## **Ignited** Suzannah Daniels

IGNITED is a new adult, contemporary romance intended for adult readers.

James “Hawk” Hawkins always knew he’d be a firefighter. At twenty-four years of age, he’s dedicated his entire adulthood to the perilous job of saving lives and extinguishing flames. After a chance encounter, he carries a young woman to safety, but it’s unlike any rescue he’s ever performed. She touches something deep inside of him, not because he finds her attractive, which he does, but because she doesn’t want to be saved. For the first time in his life, he doesn’t need to put out a fire...he needs to start one.

Twenty-year-old Amber Lawson escaped to the small town of Creekview, Tennessee. She was running...fleeing from a tragedy that left her heartbroken and shrouded in despair. Struggling with the desolation that has engulfed her, she tries to start anew, hoping that if she evades the reminders of her past, she can slowly begin to heal.

Hawk is determined to rekindle her passion for life. Along the way, he realizes that’s not the only passion he wants to ignite. With his heart on the line, it could be his most hazardous rescue yet.

Plus, a bonus scene from Mason and Lexi of WASTED.

IGNITED is the second book in the WHISKEY NIGHTS series. Since each book focuses on a different couple, they can be read as stand-alones, but many readers may prefer to read them in order for maximum enjoyment.

# From Reader Review Ignited for online ebook

## Jasmine says

**\*\*I was given a copy of this book in exchange for an honest review\*\***

Ignited is the second book in the Whiskey Nights series, and it tells the story of Hawk, a character introduced in Wasted, which is the first book in the series. Hawk is a firefighter, best friend to Mason and Cade, brother to Jace, and an all-around good guy.

The story starts with Hawk and Cade doing some target practicing. When a car accident happens nearby, both men respond to the scene and save the two girls in the car. But what one girl says to Hawk is something that begins to haunt him. It also haunts him and makes him want to know more about the girl.

Amber Lawson is a twenty year old woman who happens to be new in town. Amber has a past. It's not something she can deal with, which is why she's "run away" to Creekside. Her desire to leave her past behind puts her directly into Hawk's path. Can she let go of her past and learn to trust him?

I will say that I was very excited to read the second book in the series, and I was definitely not disappointed. Ignited is a quick read that elicits a variety of emotions from the reader while keeping them hooked until the very end. You've got friendship, romance, heartache, and happiness all rolled into one fantastic story.

Hawk is an easy-going guy you can't help but love. He's a great friend, caring, protective, honest, and what I would call a true Southern gentleman. He loves his family, his friends, and is always willing to help someone in need. He's easily one of the most likeable characters in the book.

Amber is a broken young woman. She's dealing with a lot of things from her past, and she just doesn't seem capable of dealing with them. Grief is definitely her strongest emotion when you first meet her in the book. Her character gets a teensy bit frustrating at times because you just want her to be able to heal and move on, and yet she seems adamant to keep everything bottled up inside. That's really the only problem I had with her. But I can also kind of relate to her, as well, in some small way.

Other characters from Wasted come into play on occasion in the story, and they're just as wonderful as they were in the first book. Especially Mason and Lexi. I rather adore them.

One of the other newer characters introduced is someone from Amber's past, and they are absolutely despicable. I can guarantee you will loathe them immediately, and that opinion will not change whatsoever. In fact, they sort of reminded me of someone I spent nine years dealing with, although this character is a little bit more horrible, just in a different way.

Plot-wise, I felt the book moved along at a nice pace. It was easy to read and quick to get through, although it sort of left you wanting more. It truly is a good read, and I couldn't really find anything I disliked about any of the story. Maybe a little bit of the romance was somewhat rushed, but I don't think it really detracted any from the plot/overall story. I really did enjoy it.

If you haven't yet read Wasted, I'd advise you to do so at once. Then you can read Ignited and discover just how amazing this series is. I highly recommend both books, and overall, I'd give Ignited 4 stars.

My Review: ★★★★★

Imagine you are engaged to a nice guy but his mother doesn't like you. He's in a car accident, you're told he's dead, and don't come to the funeral; Mama doesn't want you there. But she wants you to return your engagement ring because it's a family heirloom. It's the only thing you have of him. Everyone is telling you that you need to get over it and get on with your life. This is what Amber had in her head when she and Seren were in an accident.

