Weavespinner

James Galloway

Weavespinner James Galloway

The epic culmination of the unique, scandalously interesting and non-commercial fantasy series. Written by James Galloway purely for fun in the course of many years. Read by fanatical fans for even more fun. It has never been published and it can be found online, absolutely for free, on the author's website (<http://forums.sennadar.com>).

Or download from http://www.weavespinner.net/worlds_of...

Iori says

Tarrin and his family are on the last leg of the quest, he got the firestaff, but he lost his memory when he acquired it (how classic). Then drama ensue when he get back to the loves of his life and things get desperate in a really House of cards way. The final combat with Val was simply amazing! The author made the perfect end for the story I think.

Aelvana says

The Firestaff's final defense did the unthinkable---Tarrin is once more completely human, and without any memories of the last two years, from the point when he was bitten onwards. And he now HAS the Firestaff, which puts everyone in a double dilemma. How can they protect the Firestaff appropriately without Tarrin's previous abilities? And now that Tarrin has a choice about whether or not he'll go back to being a Were-Cat, what will he choose?

This is an excellent cap to the series. Tarrin's quest has drawn together a diverse group of people, but the problem is that HE'S the one that drew them together, and now that he's basically a different person, no one knows what to do with him. His personality had been twisted by the Cat, by the abuse he suffered, and by the atrocities he inflicted, but now without any of those staining his soul he's much more open and friendly. On the other hand, everyone he dearly loved except for his family and the two who came from his village is now just another set of strangers.

The group that stood up to every challenge so far is now disintegrating as their different opinions about what Tarrin needs to do start tearing them apart.

I don't like Auli. Tarrin's consistent in his weakness towards beautiful women showing an interest in him, but it is annoying to see how weak his convictions are when a woman comes after him. And she causes a heap of trouble for Tarrin without ever really getting appropriately punished.

After the whole mess with Tarrin's choice plays out, though, there's still the issue of the Firestaff. Tarrin knows now when it's due to activate, and he has a plan . . . but Val's forces strike and that goes out the window. So Tarrin concocts a new plan to make Val pay. He shows he's learned the various lessons of his journey very well, and the showdown is an amazing conflict.

Overall this is a great finish to the main arc (there's a followup series, The Pyrosian Chronicles, which finishes out the story of the Firestaff). It's shorter than most of the other books but it still has a ton of impact. I rate this book Recommended.

Peter says

The entire "Tarrin as a human" part of the story annoyed me, but the rest was superb ! ^_^

Cylentwolf says

Editing isn't as great on this one. Though its a free book so shrug.
Story is good though there is a bit more exposition in this one.
Ending is good.
All in all a pretty nice series.

Milen Semkov says

Well, the grand finale of the series which represents the essense of pure awesomeness. What more to say....
