I need this book as my reference in my reasearch paper.
Please help to download this one

Jackie Bolen says

A classic for those who teach ESL Speaking-the major weakness is lack of practical activities for the classroom. There are some, but more is better!

I read this once as I was madly writing a paper for my Cambridge DELTA course, and read it again this weekend as I anticipate redesigning my Speaking Skills courses this school year. Although it is not a seminal work on teaching speaking, it is an excellent overview of key concepts in the field, as well a great source for ideas to help teachers put these concepts into action. It is also compact, so even a busy teacher can use it, or even read it cover to cover, easily. Great job, Scott!

its very important

NoFe says

good

Elize says

Incredibly useful and clear. Would have liked a few more practice activities at the end though.
