Fated

Karen Lynch

Fated Karen Lynch

Christian Kent has many labels – warrior, protector, friend, lover – but the one label he never wanted was mate. In his lifetime, the only girl he has ever loved, was the one he couldn't have. He left her to protect her heart, but his own will always belong to her.

As a girl, the one person she believed would never hurt her broke her heart. Now a warrior, she's loving life and living for the next adventure. She's put the past behind her, including the man who walked out of her life.

Fate brought them together once, and it's not done with them yet. When they are suddenly thrown together to battle a lethal new foe, sparks fly and old feelings resurface. Chris will have to work hard to heal the rift between them. But will she be able to let go of the old heartbreak and open her heart to him again? Can they come together before the threat they are facing tears them apart forever?

thevintagechronicles says

not my favorite in the series, sadly. Chris is sweet, and I'm happy he has found his mate. Beth is a worthy edition to the gang.

I predicted the big 'crescendo' the second it was introduced, so that was a big bummer, but it happens to me a lot.

the trauma that occurs felt a tiny bit skimmed over and the healing a bit to rushed to me to be credible.

my favorite thing about this book though was the bonus story, taking us back, once more to some old favorites, Nicholas and Sara. yay!

it's good, and defiantly worth a read, but now I'm craving a return to the beginning...

B.A. Wilson says

I never expected Christian's series to be so sweet and emotional, but it's also full of fierce warriors and crazy demon escapades, which keeps the story hopping along.

This series is fantastic. I hope it never ends.

Jemimah Zafoune says

Karen Lynch has created another masterpiece which has drawn me in to the world she's created. I've been enchanted from the very first book she wrote in this series and Fated is no different. The characters and the stories and the world that this author has built is just so amazing and realistic that I've really felt I'm right there alongside the characters experiencing everything they do. I've fallen in love over and over again with each book she's released.

Fated was just amazing and I loved reading Chris's story and the dynamics of all his relationships with past characters we know and new characters we don't, from his POV. I also loved meeting Chris's mate (and no I'm not going to spoil anything by telling you their name!). Like all of Karen Lynch's main characters, they're strong, independent and kick ass. This person was the right mate for Chris and vice versa.

I really loved reading Fated, this is another Karen Lynch book that is being added to my yearly re read pile (along with all her other books too). I was so excited to read this book and am still excited after finishing it. I loved every minute of it and am glad we got to read Chris's story. A fantastic read that gets five stars from

me (and trust me if I could give it any number of more stars then I would) I loved it!

Meredith R. says

Talk about a book hangover!

Goodness I don't even know where to start.... I love the relentless series You could say i'm slightly obsessed just borderline unhealthy obsessed...each book gets better and better and sucks you right in. Karen is a true master of her craft... I want to go to every place described in her stories and interact with all the people. She out did herself yet again. Fated was just out standing... I've waited for Chris's story since we were charmed by his dimples in relentless. I had no idea what to expect with his book but it was everything I could hope for and more. Not only is the gang back together and we get to see almost everyone we love interact again .we get to meet and fall in love with new characters who fit into this series seamlessly. we also get to see inside Chris's mind and his Mori. My goodness did that boy make me swoon. Give me an alpha warrior any day! The threat in this book was so new and original as soon as I thought I knew what to expect I'd turn the page and be thrown with how unpredictable it was. That's very refreshing when you're 6 books into a series. I was kept on the edge of my seat the entire read. This book is added to my permanent read again and again file. Just like always I am so excited for the next book.

Muse-ic ? says

3.5

I can't say I enjoyed this as much as the others. It was still delicious and fun, but it was a bit lacking. I think it's because we spent three books developing Sarah and Nikolas' relationship and we only had one book for Chris.

I wish we could have gotten more development, and perhaps a longer book. Also, I feel like the conflict was just a repeat of what happened in book 3.

Despite all this, I *really* want a book for Jordan!!!!!!!!!! And Desmund!!!!!!!!!!!!!!!!!!!!!!

Lu?ka says

Sometimes you read a book and love its side characters so much you wish they'd have their own book. And sometimes when that finally happens you wish it didn't. This is one of those times. I'm a huge fan of this series, but sadly this one didn't work out for me as I hoped.

I loved Chris in previous books, he had so much personality but here he was just a shadow of his former self. The chemistry between him and Beth - the heroine, was nonexistent in my opinion.

Beth, Beth, Beth. "shakes head" She had 4 scenes were she was a badass, but unfortunately all her feeling sorry for herself and being insecure for most of the book made her unconnectable.

Again the story lacked the suspense, mystery and action from the previous books. You immediately guess who the culprit is.

Safety: (view spoiler)

Will I read the next book? Most definitely. I find my highlights in seeing the 1st MCs, I enjoy the writing style and I look forward to read Jordan's book. I hope it will be more badass than this one.

