing this aspect of their relationship. She makes him see things as absurd or ridiculous and, instead of getting angry, he is able to relax and joke around with her - even about himself. They have a GREAT chemistry and the book involves a lot of gentle teasing and gentle joking with each other. You know these are normally two very serious people (and in Robyn's case, occasionally maybe even depressed) but they are able to lift each other up this way and it is very cute. The scene where Nate takes Robyn to the club he used to strip at and does a private show for her is adorable and funny. They are both laughing, and it's such a great scene.

*She's sitting with her hands up at her mouth, clasped together as though in prayer. From the crinkle around her eyes, I know she's fighting a laugh. I strike the first pose with my legs spread in a fighter stance. I do a hip roll and slowly unbutton my geek shirt. I'm rusty but it doesn't take long to get the dress shirt undone.*

*I look her right in the eye and I flip the back of my shirt like Michael Jackson. She leans forward and her shoulders are shaking. Her eyes are so bright. She's laughed a lot since I've met her, but this is the first time I've seen joy on her face.*

## THE BAD:

It's a common mistake for folks to believe a five-star review from me means I have no complaints.

I definitely have complaints.

For one thing, why refer to Nate as an alpha all the time? I figure this is just to sell books. Slap 'alpha' on a book and it sells. I mean, I don't see Nate as beta but I don't see him as alpha, either. I just see him as a man. Do we have to categorize people all the time? Also I fucking hate the term 'alpha,' the whole idea is just stupid. An alpha dominates other males, not females and it has nothing to do with sex or sexual behavior.

I'm sad to think that the word 'alpha' and all the references to Nate being 'alpha' will scare off some readers who will then miss out on this treat.

2.) My second complaint is about Nate's 'fetish' of pussy-eating and how it's treated. "Oh, I am a pervert." "Oh, you are a nasty fucker." "Oh, this is filthy" etc. Like... eating pussy is not really weird. Liking to go down on women is not, in my opinion, a big deal or some kind of horrible shameful thing.

This is JUST LIKE when I read that book about that hero who enjoyed a little bit of recreational spankies and everyone treated him as if he was a serial killer or something. Remember that book? I was reading it and I was like, "What the fuck? He just wants to do some light bondage stuff. What's the big deal?" but the characters in the novel treated him as if he were murdering women in the night or doing stuff against their will or something. And he had this deep, deep shame about it - as if he was a bad and deeply fucked up person simply because he wanted to spank his woman a little bit and maybe tie her up on Saturdays. ???? Baffling.

Here it isn't AS bad as in that book. They don't treat Nate like a serial killer or rapist, at least. But everyone - including him - cheerfully believes something is deeply fucked up with him and that he's a 'pervert' and 'filthy.' Um... why? Because he loves eating women's vulvae and that gets him off? I don't really see the big deal. There's one or two references to him stealing used panties from girlfriends when he was a teenager, and that is more creepy, but still not falling into "OMG!!!" territory for me. \*shrug\*

He doesn't do ANYTHING nonconsensual sexually or questionable consent sexually in this book. I just want to make that clear. OK? Robyn is 100% on board with everything he's doing to her in the sack.

Just weird to me what some people define as 'sexual deviance.' Liking vulvae is not sexually deviant IMO. \*shrug\* But I get that it sells books. PERV in big letters with some overly muscled guy on the cover is going to be \$\$\$\$\$. Luckily LUCKILY for me, Nate did not practice what I found to be ugly, weird, or disrespectful sexual behaviors. I never know when I buy these books what I'm going to end up with.

In my opinion, the weird and deviant thing about Nate isn't his penchant for going down on women, it's his misogynistic tendency not to bother learning women's names and his deepseated fuckeduppedness about women and money. More on that in THE UGLY.

- The other thing that I consider 'bad' in this book is (view spoiler)

Gray does a *great* job of depicting grief, death, and coping. I'm not slamming her for that. But this underlying idea is fucked-up. And no one calls it out.

