## Hana Eka says

Bingung sama plotnya

---

## Ingrid says

The story is pretty odd.

---

## S.Q. Eries says

In Summary

Katagiri-sensei provides some much-needed information about the past in this volume. No, not Alice's past; his still remains largely shrouded in mystery. However, these chapters provide back story and a better understanding of the inhabitants of Wonderland while raising some tantalizing new questions about the disaster looming over them.

The Review

This volume provides quite a bit of back story, which is handy given the baggage the characters are carrying. Several flashbacks provide insight into the past and motivations of the White Rabbit, the 88th Alice, and, surprisingly, the Queen of Hearts. I'd pinned the Queen of Hearts as a flat stock character. As it turns out, he's got more depth than I gave him credit for, with secrets and threats to his existence, too.

Another surprise is how the Duchess figures into the flashbacks. Although she has been removed from the story and replaced, her presence dominates in the volume's first half. Katagiri-sensei had mentioned her fondness for this character in the previous volume, and it feels like she sets up the encounter between the Queen and the Duchess' kiddie pals to have an excuse to draw the Duchess again. But though the Duchess' friends are adorable-looking ragamuffins doesn't mean they have it easy. In fact, Wonderland seems harshest on its cutest, youngest inhabitants, and they don't fare much better than the Duchess did.

After all the flashbacks, the story moves forward in earnest with the introduction of Katagiri-sensei's take on another Wonderland personality: the Caterpillar. She's no disgusting bug. Far from it, she is a sexy, flirty hottie. However, she no less bewildering than the rest of the cast and saddles Alice with yet another bizarre task to accomplish in order to become Wonderland's Alice.

Manga extras include a twelve-page short, translation notes, and the title page and table of contents printed in color.

### **Kyrra says**

Im enjoying how the story is twisting and turning the more you read it. This manga kind of reminds me of Alice in the country of hearts by QuinnRose and her take on Alice in wonderland.

---

### **Vikki says**

This rendition is a little confusing at times, but all in all I like the way the original characters were skewed.

---

### **Mal says**

It's nice that I can actually sort of understand what's going on. So yay XD

---

### **MadameMelli says**

Etwas konfuser als die Bände davor, ich hoffe auf Antworten^^ Wobei, ich les eine Alice-Geschichte, das kann dauern oder nie passieren XD

---

### **Nic says**

Pretty art, but the story is dark as well as confusing. My full review is up on No Flying No Tights.

---

### **Aleece says**

Alice tries to pledge allegiance to the Queen of Hearts but something happens that begins to twist the story even more than before. The Queen of Hearts is revealed to hate the color red. So now even more questions are posed while none seem to be answered.

I love the art more and more which each volume and the suspense of not knowing what is really going on really draws me back to each volume because with each volume I expect to learn more but I am actually learning less and wondering more and more.

---

### **Kathi says**

I'm still slightly confused by the jumps in the storytelling but still I always enjoy reading more about alice and the others

---

**Manue says**

what a strange story. Crazier than the real one!!!! Wondering what'll happen next...

---

**Kayla Perry says**

I feel like whatever plot the manga had just got derailed by the author's exposition and is mired in mystery goop where nothing makes any sense. Though the art remains beautiful and I kind of want to cosplay the White Rabbit, I think my time reading it may soon come to a premature end.

---

**Riina Y.T. says**

What did I just read? \*laughs\*

Alice -- I am with you.  
Still, loved it.

---

**Catwithbooks says**

Um Zutritt in die Raupenallee zu bekommen soll Alice seine Treue an die Herzkönigin schwören und begleitet sie. Dabei wird er vor einer schwierigen Aufgabe gestellt, denn die Königin hat vor 3 Kinder zu töten, die die Regeln gebrochen haben. Kann Alice dies zulassen?

Leider konnte Band 3 mich nicht überzeugen. Ich hatte schon Probleme mit den anderen gehabt. Irgendwie ist mir alles zu konfus und unstrukturiert. An sich sehr noch alles Geheimnisvoll, aber nicht so das es mich reizt die Geschichte weiter zu verfolgen. Schade. Da ich mir hier mehr erhofft habe. Hier und da wird zwar immer eine Kleinigkeit gelüftet aber gefühlt kommen 10 neue Sachen hinzu. Die Zeichnungen gefallen mir und jede Figur scheint wohl ihre eigene tragische Geschichte zu haben aber so ganz komme ich irgendwie nicht in die Geschichte rein.

Daher sage ich nu Bye-Bye Alice und hoffe findest andere treue Leser.

**R says**

VERY confusing volume. I was able to follow near the beginning and then just ended up totally lost. I hope

the next volume sheds some light on what happened!!