Jessica says

Bored out of my mind...Might try to get back to this one at some point but at the moment I just can't be bothered.

Anniika says

Huh.

I guess it's the books you're most excited about that have the power to disappoint you the most. I mean, I ended up rating this one 3 stars. 3 stars isn't bad at all. And still I'm feeling oddly sad right now.

There wasn't one big salient issue that ruined the book for me. It was more of an accumulation of little things that didn't fully satisfy me.

Take the female lead, Beth. Beth in warrior mode was amazing. Insecure, lovestruck Beth, however, not so much. All her melodramatic antics regarding Chris and how he'd hurt her in the past, how she could never trust him again, yada, yada, yada, kept grating on my nerves instead of making me sympathize with her. Then there was the plot which, while intriguing, was totally predictable. I was sure of the culprit's identity early on, which was rather disappointing considering how flabbergasted I felt when Lynch revealed who the baddie was in her third book, *Rogue*.

Also, I didn't like how Lynch told quite a few key scenes in retrospect instead of letting the reader experience them by themselves.

Chris's reaction, or lack thereof, to finding out about his bond with Beth didn't feel realistic either,

considering how he'd avoided any sort of commitment in the past. And don't even get me started on the complete lack of chemistry between Chris and Beth. No butterflies on my part. None. I couldn't have cared less whether the two of them got together or not. Okay, maybe to see Chris happy, but other than that...

... Which takes me to the things I did like about this book:

1. Chris. He's perfect. I needn't say more.
2. Nikolas and Sara.
3. Jordan!
4. Mason, aka Beth's best friend and someone who definitely needs a book of his own.

... so it's basically the characters that totally saved this book for me.

Oh, and 5. the grand finale.

So despite its flaws, this book was still very enjoyable. I am still one of Karen Lynch's most devoted fangirls out there (which is kinda embarrassing considering I'm almost 32 years of age). And I will be anticipating anything else she may have in store for us just as excitedly as I did this one.

Jordyn says

Some brutal honesty here. I'm very disappointed in this book. I absolutely adored the first 5 books of this series! Like they took over my life because I loved them so much.

Since the original four were so amazing, I fully expected this book to be just as good. Not don't get me wrong, I love this series and this world, but this story almost felt like an easy way out. The fans had been demanding more stories from Lynch, and it almost feels like she just threw one together without putting in the same effort. Maybe this was due to deadlines, or a lack of material, I don't know. I'm just really underwhelmed. Also, I feel like the editing team really dropped the ball on this one, just after the halfway point, I was finding noticeable spelling errors through the book. Pretty frequently "Night" was "might", or the other way around, just as an example. Personally, I understand grammar mistakes, but I feel like spelling should always be correct.

In a sense, I feel as if we just got a mild, muted version of Sara and Nikolas's story over again. Yes, part of the story is Chris going through what Nikolas had gone through, but it just didn't hit home. Through out the first four books and especially in Warrior, we have Chris adamant that he wants nothing to do with a mate or the bond, but then he gets a mate and accepts it within one page. What happened to the brooding, loveable, lonely warrior?!

I don't want to post any spoilers because I do believe everyone should rush to read this series, but don't stress out too much about fitting Fated into your reading schedule. It can wait.

Ivusha (Tenebien) says

I wasn't as excited about this as I'd been about the original Relentless trilogy. It was focused mainly on the romance and less on the action and the whole thing felt just meh. 3 stars, because we met all my favorite characters. :-)

I have to say this was one of my most anticipated releases, because Relentless trilogy is my favorite, but sadly I felt like this book didn't deliver. I know, right? How is that possible? I love Dimples! But I could do without the angst (yeah, he hurt you, Beth, we get it) and the bad guy was soooo predictable... I'm quite sad I have to give this book 'only' 3 stars, but just can't give it more.

Nikki Jefford says

Early read for fun copy from my dear friend, Karen Lynch.

Fans of the series are going to love this exciting new installment!

Nonstop thrills, fun, and romance. Having the Relentless gang back together feels like reuniting with treasured family members—ones who know just how to tickle my funny bone. Team Mohiri has a kickass new addition . . . and Chris is about to get more than he bargained for. Not only is their love fated, it's smoking hot!

Kalli Bunch says

Haha I liked this book. I always did like her characters. Her men may be a little cavemanish when they find their mates, but her females are always strong, independent warriors. Even when they're traumatized, they stand up and make stuff happen. I like a story where the female is kicking butt.

Susan Wilson says

This is the weakest book in the whole series (which I love) in my opinion. The whole thing felt quite rushed when compared to Roland's story in the last book which I loved. I'd agree that the story was a bit predictable as soon as certain characters appeared. Beth annoyed me at times with how she reacted to certain situations but I suppose at least it elicited a reaction!

Overall even with the above I did enjoy it but it won't be one I read again like the other books.

The bonus scene I did enjoy and I hope Karen continues that story line!!
