Reunited with the Cowboy Carolyn Aarsen
Second Chance at Love

Heather Bannister is back in Montana for her sister's wedding. But returning to Refuge Ranch brings her face-to-face with a past best forgotten—including high school sweetheart John Argall. Now a single dad, John simply wants to provide for his daughter's future. And Heather's reappearance may be an obstacle to his plans to buy into her family's ranch. Yet when Heather agrees to babysit his sweet little girl, the old feelings come flooding back. And John realizes that Heather may have left town years ago, but his love for her has endured. Could this be their second chance at a future together?

I enjoyed Reunited With The Cowboy a Refuge Ranch series by Carolyn Aarsen. Heather had a very bad childhood life. The Bannisters adopted her when she was ten. They have a daughter and a son. Heather had lots of problems. She left the ranch to model. Mitch was looking for models. Heather went to New York with him. She became pregnant. Mitch spend all her money. She married Mitch since it was his baby. He ended up beating her. She lost the baby when he hit her and she fell down the stairs. She goes back home Finds out that John Argall's wife died after giving birth to their baby who is two years old now. John had always loved Heather. Things happen. They get together. A much read to see all that happens.

I'm not one to write reviews, but I won this book off of a Goodreads contest so I figured I'd give reviewing a shot.

I love the quiet simplicity of Carolyn Aarsen's books. Her faith is very evident in her writing, but it's not overwhelming. It feels natural. I also like that her heroines seems very realistic and have problems that I myself can relate to even though I've never personally been beaten by anyone (unless you count that one fight I got into in grade school). They feel like people I would like in real life. Her heroes sometimes feel a little over the top, but not by much. All in all this was a very good read. Nothing hot and steamy, which I sometimes am not in the mood for. On to book three in the series!!

Refuge Ranch
Book 2

This is the second book in a three book series about a family (The Bannister's) who own a ranch. In this book

we meet the adopted daughter, Heather, as she returns for what she hopes is a short visit to help her sister plan her wedding shower. But an accident puts her in contact with John, her father's foreman, and his sweet little girl who lost her mother during childbirth. She and John have a history - before she left him for a man who promised her a great modeling career in New York.

Things didn't turn out so hot for either Heather or John. Due to family circumstances, Heather is asked to stay and care for John's little girl, who John believes she doesn't like. John resents this until he learns the truth behind why she is uncomfortable. Other circumstances along the way put the two together, and before they know what's happening they begin playing on their attraction to each other.

Carolyn Aarsen wrote a wonderful book about a couple trying to put past pains behind them and finding a way to love again. The romance is sweet and true. There is conflict with John's in-law's that adds to the story. My only complaint is that I thought that issue was resolved way too easily - wouldn't happen like that in real life...

A cute story. I got upset about the side comments about heather's sister relationship. What I didn't realise when I first read this book as it was the second book in the series. While you won't need to read the first book in the series to understand the main story. Some including myself might get upset about a comment about the sister marrying a guy who's brother abused her. If this be the case I encourage you to read the first book in the series 'a cowboy hero' which covers the story of her sister and tanner getting back together. A give you background on why someone might marry a brother of someone who abused you.

This is the story of Heather, who is the adopted daughter and black sheep of the Bannister family. She has a history with John (the two dated in high school) and now she is back in town to help out with her sister's wedding and of course the first person she sees when she arrives back in town is John. Heather has not had an easy go of it, over the last few years. She left after high school from her family ranch and small town life to pursue a modeling career in New York City; where was she mildly successful. She is newly divorced, but only plans on being in town for a short time.

John has had his own share of struggles since Heather left town. He ended up marrying, but his wife unexpectedly passed away. Now the widower is raising a young daughter and needs all the help he can get. When a family crisis emerges, Heather agrees to baby-sit John's daughter in order to help out the family. John is not happy about this solution at all as he believes that Heather doesn't like his daughter, but that is far from the truth as Heather is holding on to some secrets she doesn't want anyone to know as they are far too painful for her.

There are other conflicts going on during all this as well with John's in-laws being concerned about Heather

spending so much time with their granddaughter.

I enjoyed this story a great deal. This was a wonderful second chance romance. I liked Heather and John a lot, both of them have had their fair share of heartache and pain and are ready to love again. John's young daughter is adorable. I loved the small ranching town atmosphere in the book (small town romance are some of my very favorite as you may know). Being an inspirational romance, there is of course a lot of talk of faith and relying in God and it was well done without being overly preachy.

It is the second book in the series and well you may be spoiled for the first book as you know who Heather's sister ends up marrying, but I still plan on going back and reading the first book.

Love Carolynne Aarsen books from Love Inspired! This one was typical of her style. Heather Bannister is back at Refuge Ranch following the break-up of her marriage. Model gorgeous, she struggles to feel good enough for her adoptive family. She married on the rebound from her relationship with John Argall and lived to regret the decision. Now she's back and John, widowed with a 2 year old daughter, is still at Refuge Ranch. Will she be able to overcome her feelings of unworthiness to let her family's love build her back up? Moreover, can she forgive herself for her mistakes in order to see that she and John, together, is still a possibility?
