## Conan the Warlord Leonard Carpenter

In the ancient land of Nemedia, Conan of Cimmeria agrees to impersonate Baron Eihnarson's son and heir in order to escape a foul prison cell--at least until he can escape completely, with a pouch full of gold. Calissa, the Baron's sensuous daughter, has other plans for Conan, as does Evadne, the voluptuous rebel maiden. Palace intrigues swirl--poison in the cup and the assassin's dagger in the dark--and Conan must lead the army of Diander against the Cult of the Snake, the demon which burns and slays all whom it does not concert to half-serpent slaves of an ancient evil. In mouldering tombs the dead Lords of Einharson stir, and rise to strike down any who would threaten their line.

# From Reader Review Conan the Warlord for online ebook

## Jared says

Not the best Conan novel I've read but it is Conan...

---

## Arlomisty says

A fun read... I've always liked Conan stories even though this was written by a different author than the original I still enjoyed it.

---

## Arley Dial says

A little slow for a Conan read. The conflict with the Set cultists seemed tacked on, as if the main story were a little thin (which it was).

---

## John somers says

7/20.

---

## Peregrine 12 says

Swords, monsters, beautiful women in need of rescue. Unleash your inner nerd!

---

## Robert Fenske says

Set during one of Conan's earlier adventures this tale was a tough one to get through. Conan is forced to be the body double for royalty, a premise that I found hard to swallow considering how unique a character Conan is. With this premise Conan never really seemed all that in charge of where the story went or what he was doing.

---

## Capitalismissexy says

had potential but wasnt fleshed out plot wise. Very awesome concepts. could really been outstanding. Who knows when the fanged box shall strike again?

---

## **Charles says**

Conan pastiche.

---

## **Stuart Dean says**

Conan travels to Nemedia and is there for a week before he is given a free tour of the Pit of Misery. He is released due to a remarkable resemblance to the Baron's son. He is convinced to act as the heir's double as the land is turbulent and assassination is feared. Mostly due to the fact that the Baron is unduly strict and partially mad. Conan wanders about as the double, learning that he doesn't much care for courtly life and intrigue, until neighboring Baron's arrive to seek assistance in stopping an uprising of the Cult of Set. A great battle ensues.

Conan spends the first 2/3 of the book learning how to act as a nobleman, taking lessons in courtly manners and not doing overly well. When not in school he washes pots and cleans things. All along the snake cult is out there, much like the White Walkers in Game of Thrones, mentioned often but rarely seen. Not until the end does Conan get to do much of anything. If you want to learn about court intrigue in a land ruled by a mad family then this is for you. If You want to see Conan do something other than sneak about and occasionally wench then you'll be disappointed.
