## **Love a Dark Rider** Shirlee Busbee

Seven year has passed since the night he was falsely branded a murderer, and Yancy has returned to reclaim his birthright. But his late father's lands now belong to Sara. The innocent girl has blossomed into a stunning and sensuous woman, a rival to be kidnapped and conquered.

But though she fears her vengeful, impassioned captor, Sara's proud spirit will not be easily broken. And winning her heart will soon prove more important to Yancy than his honor, his legacy...or his life.

## From Reader Review Love a Dark Rider for online ebook

### Calm says

Absolutely marvelous book!

Not a thing i could say i don't like about it.

This book is surely one of my favorites.

The characters were especially captivating and drew you deeper into the heart of the story with them, the slow-down descriptions every here and there painted a picture for the story to roll on, the moments of passion were beautiful and nicely timed though-out the book never seemed like too much. A most enchanting feel for the outdoor, desert-like, Spanish town and time era thing. The perspective, mostly on Sara but gave a welcoming insight with no better placement.

The deviousness master plan, lingering mystery and unsolved weaved through from start to finish pulling the reader through their history, involving all the characters, a worthy, thrilling adventure and one hell of a Fiery grande finale.

### Naksed says

I can see how this would be some people's cup of tea but it just wasn't my cuppa. I like my HR a little darker, a little more fleshed out. There is no other way for me to describe it than it reminded me of Carol Burnett's hilarious spoof of Gone in the Wind in her old TV comedy sketch series. Youtube it and you'll know what I mean. DNF at page 120.

---

### Trudy says

The first romance novel I ever read. Love this story very much. It was well written and I recommend this for all

### Regan Walker says

Murder and Love in Old Texas

The story begins in 1860 in Texas where Sara Rawlings, left alone and destitute by her father's death, goes to live with a cousin, Sam Cantrell, a man her father's age. Sam has a son, Yancy, by his first wife, a woman of noble Spanish lineage, and he has a young wife, Margaret—the woman he stole from Yancy.

As might be suspected, Margaret is threatened by the younger, 16-year-old Sara. And Sara is captivated by Yancy, a man Margaret was once engaged to and now thinks to seduce. The one thing Margaret wants for her unborn child is Casa Paloma, a thousand-acre parcel in the middle of the land Yancy's Spanish ancestors have owned for generations. Yancy vows he will kill her before she can have his land. And then Margaret turns up with a Spanish dagger in her chest.

Much of the book is taken up with the machinations of the family and its history that has led to the distrust, if not dislike, between its members, all of which Sara must suffer through. In the midst of it, Sara and Yancy find love, albeit like two prickly people coming together.

Busbee's descriptions of Texas and the hacienda are superb. You will feel you are in the old West. Yancy is a drool worthy hero and Sara finds him so. Oh yes, the murder mystery remains unsolved until the end. Busbee will keep you guessing. Very well done.

For Busbee fans, it will not disappoint.

### **Brie says**

A fast-paced, sexy, action-packed historical romance filled with wonderful, well-thought-out moments of drama, heat, jealousy, anger, love, madness, humor, deception, etc. Its just an all-around fabulously plotted book that you won't want to put down!!! The only reason I did for so long is I do believe it somehow got misplaced and I thank god I found it a few weeks ago! So happy I decided to reread this, it's such a great book! :)

I really liked Sara, and Yancy sounded insanely hot and sensual and just plain yummy lol ;)

---

### **Karen K. Miller says**

This was probably my least favorite of her books. The story seemed to drag a bit. The characters were pretty good. I just wasn't captivated by them.

---

### **Iyah says**

I've read this when I was in Grade 6. Though I'm pretty sure the content and writing style of this book are not for children. Hahaha Because back then I read what I want, whether it's appropriate for my age or not. It's been years ago already, I'm quite surprised I even remember the title . LOL I remember I like it so much, I think I read it twice. Although now, I'm not quite sure if I would still the same towards this book, I still decided to give it a rating of 5 stars. Because back then I thought the book was really good. :]

---

### **Alice says**

Can't say that I even remember this book.

---

## **Erin says**

A cute and entertaining story with interesting character,thrilling romance and a mystery beneath it all.

Altogether a good book.

The story was entertaining, The plot twists were well done and placed-Shirlee Busbee had me guessing who was behind the mystery and making me point fingers at some of the characters.

The conculsion was unexpected and well done.

But even with its captivating plot-line-I felt it lagged at times.

Otherwise good novel,time consuming and worth a read.

## **Marianne says**

First time with this author.

Not the best written book I've ever read, seemed full of trite phrases like, "he caught her by the arm and slammed her up against his chest"; lots of repeated stuff like that.

At time I felt as though I was watching a soap opera.

Maybe some of her later books are better.
