I love this series! I've read all the chapters that she's written so far (8), I look forward for Kat to finish rewriting DIMBFF so she can finish this book because I'm having withdrawls!

### **Natasya A. says**

4/5 cause it's incomplete (I'm not mad and I understand the situation) and also cause Death pissed me off so bad that I accidentally exerted too much force when threw my BACKUP phone on the bed that it bounced off and hit the wall. I'm still paying the price.
