Gurdeep Singh says

Abhyudaya is a riveting read. Naredra Kohli's fiction based on The Ramayana treats Ram as a mortal and describes his endeavours which could have elevated him to the status of a god. It strangely mimics many of the problems that we still face today in India and in the world. So his statement on the back cover where he expresses his and the present's need for another Ram rings true.

Kapil Arya says

This work describe Ram's character as human and not as god. This in turn helps us identify the values and goals that are associated by "Maryada Purushottam". The story telling is quite captivating and the vivid description of Ram's journey from Ayodhya to Lanka is quite amazing. Another part that is covered quite well in this work is the love and respect between Ram and Sita. It does present an ideal picture of a husband and wife. For whatever reason, this was often left out in the stories that I grew up listening to. I was quite unhappy with the abrupt ending at the end of Ram-Ravan war. Definitely wanted to read and learn more about his return to Ayodhya and the treatment of Sita.

Rizwan Madapeedikekkal says

Ramayana -told from the view point of mortals. The book discusses in detail the answer to some of the significant socio-political questions faced by India in the modern age. This function has been subtly carried out in combination with adept story telling. One book I will recommend and gift.

Vaibhav Sharma says

In order for me to review this book. I have to think deeply about what's actually is the moral of this book.

Yes its based on "Shree Ramayan" but the way it has been written is totally different than any other holy book. In any holy book we believe the main character as God himself and so its easy for us to believe in all the miracles performed by him/her. (for me its hard to believe that those miracles would have happened)

I think The question this book answers is How can a man achieve a God like status through his Morals and divinity(every man has it) when going through any kind of obstacle.

I was in the subway when I finished this book and that moment , an emotion came rushing and I had to press this book again my temple. This book will tell you how to apply the same morals and beliefs in 21st century , while dealing with any obstacle.

In the end I had to say "Jai Shree Ram".