## **THE UGLY:**

For how much Nate 'loves' women - and I'm being ironic here - he's awfully misogynistic, at least at the beginning of the book. Imagine a man who doesn't even bother to remember women's names. Because it's 'useless shit.' He can 'date' these women for up to six months, and he's always exclusive. But he has them in his phone as "Cinnamon" or "Glitter" instead of by their proper names and he honestly doesn't even remember their proper names.

That's really disgusting. And how did he turn out this way? No one has any idea. No hints are given. He has a great relationship with his mother and it is showcased in the book. Perhaps Gray is trying to tie it in with his 'perversion' of being obsessed with vulvae, but NO, the two have nothing to do with each other IMO. So... what gives? Ex in his past fucked him up real good? Again, bullshit, but it would at least be an explanation.

- He also has *serious* issues with women and money. He must pay for everything, if Robyn even reaches for her wallet he gets angry. He says this is how he was raised, but he gets more upset than I think is healthy. She's absolutely not allowed to pay for anything and he takes it as a great insult if she tries. Now, you could just say "Great! I will enjoy dating someone who takes care of every single expense," but if you have half a brain, this will worry you on some level. I mean, he doesn't have a temper unless she brings up paying for something.

## **HOW'S THE SEX, CARMEN?**

Brilliant! Exquisitely detailed. Even the most hardcore stickler for detail (Carmen coughs delicately) couldn't complain about the sex in here.

Now, Gray obviously covers practices that I'm not turned on by. Getting tied up, blowjobs while tied up, 'spanking nipples' and breast-biting are all things that severely don't interest me, I'm not into pain at all, but there were plenty of things I enjoyed as well. But if you don't enjoy reading about cunnilingus, just avoid this book. It's basically the whole book. Not all - they definitely have blowjobs, PIV sex, and one hilarious and amazing scene about foreplay that I LOVED. He's hustling her off the bedroom and she's gently teasing him about "What, no foreplay?" so he dedicates hours to foreplay just to piss her off and she ends up begging to be fucked. It's very cute.

*She's a low-lidded, moaning mess when I flip her back over. She'll never question me about foreplay again. I will lick her elbow in a way that will make her come. My dick hates me, but it always does. And I'm not done yet.*

Laughing out loud. He reminds me of one of my ex-boyfriends. :D

And the stupidity of all. A great review to follow

<https://www.goodreads.com/review/show...>

---

**Michelle says**

First, thank you Jessica for gifting me this book ?

This was my first Dakota Gray book and was ready to dive into a little filthy reading. In Perv, our Hero has a kink, one that I can't say I've read about in any other book before. It's all about pussy. Smelling it, touching it, tasting it and fucking it. And although he's never told the women he's with that he'll ever be more than a mouth that worships them, he has left a few broken hearts in his wake.

Enter Robyn. She's not a victim of his mouth, yet – but once she realizes the guy she's coming onto at the bar is the same man who broke her friend, a little flirting turns into revenge. But poor Robyn never expected this man to be that talented or not being able to keep her heart out of it.

This was a hot little read. And although you do get a story tossed in, it was a lot of insta-everything; which I

personally don't mind. Sometimes I just want to get to the point you know?

Overall I really enjoyed this book and look forward to the next one. But I think what really sealed the deal for me was oddly enough, what the author wrote in her acknowledgements. I loved that carefree attitude. I love that she wrote the books expected for romance and is now not apologizing for wanting to write a hot little book because it's what she wants. That right there is what I love to see as a reader. That means the book you get might not always fit the mold for romances, but it's going to have a bit more of the author's heart in it.

---

### **Fabi says**

What a fantastic story!

With a title like that I was expecting kinky. Yes, there's kink...forget foot fetishes! Really, there's fetishes and then there's Nate's fetish. OMFG

But there's so much more than kink and fetishes in this story. There's a deeper, heartfelt romance with a devastating reveal.

The characters are expertly developed. Nate is a prime alpha a-hole.