Hawk and Cade were the first responders. The two guys are firefighters in town and were close by when it happened. Hawk can't figure out why Amber would say she didn't want to be saved while he was pulling her out of the wreck.

Hawk tries to help Amber as a friend, but she's not very open to him. But each time she needs something, he's there for her with his helping hand and shoulder to lean on. And he's, of course, one hot-looking fireman. Romance writers don't write about ugly men very often. So, Amber finds herself being drawn to him and having to fight herself to keep her distance. But you know how well women keep their distance from hot men in romances. So, Amber decides to take him home to her Mom's for Thanksgiving dinner. As a guest, not a menu item. But there's a surprise guest at dinner this Thanksgiving and there may not be room at the table for everyone.

This was a good book, but it was a bit depressing to me when Amber would get down and start going on about having to be alone. She wouldn't take the help that was right there with no strings attached, and it was frustrating to see happen over and over.

It was quite well written. The characters weren't just run-of-the-mill, they were individuals. Yet, somehow it was all just a bit off for me. Then you had a major jolt near the end and weren't sure where you were going.

So, romance readers, I recommend this book to you to see how you like it and if you find the same things I did. Perhaps you will understand Amber's need to stay away from people. And perhaps you will like the turnabout towards the end. Maybe you will see it as a challenge or a test. If you read it or have read it, do let me know what your thoughts are.

## **Lydia says**

I don't give many 5 stars but this book was really good and I loved the story line that went along with it

---

## **Katrina Taylor says**

I got shocked when I found out her fiancée was still alive. It was a twist to the story. I'm glad she chose to marry James though.

---

## **Gale Albright says**

### **Wonderful Story**

This story was so good that I hated for it to end. Hawk is a true book boyfriend and the kind of man we all want. I hope we hear more about this couple in future books.

---

## **Pam says**

Finally done. This book was so boring. It only took two days, but it felt like I was reading for a week. I actually liked both Hawk and Amber, but they're story was so boring. It was a fight for me to finish. I only finished because I really liked most of the characters. The most exciting part for me was when Hawk took off to New York to get his girl. I had already figured out that Amber's fiancé was not dead, she did not marry and was back in Clearview. The writing style was very predictable and did not do these characters justice. Hawk was already a hero being a firefighter and Amber had been dealt a terrible blow by both her parents and her fiancé's parents. I just felt that she left home to grow and overcome her heartache. I just wished she actually developed a backbone to go with her courage. I did enjoy all the characters of Clearview in this story. Unfortunately, this was just a boring story about a guy and a girl. I am in the minority, so please read for yourself.

---

## **Helena Rizzuto says**

This is an intense and sizzling book. But its an emotionally gutting book that will have you captivated.

We begin with these two meeting in the MOST devastating of situations. One that the reader isn't likely going to forget. It will leave an impact on your heart and mind.. Hawk is the epitome of good boy hero. Hes a fireman. What girl wouldn't love a fireman. But hes got depth and I enjoy that the author didn't make him out to be an ass. I loved his inane sense of wanting to help. Amber doesn't want to keep going. Shes got a life that doesnt seem to be working on her side when it comes to happiness. Hawk is the perfect hero to bring her out of her shell and he does his hardest to make sure Amber can see shes worthy of it all. The storyline is intense but it works good with these two. Ive said it before but ill say it again, Miss Daniels is a master at creating characters who shouldnt work well together but they do.

Review on behalf of Back Off My Book Boyfriend

## **Sarah says**

### **On fire!**

This is the first book in a very long time that had my chest tightening and my eyes watering as I read to find out what happened! I love the writing intertwined with the Fire terminology... very effective because he is relating things to his life. I probably will look at rainbows, skittles and one differently from now on!

---

## **Lisa says**

One hunky fireman with the biggest heart meets one troubled girl in desperate of someone to care for and take notice of her.

Starting off with a bang, Hawk is thrust into Amber's life when he rescues her from a car accident. What he sees within Amber is such sadness that it seeps into your very being. His caring nature and big heart will not allow him to ignore this cry for help.

