## **From Reader Review Bob's Burgers: Medium Rare for online ebook**

### **Deanna says**

My daughter and I LOVE Bob's Burgers and I was excited to see this available for review. This is my first comic book review!

I am usually not a big fan of cartoons. Bob's Burgers is another story. The characters are so original and funny. These characters....they get me! I really feel like I know people that are so similar to some of them. As someone who isn't into a lot of comics or cartoons etc. I was honestly shocked at how much I enjoy the show. Fart jokes, butt jokes, terribly funny puns and so much more. Just silliness at it's finest.

I enjoyed all of the stories. "Burger of the day ideas" and "Tina's Erotic Friend Fiction" are tied for my favorite but I liked them all. "Bizarre Bazaar" was also really funny. The humor was the same as it is on the show and I could easily see it made in an upcoming episode for the TV series.

The Belcher family is so entertaining and I enjoyed the fact that each story highlighted the individual character and their oh so wonderful characteristics.

Great stories with very colorful and fun illustrations. A must have for any Bob's Burgers fan! It was perfect for me for a bit of escapism after reading some very emotional books recently.

I don't normally use pictures in my reviews (because it takes me forever to figure it out). However I had to put one of my favorite pictures up.....Tina's collection of Erotic Fan Fiction.

Now you could take a pop on over to my friend's review of this book.

Kelly is also a big fan of Bob's Burgers and her review is hilarious.

Thank you to NetGalley for the opportunity to read this advanced copy in exchange for my honest review.

---

### **Quentin Wallace says**

I think Bob's Burgers is a very underrated show, but thankfully it does have a cult following and the show has really lasted longer than I think most thought it would. The comic doesn't quite catch the exact "flavor" Bob's Burgers (see what I did there?) but it is still entertaining. It differs from the Simpsons comic in that while the Simpsons comic tries to recreate the show on paper as close as possible, this comic tries to take the characters in different directions. The art in the Simpsons comics looks almost just like the cartoon animation, the art in this comic looks very different for the most part.

Overall, it's still an entertaining comic, especially if you love the show as I much as I do. So if you can't get enough Bob's Burgers, it's worth your while to check out the graphic novels.

---

### **brea says**

I received a copy of this graphic novel from Netgalley in exchange for an honest review.

^^ My general reaction to this graphic novel.

The writing in this graphic novel does not disappoint, and feels authentic to the show.

Tina is butt obessessed

Louise, maniacal

and Gene is still our lovable musician.

However, I felt like something, or rather, someone was missing...

I missed Bob and Linda's part of the graphic novel. Yeah they were in the kids' section, but I really missed Linda's boozy letters ♥

Overall, still fantastic, and fun for any Bob's Burgers lover!

**4 out of 5 stars**

---

### **Cat (cat-thecatlady) says**

so many movie references, aaaah! I love the pin-up art and the alternative covers, definitely my favourite part of these books. anyway, I enjoy them as much as I do the show

### **Kelly says**

#### **A collection of all-original comic book stories featuring the Belcher family from Bob's Burgers!**

So, I adore Bob's Burgers (the TV show) and I'm pretty much convinced that Louise is my spirit animal. Having the opportunity to read this made me very happy. As it is advertised as being "from the producers, writers & animators of the hit animated show Bob's Burgers" it is only natural to compare the book to the show, isn't it? And usually books tend to be better than the movies, don't they?  
Well, not in this case.

"The Belcher family hijinks are guaranteed to make you laugh!"

Normally, yes. Now? Nope. There were a few things I just couldn't get over. First of all the variety in art style in these stories. Some were just like the TV show, others were vastly different and mostly not very appealing to me. Secondly, the complete lack of humour and jokes. The stories weren't really boring, but they weren't as awesome as you would expect either.

There were some things I liked. Tina's butt obsession is omnipresent. There are some crossovers like Bob's Burgers & James Bond and Cinderella. But, my absolute favourite thing in the entire comic has to be the issue #4 variant cover by Frank Forte. I must have it as a poster on my wall.

Overall, though, it was a bit disappointing. Entertaining enough to escape the real world for a bit, and still very much recommended to every Bob's Burgers fan. Just know what to expect.

