Kelly Elliott

Desired Kelly Elliott

I thought all I wanted in my life was to succeed at football and one day take over my grandfather's ranch. Nothing else mattered but those two things.

Why suddenly did she appear every single night in my dreams? The faceless woman who had me waking up each morning soaked in sweat with my heart nearly pounding right out of my chest.

Who was she?

Where was she?

And why was she the one thing I desired more than anything?

Sofia Lazaridou says

I did not finish the book. I don't want to. Why? Because I was expecting to read the sixth book in a series and not a prequel. Before the story begins the author warns that you should read Wanted in order for the ending to make sense. As a reader and someone who could have given money for the book, I want to have a warning in the blurb. The blurb made me want to read this book and I was very disappointed to find out that half of the stories won't have an ending by the time I turn the last page of this book. This book should have been listed as 0.5 not 6. This sucked.

Myra Espino says

Loved this book!!! But first, for those who haven't read the first book of the series (Wanted), I suggest you guys read that book first before reading Desired so you can follow through the characters. Anyway, the story and the characters of this book are good! Loved it! I was hooked (yet again) from the start up to the last! I fell in love to the characters again in the series!

This book is the 'prequel' of the series.

Bette Hansen says

If you're a fan of this author's Wanted Series you are going to love this look back at your favorite characters. If you're planning on reading the series this is a great place to start. If you don't fall into either group you may want to pass since this isn't really a complete story. It's more of a prelude to the stories to come. It reads a bit young with many of the characters in high school but that's understandable considering what it is. I'm a fan of the series and really enjoyed this one. I highly recommend it.

Rejane says

I am disappointed. After all those books in the series why in the world would I want to read a prequel now??

OH MY GOD!

I didn't know how much I've missed this guys until I started reading this book, now I think I need to re read

the whole wanted series (which would destroy my review schedule--- worth it!).

I have kept Gunner and Ellie's story in my heart and memory since I first read about them. There was just something so special and captivating about them, that it became one of those books you can never let go.

The same goes for the rest of the gang, re-living how they met and fell for each other was such a pleasurable experience, it's not every day that you get to fall in love with perfect love stories all over again.

How do I start talking about these characters I know so much?

Since this book is supposedly intented for readers who have already read most or the complete series, lets start with the fact that we know they are all perfect for each other. Life might put some obstacles in their way, but all of them are strong enough to beat the hell out of them, and so is their love.

For people who are just starting the series, well... I'm guessing you can't wait to get started with the first book and find out what happens to Ellie and Gunner or Arie and Jeff. Just seat tight and enjoy, you have seen nothing yet!

Getting a glimpse of this pre-love boys we all loved was priceless. We met them when they were already behaving like men, but in this book, we get some hilarious sexcapades and some really bad decision making moments that I couldn't get enough of.

Watching them fall hard for this group of innocent young girls was more than satisfying, I totally recommend this book! You won't be able to stop.

S.M. Harshell says

I received a free copy of this book to read and review for Wicked Reads.

Desired is listed as book 6 in the **Wanted** series. *Desired* is a prequel to book one in the series. It cannot be read as a standalone. It will seem like an unfinished book if you try to read as a standalone.

Wanted holds a special place in my heart. It was one of those books that sticks with you. You remember how you felt has you read it, you recall every detail of the characters. It was just that special. *Desired* was a no brainer for me to read. I loved getting to see what happened before the guys met their girls was a fun little bonus for me.

We get POV from Gunner, Jeff, and Josh before and when they met Ellie, Ari and Heather. After reading *Desired* and bringing up all of those old feelings for these characters, it makes me want to go back andc start the series all over again!

Amy says

Fans of the Wanted Series, this book is for you. Now, I don't know about you guys, but when I fall in love with a character or a series, I will never say no to more. And one of the things that I loved about Desired was that it took us all back to the beginning. Desired is kinda like a prequel or lets say a companion novella to Wanted. We get to see those amazing men before they met the women that would forever knock their worlds off their axis. Not only do we get to see inside these guys head and see all the antics that follow, but you get to see the moments where the attraction and fall begins to happen. It gives you a little taste of what's to come and reminds you of just what a fun ride readers will be in-store for.

Desired is a quick and easy read that will leave you with a smile on your face. This story is well-written and is just what fans have been begging for. Author Kelly Elliott has done amazing job taking us back to where it all began and I don't know about you guys, but after finishing this, I want to read Wanted all over again!

