Her Lion Twins Lily Pink

After going on bad date after bad date, curvy Amanda was in desperate need of some sort of excitement in her life.

A new dating site called “*Shifted Perspectives*” seemed to be one that would offer the NSA fun that Amanda desired.

And when she found herself the object of desire of hunky twin brothers Grayson and Gear, she felt she had found exactly what she was looking for.

So she agreed to meet both of them but she was completely unaware that they were both WereLions who were seeking a mate to share...

This is a paranormal menage romance with twists that will keep you guessing right to the end. Be prepared to be surprised and thrilled!

Cynthia says

I have to say first this is a new author for me and she left me first in laughter. Then as the plot went on with the different twist that I was kept wanting to read.

Just about the time you think it will end in a happily ever after she adds a new twist that just makes the story that much richer! Amazing story line but she does need an editor!

Jolene Dretzka says

Twin Shifter Lions?!

I'm gonna start by saying I don't normally read shifter books. I think it has to do with how over done they are since vampires and werewolves became so popular, but I'm starting to think I've been unfair. I've been trying to give unique shifter concepts a chance recently and I'm starting to realize, if done right and in a unique way, they can be quite fun and entertaining. So, when I saw a book about shifter lion twins, I thought, that sounds like it has potential. And I was rewarded for my daring. Any book I can read from start to finish deserves high marks. I could definitely read more about this small pride. So, now I move on to why I only gave it 4 instead of 5 stars. If I don't like a book, I just won't finish it, so, for me to make it to the end says that it was a good story. The only real problem I had was the way the story split in the middle abruptly and switched gears so fast it could have given me whiplash. Halfway through the story breaks, as if a second book with the same characters had begun. Still, I motored on and was rewarded with more good story. So, other than the fact the second half of the book could use another editing once over, for wrong words not writing, I would have to say I enjoyed the book thoroughly and could read it again. I hope to see more fun and unique stories like this from this author, I'd read them all.

Rebecca Warner says

Confused

It's a good story, so please don't hesitate to read it based on the rating. The problem I had was that a story ended and another began without much fan faire. The second part of the book was not proofed as much as the first part was and it introduced entirely new characters without any explanation or back story so you don't really know what is going on. I don't know whether I will read another book from this author or not.

Desiree says

1.5 stars

Kathy L. says

I really enjoyed reading this. It was like two books in one. Loved the ending. Super cute.

darlene. wilson says**More Love With Two**

I like reading the shifter romance stories. They are usually so attentive to their future mates. Twin mates for one woman makes for lots of sizzle. Well-written story.

Jennifer says

it was just weird. Not a whole lot of talking, but lots of inner dialogue. Then it jumped forward about six months and interesting story line started happening, but it was still weird.

Loretta says

other than a couple of cheesy moments, this turned into a great double plot story!

Maritza Knox says**Double the fun**

Exciting from the first chapter. The storyline pulls you in, full of drama, laughs, and hot, sexy guys. You are pulling for these characters from the start.

Ti says

Despite some oddnesses, there was enough to like about this story that it made it into the 4 star range. Nice premise and a bit more gritty than many romances.

Dani says

Wasted potential. Decent story line, had places to go, just really bad story telling. I'm left confused. All telling no showing. Character wise, there was no depth; well no real depth of character on any of the characters. I wanted to like them, I just never got to know them. If you are looking for a mediocre erotica

menage story. Buy it.

Shay says

DNF. Odd writing and confusing storyline. I had so many questions but then realized I didn't care enough to find out more.

Laura says

I don't know why Amanda hasn't met the man of her dreams yet. She is incredibly smart, funny and ridiculously tough...or so she'll tell you. This was one of the most self centered characters I've ever read and I only got through a couple of chapters.

Katrina Simpson says

Good read

The story catches you off guard by going from a menagerie to lion shifter to wanting to mate and continue the line but the story kinda unfolds seamlessly. but there are some surprising turns and happenings that leave you wondering. Overall a good read.

Rina White says

Found this on Amazon not too long ago, FREE.

I've had some hits and misses with freebies, more misses than hits (sadly).

I'm not a quitter, it's hard for me to DNF a book and I'm a huge indie supporter, so I keep trying them out while hoping for some awesomeness.

With that said, this here story needs some serious editing. It has potential to be a fun and sexy read. It just needs work. The errors truly take away from the story. There's a huge difference between "boots" and "books", isn't there?

I wish the author the very best and hope she's able to fix this up!