**Apparently when I say things like “I want you to come on my tongue” that is considered dirty talk, not relationship goals. Who knew?**

...

**That's all I provide—the best sex a woman could want. No shame or excuses. No need to pretend like she wants a relationship to get good sex. The women who do want a relationship, I avoid. Women who start to gaze at me as though I can be that honey-I'm-home guy, I drop—kindly.**

But then...he meets Robyn. She's no pushover. Plus, she has an agenda.

**He probably uses women for money, hates his mother, has no ambition, and is the kind of asshole who would kick a woman out of his house if she were on her period.**

...

**I'm going to give him a hard time, but once, just this once, I'm going to have him in my bed. I won't be fool enough to fall for him.**

She's no fool and she has a secret. A secret she expects him to know. He doesn't, and it will destroy them both.

**There's not going to be a wedding when we're done with each other. There will be**

**gravestones.**

The side characters, their friends, are also well developed and a big part of the story.

The men friends:

**Men gossip like women. They just use less words when they do.**

**“You know he’s still fucking Robyn.”**

**“He is? Dumb fuck.”**

The women friends:

**Samantha rips the cover back an inch and shoves a wine bottle into my hand. “This has got to stop. It’s one thing to be sad over a break up. Another to be pathetic.”**

...

**“Now don’t waste another moment. Make mistakes, make love, be happy.**

Overall, a great start to a series that will likely focus on a new couple each book. Although, I look forward to seeing more of Nate and Robyn.

P.S. there were a half dozen typos, but none even came close to detracting from this story.

---

### **Shannon Youngblood says**

\*\*5 I have Cake Stars\*\*

***When a woman Hooveres up your c\*me before it can spill out and your first thought is marriage, yeah, that can f\*ck you up***

I’m not going to lie, I have NEVER, EVER in my history of leaving reviews, been more excited than I am right now to write this and plan it. God, I don’t even know where to start, telling you all how much I EFFING loved this damn book.

First and Foremost, if you’re considering reading this book, please don’t be a prude. This book is erotic and dirty and filthy (aptly named), and no one needs a sour puss mucking up the reviews for the rest of us, because you don’t like the “p” word. If you don’t know what “p” word I’m referring to, chances are you probably shouldn’t read it either.

So, let’s be honest here, I write reviews. Usually close to 20 or 30 a month. I read a book, I feel the book, and then I write down my thoughts and what feelings emerged. Then I move on. I find the next story to take me on a new adventure. But this book..... This will be the new book I compare all others to. This will be the book that will set my standards on ALL erotic books to come. Perv is my new addiction, it’s **MY** cake. (Although I wouldn’t mind having the female equivalent to Nate’s affliction)

***Don't believe anyone who says eating p\*ssy is like kissing. If a p\*ssy licks you back, you should run***

See....I told you, FILTHY! And PERFECT, and AMAZING!! The one liner quips in this book, was my ultimate undoing. They had me rolling around in stitches. Literally, (I read most of it waiting for Grandma to get out of the doctor's office, and people were staring at me while I laughed). But not only was it erotic, it was also, beautifully written, with an amazing story to back it up. Nate, even through his odd fetishes and insanely good way of incorporating the alphabet, was a man with feelings and a heart. And Robyn, God love a girl who gives good head! I'm not going to say anymore about it though, spoilers aren't my thing.

Traditionally, in this part of the review I would do a little synopsis that matched the blurb, but I don't want to. I want **YOU** to read it. I want anyone who thinks they know good Erotica, to read this and then come back to this review. Perv was perfect. Nate was perfect. Robyn was perfect. And the actual sex? F\*@K ME SIDEWAYS, it was hot. I realize I'm starting to ramble, and if you've made it this far into my review, I will firstly applaud you, and then I'll slap you for taking the extra time to read MY words and not read the book itself. Go..... go now.... Go buy it.... I'm waiting. Have you left yet? Good.....