I was provided an ARC copy of this book via the author and NetGalley, in exchange for an honest review

Laura's Book Addiction says

Thank goodness for KU, if I'd paid for this I'd be very upset. I think it's safe to say I'm done with this series...

Tania's Book Blog says

I just love these boys!! It was a breath of fresh air reading how they were before they fell head over heels in love with their "one". Gunner was the one with his head on his shoulders and Josh and Jeff were a handful. But it was lots of fun. Jeff was ridiculously protective of Ellie and it was nice to read his POV when Gunner and Ellie laid eyes on each other. Jeff was Team Gunner from the beginning; lol who would've thought.

Jeff I wanted to strangle half the time, Josh will make your stomach hurt with laughter because the things that boy gets into is unreal and Gunner will just have your heart swooning. We get to see very little of Brad but it was good to see all boys in this book and get a feel for them before they were tied down.

Isha Coleman says

Kelly Elliott makes her mark. She seduces with subtle sweetness. She speaks to the heart in a profound way. Desired is an introduction and a reunion of sorts. A chance to test the waters while reacquainting yourself with old friends. These characters are meant to be adored and unable to forget.

Erin Lewis says

4.5 Star Review Desired (Wanted #6) by Kelly Elliott

This book is in my opinion a prequel to her Wanted series and I would suggest that you would be better served if you had read the books in the series before reading this one. At the very least you need to have read book one, Wanted.

I fell in love with the characters from her Wanted series when I read the first book, so this book was a little like coming home to me. We see another side to Jeff and Gunner before their relationships with their soul mates and I fell more and more for these two men in particular.

Desired is told from the men's point of view and they really are swoon worthy. I am so in love with Gunner that it is not funny. For those of you who love her Wanted series, then this will be a one click must.

This was a well written book which is what I have come to expect from Kelly Elliott. She has a way of telling a story that captures your interest and keeps you invested.

I received this book in exchange for an honest review from the publisher through Netgalley.

Nancy Metsch says

AGAIN!!!! Kelly Elliott has proven why she is an amazing Author!!!

To me this was a great gift to those of us that have been following her since The Wanted series came out. We get to see the side of Gunner and Josh before they met the love's of their lives. Jeff always had a huge crush on Ari, he just fought his feelings.

Gunner always the romantic and the true southern gentleman. Woman would throw them seleves at him. And Gunner would just smile and gently turn them down

Josh, always the player had a revolving door of women. That is until HE WAS SLAMMED when he realized this isn't how he wants to be

And then there's my favorite cowboy Jeff, Poor guy confused about his feeling for his siter's best friend. This was fun book to read.

Brianna at Renee Entress's Blog says

5 Stars!

I'm not sure how she does it every single time but wow I'm absolutely speechless after reading this book. An extension...a prequel to the Wanted series that is going to steal your heart and completely blow your mind.

Desired is a complimentary book to this epic series and delivered quite the story from the three guys who already stole my heart. Gunner, Josh and Jeff exploded onto my kindle from the very first page and I just couldn't get enough. Getting into their minds and seeing it play out...swoon!

You think you know them. You've seen them fall in love and find their forever. Now take a step back in time before it all happened and meet the guys and be prepared fall in love... all over again.

highly recommend this book.

Britt Franks Red Hatter Book Blog says

An absolute must read for anyone who loves the Wanted series! I went into this already loving these guys. I finished this loving Gunner, Jeff, and Josh even more. Something I didn't think was even possible. Kelly Elliott is a magician with words, creating an even deeper connection to characters we already adored. Reading Desired was like going back in time and falling in love with these guys all over again for the very first time.

Gunner has been one of my go to favorite book boyfriends for years now. Every time I had a bad day or was feeling sad I'd go pick up Wanted and get swept away. I truly didn't think I could love him more than I already did, but then came Desired. Getting to see the guys before they met their perfect matches and what led up to the start of Wanted was like finding hidden treasure.

I loved being able to see what was going on in all their heads leading up to when they lost their hearts! I want to go back and read the entire series now.

Tami says

Looking at the blurbs in the rest of the series, this book seems to be a precursor to books 1-3. I ADORE this author, so it is tearing me up to write this review. Maybe if it was labeled another way, like a prequel or something that might help? Give a reader some warning.

This author has quite a few titles on my favorites list here on GR, so I am definitely not slamming her talent. But honestly I couldn't get into the book and couldn't finish, because there were too many plots juggling for one book. That's why I left the critique I did on NetGalley.
