Birth of a Queen Emma Slate

6 months later...

I never thought this would be my life.

Against all odds, I've managed to ensnare Manhattan's most eligible bachelor.

Flynn Campbell is mine.

But the man I love is not who he claims to be.

To the world, he's a wealthy, mysterious, playboy.

I know better.

I know his dreams. His heart. His darkest desires.

When his enemies come for us, will we be ready?

Roxanne Yanke says

Barrett and Flynn are amazing together. I like the additional sexual tension of Sasha. I also enjoyed the little Scottish history. Looking forward to the last book of the series.

Michelle Wharton says

Mystery and Romance

Loving this series! This book has everything I look for in a great read, Intrigue, romance, and interesting characters with depth! I have high hopes for book 3!

Jennifer says

A bit better than the last book, but....

There are still lots of holes in this story. It feels like a womens equal-rights story.

This one ended without a cliffhanger however there is still a book left.....

Debbie says

Lovec it but a bit difficult to review because I read it in th3 complete box set, so my review would have spoilers about the other books, will just say it's a great read ?

Anita Chaney says

Brilliant love it

Kathryn says

Amazing.