I couldn't put it down, and there's a VERY high probability that I will read it again, and quite soon. Watch out for Dakota Gray people.... She's going to take the world by storm. I CANNOT wait for another book from her to emerge, and you can bet Nate's cunninglingus abilities, that I will be first in line to "snatch" that book up, because I am now a die hard Dakota fan. She's in my top 5 right next to Pepper Winters and JK Rowling, and for me, that's saying something (I mean I have a Dark Mark Tattoo for a reason people).

Just take my advice and one-click this book..... You won't regret it!

\*ARC provided by Author in exchange for an honest review.

**Mandi Schreiner says**

Favorite Quote: "Is there anything you need to warn me about?"

I draw my mouth down her cheek then whisper in her ear, "I'm a pervert."

This came as a Twitter recommendation (which really are the best kind) from Bree and several others. I started seeing tweets about a hero obsessed with giving oral and thought - well let me just see what this guy is all about.

Warning: Dirty quotes are coming - Nate is verra naughty.

Nate is an interesting romance hero. He is very full of himself - arrogant, obnoxious to an extent. He is charming yet a total bastard. The kind of romance hero who would be a total dick in real life but endearing in a book because you hope he is redeemed by the end (and he is). And what makes it even better is that the heroine strolls in and will have none of his games. But before we get to her - Nate is a god at giving oral sex - and he knows it. It's his obsession. As he says:

*Pussy is my cake.*

(I warned you)

It's all he thinks about and it's all he wants to do.

*Attraction is that simple for me. Would I like her to sit on my face? Yes. Proceed. No? Pass. I am nothing if not a simple man.*

So he gives women the most amazing sex of their life, and yet has a fear of commitment. He is honest about it and tries not to lead them on. But he has walked away and left more than one woman upset.

*"You torture women, you know that, right?" The huskiness in her voice is the best friction.*

*"Torture?" I ask.*

*"Mind blowing head. And then they have to somehow live the rest of their lives cold turkey or with second best. That makes you an asshole."*

Robyn is our heroine. She is a paralegal with self-confidence and charm. Her best friend in the world felt hurt by Nate and Robyn has made it her mission to get revenge. She seeks Nate out at a club, and comes on to him. She knows he is hooked, but then she refuses him. She teases him. She wants to make him hurt like he hurt her friend. He can't even remember her friend's name (he doesn't remember many of the women he has been with) In the end, she gives him ten minutes of herself...and then she walks away. Nate wants more of her - and it's all he can think about it.

Robyn has been depressed for some time now and is ready to go out and live life. With the urging of her friend Samantha, she decides to give in and have some fun with Nate. But what starts as a teasing game between the two, leads to a much deeper connection.

I loved Robyn because she can give it to Nate just as good as he deals it out. She can tease him, maybe even better than he can tease her back, and she knows it blows his mind.

*But we're back to our power playing game so I take a long sip before I give her the cup. I don't know what it is exactly, even knowing the name, but it taste like sweet grass.*

*She's so not normal.*

*"Where do you plan to fuck me today?" She takes the cup and puts her mouth right where I had mine.*

*My cock is in love with her. I have no doubt of this.*

She is ready for anything he throws her way. She isn't afraid to be kinky, or to show Nate her real self. She felt very genuine.

Nate IS an asshole, but he is an honest one. And while he doesn't remember the names of the women he is with, and may drop them not always in the nicest fashion, he also to an extent, respects women. He never tries to change a woman, even more so, he loves to see a woman walk away from him with a confident step. He likes to make women feel good about themselves - and I liked that a lot.

And on top of all the games, and teasing, and freaking out over true feelings and commitment, we get naughty sexin'

*I give her my fingers next, add them to the pleasure. This is where you separate the boys from men. I'm not trying to stab her or play tease and touch with her cervix. Who wants to be nicknamed Jack the Pussy-Ripper? And I know my fingers will never be my cock, but I can create that full and fucked sensation.*

The next book coming out in November is called, Filth, but it's just a retelling of this story in Robyn's point of view. I did hear though that Nate's friends may get books and this excites me.