*I received this book for free through NetGalley in exchange for an honest review.*

### **Morgan says**

*I received this book from Netgalley in exchange for an honest review. This does not affect my opinion of the book or the content of my review.*

My copy had 122 pages, but this is the only edition I can find here on Goodreads so far.

Super fun read for fans of the series. It's short little snippets of different things, so not really for people who aren't familiar with the show at all.

---

### **Katbyrdie says**

Ya guys, it's fucking magical. There are so many brilliant moments. I found myself stay up to finish it, and ended up cackling REALLY loudly at like three in the morning, almost waking up my mom who was visiting. How rare is it to find a graphic novel that shocks you into giggle fits? The show is fucking hilarious, that's a given, but it translates perfectly into this volume. Not only are there SO MANY BUTTS, but all the sci-fi adventures a geek could ever hope for. Plus, I can't talk about this volume without freaking out over my love for the realistic drawings of the family. Holy shit. I want them posterized all over my house. FUCKING STUNNING.

### **Kelly (and the Book Boar) says**

Find all of my reviews at: <http://52bookminimum.blogspot.com/>

By this point hopefully you're all familiar with the Belcher family – specifically the children . . .

Luckily they are pretty good at storytelling. *Bob's Burgers: Medium Rare* features several tales by each of the kiddos.

Louise's stories are full of adventure . . .

(If you didn't know the correct answer to the above is "a butt" you might not be qualified to read this selection.)

and include a trip into a mysterious tunnel discovered in the restaurant's basement, to a Wonder Wharf ride that may just interrupt the time/space continuum, to the search for ingredients to make the perfect burger of the day . . .

Gene lets everyone in on his secret double-life, as well as retellings of a couple of classics like Genederella and a little story involving a trip through a crazy cat lady's closet . . .

There are even cameos by some superfan faves . . .

Which brings us to the most famous Belcher of all . . .

In case you don't know, I might have a bit of an unhealthy relationship with the eldest Belcher child . . .

Tina's erotic friend fictions include Tina utilizing a cloning machine that was invented for the science fair in order to make some back-up dancers for Jimmy Junior, Jungle Tina, Tina Bond and Tinablanca. Each of the above focus on the most important things in life . . .

Tina Belcher, you're my hero . . .

Even though my kids would say I'm more like Linda – because of . . .

## **REASONS.**

I do have to admit as a mother I really appreciated "Linda's Attempt to Take a Nice Family Picture in Front of the Restaurant (and How it Always Goes Wrong)."

The art remained true to the television program and the variant covers were **really** something to write home about . . .

Especially when they pretty much are example of what your own home **does** look like.

My friend Brea turned me on to this little beauty sitting on NetGalley as a “Read Now” selection. I’m not much for reading e-versions of comics, but Bob’s Burgers definitely deserved to be an exception to the rule.

*ARC provided by NetGalley in exchange for an honest review. Thank you, NetGalley!*

### **Marjolein says**

*Read all my reviews on <http://urlphantomhive.booklikes.com>*

At the moment of writing, all I know from Bob's Burgers is still coming from the few comics that I read. I know, I will watch the show some time when I have more time.

While featuring the same parts that were in the previous comics, the one page entries were not in every issue this time. And that despite the fact that I liked these best. They also switched the idea a little from Bob's burger ideas to foodtrucks and Linda trying to take a nice family picture. "Louise's Unsolved Mysteries & Curious Curiosities," "Tina's Erotic Friend Fiction," and "Gene's Rhymey Rhymes That Could One Day Be Songs" remain largely the same.

Overall it was enjoyable but not very memorable. I like to read these between other books. One little problem I had with my review copy is that the quality of especially Gene's part was not very good, which made it sometimes hard to read the text. But I'm sure this will be changed in the final version.

Thanks to the publisher and Netgalley for providing me with a free copy of this book in exchange for an honest review!

---

### **Devann says**

Once again, I really love the show but just don't feel that it works very well as a graphic novel, especially when every issue is split into three smaller stories. This time around they've started doing those stories in multiple parts [i.e. part 1 will be in one issue and part 2 in the next], but that kind of makes it worse somehow.

Genderella and the Fairy Bob Mother was pretty cute though. I've always loved how this series isn't afraid to play around with gender roles.

