Wolf in the Storm Skye Jones

Alpha wolf shifter, Adam, finds himself growing weary of his leadership role in the pack. A week away at the coast, paid for by his family, gives him time to think and throws temptation in his path in the shape of one stunningly curvaceous human female.

Pam isn't enjoying her vacation one little bit. She doesn't like being alone, and the wild, Scottish coast can be isolated out of season. Fed up of being stuck in her tiny rental, she braves the local pub one evening and changes the course of her life.

When Adam and Pam meet, they discover a sizzling spark of attraction comes matched with plenty in common, and both find their feelings moving fast.

However, the course of true love rarely runs smoothly, and Adam and Pam have to face his pack, and her bossy friend, before they can make a go of their fledgling relationship.

Can they overcome the obstacles in their way and find their much deserved happily ever after?

Big Is Better

I really liked this love story. The way that Adam was patient and loving when he helped Pam learn to love her body and herself was wonderful. Her ex had belittled her and destroyed her self esteem. It is sometimes hard for a big curvy woman to believe a hot man can want them. I love the stories that disprove that idea.

Melinda Kaye says

I loved this story! I have really enjoyed the whole series and was so glad to see Adam find his mate! I loved that this is about older characters and loved watching their relationship grow. I really hope we see more of this pack of wolves!

Donna Langley says

Aww adam

So happy the alpha found his mate again! He definitely found the right one, I like Pam I don't know what's coming but it might be bad! Just kinda sad that someone's making all this come up with pushing females toward them

Keoki Ki`ili says

Self-esteem

The Alpha has needs to and his vacation brings him more than he could have hoped for. Pam is struggling with her life and at her lowest point but a trip to the beach turns her life around.

Wolf in the Storm

I wonder what craziness the Seer is talking about. I can't wait to see how all this unfolds, who is next in line to find their mates and what's up with the rogues.

Sharon Noble says

Really do get better everytime!

Wow! Glad Adam found love with Pam, would love to know more about the wedding! Can't wait for the next book, hope it's soon!

So, do you want to fool around? 5 GOLD MATES

Suddenly, we were skin-to-skin and it felt glorious. It is because we match, my beautiful. WOLVES & HUMANS & MATES, OH MY, MY, MY!! What a truly WOLFDERFUL book!! It's ABSO-SHIFTING-LUTELY PAM-A-ZING!! So very, Very, VERY ADAMLICIOUS!! I love, Love, LOVE every little bit OF IT!! As soon as I realized whose book this was, I was excited and eager to read it!! Okay! I will confess that for a quick moment I didn't even realize who this "Adam" was! Then it hit me! We were FINALLY going to get to know the Alpha of the Frith pack! And he is the Alpha in all of the right ways! Especially the bedroom! *naughty grin* Which suits Pam just fine! I love that Pam is older, divorced, and has obviously been through so much as of late, it's almost as if she is "broken"! The creativity and uniqueness of & behind Skye's Wolf Shifters is not only bloody brilliant, it's also PURE GENIUS!! The bonding & mating, who they bond and/or mate with, who they can or are "suppose" to bond/mate with along with the different "types" of Humans is very intriguing! I love the magic & destiny of it all! I truly, madly, deeply love, Love, LOVE how Skye's breathtaking, brilliant, witty & sexy storytelling combined with her lush & detailed descriptions has the story exploding to life in my mind's eye, transporting me into the story where I live & experience everything with, for and AS these multifaceted characters, and how my "real" world fades away to be replaced with this amazing Shifter World! Skye truly is a phenomenally talented author! Not too many authors can keep me up all night, keenly & fervently reading - devouring - their entire series - or re-reading the first 3 books, as the case may be - while trying to get rid of a lingering migraine! Skye Jones & her sexy Shifters of the Glen did just that! Already I feel like I am JONESING for "my" WOLFELICIOUS Shifters so I sure hope that Skye has plans for more books for me! ? After reading Ice: Dragon Clan, and then reading & re-reading these Shifters of the Glen Wolf books, I can clearly see just how brightly Skye's talent shines throughout ALL of her stories! I do have to say that I have a whole new appreciation for her writing now! It isn't that I love ONLY her Wolves and that is it. I truly, madly, deeply love, Love, LOVE Skye as an author for ALL of her stories!! In my opinion, if an author can make me love all of her characters, live all of her stories, well, that is the mark of a truly talented and gifted author! And her name is Skye Jones!

Interestingly Poignant

I pucked up this series with this book yet didn't feel lost. Ms. Jones gives rough back story to catch the reader up. I really liked the realism of the female protagonist. A divorced mother if an adult child, I could identify with the character. No longer lithe, young or confident after years of her ex husband's bullying she decides to make herself over after meeting a new man. Her doubts and insecurities typical for the situation, I found myself rooting for her as well as going through memories and emotions as the story progressed. I look

forward to more.

Adam...

Adam, Adam, Adam...how the mighty has fallen. After all his protesting and posturing when his sons and enforcers mated humans, he...nokie, no spoilers...you need to read the book and the series!

Joetta Spurling says

I don't want it to end

Kindle Unlimited Purchase

I have fallen in love with these characters from the beginning... Now that I'm on book 5 of the series (at this time) it is the last one... Hopefully there is more in the works for I would love to read them...

Vickie says

Pam Pam Pam

little does she know that her vacation is going to completely change her life. No way could Pam know that the most gorgeous man fall for her. But can she let him into her life?

Kay says

Love it

I have read this series and fell in with each and characters, great books. Thank you.
Will there be anymore.

Judi says

Not only a good PNR, a really good story period.

Especially for more mature readers this divorcee and widower story is seems to portray their mindsets so realistically. And we get an interesting wolf pack with an overarching plot line. So, win win win.

Rhonda Sanborn says

This is a great read with a hea and no cheating.

Cindy Hardegree says

Naughty and nice.

An older woman with issues getting away from it all meets an older man who was given a get away trip from his sons, meet and the rest us spicy and a little but naughty as they find each other.