Amber has moved to Creekview to escape and hide out from her past and her present. A past that has left her feeling deeply sad and feeling very much alone, with no hope. When Hawk enters her life, he brings with him hope. Hope for a future and hope to begin living again. Under Hawk's tender care, she slowly gains her self-confidence back and discovers her own self-worth again.

Hawk has to be one of the most sensitive book boyfriends ever, knowing exactly what to say and do at exactly the right time. He has a heart with a great capacity to love and care, frequently putting others needs before his own. His romantic nature does not need much coaxing to come out and boy is he romantic. He is just what Amber needs but equally he has his own sadness that he needs to come to terms with.

Amber's sadness comes from deep inside and you cannot help but feel this with her. The emotional roller coaster she has been on has left her drained but with the support and care she gets from Hawk, we see her beyond the sadness to the strong and determined woman she actually is.

One person can make a difference and everyone of us is important. But no matter how hard you try and escape from your past it will eventually catch up with you. Can Amber and Hawk survive her past?

I loved this incredibly beautiful, romantic read, with its amazing contrasting characters that captured my heart and won't let go. It is emotional; filled with sadness but equally hope and happiness and is heart warming. The twists and turns along the way kept me captivated until the very last word and beyond.

## **Liz ~ Liz's Reading Life says**

When you think of firefighters, the image that comes to mind is someone that is always willing to lend a helping hand, save some in need, kind, generous, and sexy. James "Hawk" Hawkins fits this to a tee and then some. He is always one running in the save the day and not just from burning buildings. But then again, he comes from a family that has an unquestionable urge to help anyone in need.

So after saving a rather attractive young woman after a car accident, her words take him by surprise. He wants to help her by being a friend and someone she can talk to. Something is obvious bothering her and since she's new to town, he's inner need to assist grows.

Amber Lawson just moved into town looking for a place to come to terms with a recent, life changing, event in her life. She's kept a low profile and hasn't made friends. Her parents could understand her inner struggles, so being somewhere she doesn't know anyone is what she thinks she needs.

The more Hawk pushes his way into Amber's life, the more she starts to see the light at the end of the tunnel, a rainbow after rain.

And the more Hawk get to know about Amber, the more he wants to know. He's never been taken with any women the way he is with her.

But just as they are beginning to start a relationship, a blast from the past will threaten everything.

Are they strong enough to stay together, or are they over before they've even begun?

I really enjoyed getting to know Hawk. I love his heart and how when he's in, he's all in. He'll fight for you even when you don't think you can fight for yourself. And what's not to love about a sexy firefighter?

Amber's been through the wringer in her twenty years. I love her determination to get away from her family and friends, even though running may not be the wisest decision. But I can understand how when you're in a bad place that thinking of yourself and removing yourself from a hurtful situation can be the only thing you can think of. I felt for her and loved that instead of pushing Hawk away, she let him help her.

Amber's stronger than she thought she was and that's all thanks to Hawk. He proves to her that she can handle anything as long as she believes in herself.

The book ignites a fire within it's pages and leaves the reader smoldering with it's passion and heart.

## **2 Hawk Stars**

After reading and really enjoying book one of the Whiskey Nights series I was thrilled Hawk would be getting his own story. Unfortunately, for me, the plot and heroine fell a little flat.

Hawk caught my attention in *Wasted* during scenes at the bar. From his interactions I knew immediately he was a man that would make a good hero, a good savior. Being a firefighter, Hawk feels the need to save and protect. This came through beautifully in his character. And while I thought a love connection was going to made with the comical Haley, I understand the author's choice of choosing someone like Amber to catch Hawk's eye. Understanding doesn't mean I agree necessarily, because I was hoping for someone to be Hawk's equal.

Amber was in need of saving. Her story saddens the reader enough to feel for her but there were times it felt like too much wallowing and not enough reasons why. I never felt a connection with her character, I never felt as though she became Hawk's equal. She was always just someone in need of saving and she filled the role of damsel.