---

### **Kay Kuever says**

I love Bob's Burgers and I love comics, so it only seemed natural that I picked up Bob's Burgers: Medium Rare. This is actually my intro to the Bob's Burgers' comics and quite simply I loved it. Each comic was a hilarious extension into the minds of Bob and Linda's unique children: Tina, Gene and Louise. Anyone who knows me, knows that I'm probably the biggest Louise fan. I have even dressed up as Louise for Halloween. I'm obsessed with that pink bunny ear wearing weirdo.

Each comic would make a really awesome short for the TV show, from Tina's Erotic Friend Fiction a la Casablanca and James Bond to Gene's lyrics reimagine as Generella and adventures in Narnia. Because I mean who wouldn't love more tributes to Jimmy Jr's glorious butt?

The only reason I didn't give this great collection five stars was that I would have really loved to see more installments from Bob and Linda's perspective. While, yes, the kids bring a lot of the comedy to the TV show, I love Bob and Linda's marital dynamic and would have loved to see more of them.

See more of my review at [The Desert Bibliophile](#).

---

### **Heather Duff says**

I freaking love Bob's Burgers and so do my kids, we happily watch the same episodes over and over again.

Bob and Linda Belcher along with their crazy children Tina, Louise and Gene run their burger restaurant whilst coping with the usual family dramas like coping with a biker funeral or exposing a science teacher. It is a bit bonkers and I love it.

Medium Rare features lots of great stories such as Gene's attempts at musical numbers, Tina's erotic friend fiction plus cover art, Bob's fantasy burger truck, there is lots to enjoy.

I would say if you haven't seen the show, familiarise yourself with it before reading this little gem!

---

### **Claire says**

The pineapple story was my favorite! I wish there were more bits by Bob and Linda, but the longer stories for the kids were well done so I'm not too mad

---

### **Siina says**

I had never heard of Bob's Burgers before this, since the show isn't on TV here in Finland. As a sitcom series this so reminded me of the Simpsons and Family Guy and I never found those funny either. Same thing with

Bob's Burgers really. The comic consists of smaller stories around jokes and whatnot. They aren't really linked to one another, which makes the comic sporadic. Also, none of the characters were introduced and the same thing with the setting and all. Thus the comic is really closely tied to the animation series and doesn't have a life of its own. This eats the comic's value and it's hard to approach, if you know nothing about it. The whole thing smells of an addition merchandise. It takes ages before the comic even goes to the point of the burger place being in the center, which was confusing. Same thing when you know nothing about the characters - their choices and whatnot have no point whatsoever.

The art is not to my liking and even the colors hurt eyes from time to time. The panels are stuffed and even the panel backgrounds look like someone puked rainbows all over the place. The Simpsons like simplicity would work better. Why do all the American sitcom animations look alike? Why do they recycle the same jokes? I don't even know to whom this comic was meant, since it was childish and at the same time too boring for kids. Structure-wise this works OK, but that's almost like the only thing that works. I just wish comics like this would be their own thing and made with pride, instead of a product for the fans of the original series.

---

### **Jillyn says**

This is an okay collection, but I'm a little disappointed. This book includes 5 issues.

Each character gets their own little segment per issue, which is kind of cool. Unfortunately, Bob and Linda's pieces were really small and kind of uninteresting. It's a shame because while Louise is my favorite character, part of what makes the show so hilarious is Bob and Linda's couple dynamic. I mean, it is called Bob's Burgers, not Bob's Kids' Burgers. I wish the focus was taken away from the kids a little bit and was more encompassing.

Tina's stories were hit and miss. Tina's awkward, obviously, that's part of what makes her hilarious. But it was a little too awkward. I got a few laughs, but overall I was left feeling "meh". Louise's were right in the middle. Hers were more action-themed and interesting, and because I like her more as a character, I was a little more forgiving. The best segments were surprisingly Gene's, which were written in rhyme and were absolutely fantastic.

The art was hit and miss as well. Some stories looked really nice, others looked disjointed and off.

Overall, it's worth a look through if you're a fan of the show, but I'd rather watch it. It loses some of the humor when you can't hear it in their voices and mannerisms.

I received a copy in exchange for my honest review. Bitches n Prose.
