**A Mutt in Disguise** Doris O'Connor

Love knows no boundaries—or does it?

When Anja is abandoned by her nightmare of a so-called boyfriend, she relies on Mutt to escort her safely home from the homeless shelter she volunteers at. Her canine friend proves to be an excellent listener. If only she could keep the wolf-like dog, but confining him to be a mere pet would be downright cruel.

When she wakes up on her own, after a night full of erotic dreams, Anja doubts her sanity. Dogs don't change into sexy hunks...

Ethan knows he should keep his distance, especially after the night they shared. Humans can't be trusted, but Anja smashes through all of his emotional defenses, and his wolf scents his mate.

However, Ethan is in disguise for a reason, and he needs to see this through. Will Anja accept the man he truly is, as easily as she did Mutt?

## **From Reader Review A Mutt in Disguise for online ebook**

### **Debbie says**

**Wow!!!**

What a great book!! I just absolutely loved it and I can't wait to read the next book to come out!! A definite must read!!! Happy Reading!!! :)

---

### **Christy deSade says**

#### **Sexual Assault Is Ok?**

We have a verbally abusive boyfriend, sexual assault by a stranger and a lover who lies repeatedly.....really?!? Don't waste your time, or support this kind of story.

---

### **Jessica Gomez says**

I enjoyed the story. The female lead was a good person. But she needed to get a backbone and some common sense. I was enthralled with the male lead. Had me drooling and fanning myself. Wow. The scene in the shower. Had me running to the kitchen to get some cold water.

---

### **Karen says**

Very short, cute, steamy, dream

---

### **Lucy Felthouse says**

I grabbed A Mutt in Disguise as a free read from Amazon. It's free at the time of me writing this review, but please do check before you click, in case Amazon has changed anything. Anyway, freebie or not, this is great read from Doris O'Connor. It tells the story of Anja, a woman who has befriended a huge, wolf-like dog. He makes her feel safe, particularly when accompanying her home from the homeless shelter she volunteers at. She'd love to keep him as a pet, but feels it would be cruel. Besides, he seems perfectly happy with his current predicament. After a while, though, it becomes apparent that Mutt, as she has named the wolf-dog, is not quite everything he seems.

I don't want to say much more and give the game away, but this is a great little book that manages to be intriguing, sweet and sexy all at once. If you enjoy short paranormal tales, I'd definitely recommend grabbing this one.

---

**Lauriann says****Awesome story**

I love this story you loved the characters the woman is strong and oh her mutt turns out to be a wonderful sexy man who's her mate

---

**Tammy Ambrose says**

A good, short shifter story. I enjoyed it.

---

**Exquisite Reviews says**

This was a cute short story just in time for the holidays.... Make sure you read it and I hope it gets you into a giving mood in more ways than one...

I enjoyed Anja and Ethan's story because it reminds me of the charity work we do every year... I wish more of us would volunteer and help those that can't help themselves.

Charity doesn't have to be about money sometimes a smile or a kind word can make someone else happy or hopeful...

This story brought you the feel good experience you expect with a holiday story in a quick read.

I give this book 4 diamonds and hope that everyone that reads this book gets into the holiday spirit...

---

**Brownsugar says**

Cute short story. I like the reason the hero uses his wolf.

---

**Elizabeth Morgan says**

A heart warming story for Christmas that shows love can be found in the most unlikely places.

I love stories about shifters and I found this novella to be a refreshing approach to the species. Down to earth, kind hearted Anja was an extremely likeable and realistic heroine, and Mutt/Ethan well, as both a wolf/dog and a man I would definitely take him home. Protective, caring, humorous, cynical and sexy - and yes I mean that as a man lol What's not to love?

Told at the right pace with a good amount of humour and hotness, A Mutt in Disguise is a fab read to snuggle up with.

### **Kylie miller says**

#### **One of my favorites**

I love most shifter books and especially werewolf ones (lol) so when I saw this I just knew I needed to read it. I was definitely not disappointed!

---

### **Nicole says**

Anja volunteer at a local homeless shelter and on her way to dinner one night with her boyfriend she has to stop to deliver something for the residents.

Her boyfriend being the snob that he is shows his true colors when he attacks the dog, Mutt, who has been hanging around the shelter.

After the brutal end to the relationship Anja seeks Mutts company home that night. She decides to let him stay the night and in bed that she tells the dog all her secrets, desires, and fears.

Mutt isn't what he seems. He is really Ethan, and he's drawn to Anja. But he has secrets of his own, he just doesn't know how to let her know what they are.

When it comes time to tell her his secrets and the truth about who he is will Anja run away or will this Christmas being extra special.

I loved this story. So heartwarming. I am only left with one (ok two) questions. Doris, does she ever get her purse back and does/will the ex lose his shit when he realizes who she really loves.

### **Colleen says**

#### **Enjoyed**

Sweet quick little romance! Very well written and extremely hot! Enjoyed the British verbiage too. Different take on the typical shifter.

---

### **Jan says**

This story is short but sweet. Anya has a big heart. She has been working with a homeless shelter and wants nothing more to make people aware and get donations to help keep it open. Then she finds Mutt. He is a

scruffy thing but so devoted to her. When her boyfriend berates her, Mutt is not happy. But Anya doesn't know that Mutt is not a dog but a wolf shifter named Ethan. Ethan has been following Anya but doesn't really know why till he gets closer. She is his mate.

This was such a sweet story. It is set around the Christmas season and Anya with her big heart wanting to help others brings in a warm feeling. Ethan doesn't trust in love but what he feels for Anya can't be ignored. Plus, what woman wouldn't want a sexy man to sweep her off her feet.

---

## **Tina says**

A Mutt in Disguise by author Doris O'Connor is a sweet story. I love stories that make me believe in true love and romance. This story does that in spades.

Anja is not a fan of the holiday time. She is determined though with Christmas coming in one week to make her pet project mean something. She wants to make a difference in the homeless people's lives and she spends all her time and money to achieve this goal. Unfortunately she is dating someone who does not support her ideas. She is dating a rich man to please her family. She cannot let her project go. She might have to put romance on the back burner for now.

She has a kindness, and a pure heart that draws everyone to her. Even a stray dog she affectionately names Mutt.

Mutt or Ethan he is a wolf shifter. He is tired of women only wanting him for his money. So he is looking for Ms. Right, but not thinking he will find her. That is until Anja finds him and makes him feel things he never had before.

Strong Alpha, with a good heart searching for love.

Together they learn to be what the other needs. I loved this story, such pure romance. When you want a holiday story that makes you believe in true love this is the one to pick up.

Five Shooting Stars