*Ignited* turned out to be a completely different book than what I was expecting. Where *Wasted* was laced with humor and witty dialogue I felt this book lacked in that very much. The dialogue didn't feel as clean to me but instead clunky in places. I found myself skimming through parts rather being immersed in the words. I still find Mason and Lexi to be great characters, I'll keep a soft spot for Hawk in my heart, and still look forward to reading the story of confident, sassy Seren in the next book of the series.

---

### **Jo-Anne says**

Seren and Amber didn't know how lucky they were to have crashed right where 2 firefighters were target practicing on their day off. The men were able to get the women out of the car before it was engulfed in flames.

Hawk was a rescuer. He was compelled to help people so when Amber said: "And what if I didn't want to be saved?" Hawk was very worried about her. As the days went by, he kept checking on her and became her friend, wanting to be there for her since she was clearly troubled. Amber had had a devastating blow, left home without a word and moved to a small town where she wasn't known. But Hawk wouldn't leave her alone. Amber didn't make it easy for him but Hawk eventually gained her trust so that he was able to convince her of her own self-worth. She finally felt that her life was worth living again.

I loved sexy firefighter, Hawk. He always wanted to help out anywhere he could. With his good heart, he often put others before himself. The more time he spent with Amber, the more his feeling for her grew. He was so good to her and so romantic that she fell for him, too.

I enjoyed this book with the couple meeting in such an unusual way. The well-written plot was captivating. And the ending was a complete surprise! I didn't feel the connection between Hawk and Amber for quite some time. Since Amber didn't even care if she lived, finding love was pretty low on her 'to do' list.

### **Victoria says**

It is a great book to read

---

### **Kendall {Book Crazy} says**

#### **4.5 stars!**

I loved the first book in this series, and even though I knew that this book was going to be about a secondary character in the first book, this made me even more excited to read it! I couldn't wait to read his story! I then got even more excited after I read the synopsis and saw the cover! I mean, the cover is seriously hot and the synopsis sounded amazing! This book was fantastic! I loved every minute of reading it, and I read it in a few

sittings! It was brilliant! The plot was amazing! It was actually more suspenseful than I was expecting it to be, which I loved! I do wish a bit more had happened in it though because there were times where it stayed on the same level! The plot also had plenty of romance in it and I thoroughly enjoyed it! There were some sexy scenes too! The plot also started off with a bang and then kept a steady pace until a certain point and then there was another bang! I don't actually want to talk about what happened in the plot that much in case I say a spoiler or something because the plot had quite a big twist in it lol! I really enjoyed it though! The characters were amazing! James "Hawk" was the main male character and he was just the sweetest guy! He was super hot too and I loved him! He also really intrigued me when he made appearances in the first book, so I was excited to read his story and get inside his head! Hawk was such a down to earth guy and so easy for me to connect with too! He also had this good nature about him and he always tried to do the right thing, even if it meant him giving up something he really wanted! I could see that Hawk would do anything to protect his love interest as well, and he would become more protective and fierce whilst doing so! I just absolutely loved Hawk! He got better and better as the book progressed and he really impressed me! Amber was the main female character, and she was someone who was running from her troubles! I could completely understand why she did because she was running from people who belittled her and made her feel worthless! I loved Amber though! I felt that she came a long way in this book and that she learned a lot about herself and life from Hawk! He taught her to love herself and that everyone deserves a second chance at love, even if you had been through what Amber had! Amber also really surprised me in this book with how she handled situations, but it was a nice surprise! I was expecting her to react differently, so I was really happy when she handled situations the way she did! This made me like her even more! I loved that this book was written from both Hawk and Amber's point of views! It made this book even better and it helped me connect even more with both characters! I also loved that there was a bonus scene between the two main characters, Mason and Lexi, from the first book at the end of this book too! I can't wait to read the next book in this series! I know that it's going to be another character's book, but this has made me more excited to read it! I'll definitely be anticipating its release! The cover for this book is seriously hot! I love it and I also love how well it suits the cover for the first book too! Big thank you to Suzannah for a copy of Ignited!

---

## **Jean says**

### **Boring**

This was a sweet book but rather boring for my taste. It really did not have much action in it and I found myself skipping chapters.

---
