Marteen has dreams, aspirations and absolutely no idea what he's doing or what he's up against. Marteen lives in a world where those who can find a connection with the wealthy and powerful are rewarded, the rest linger in abject poverty. Marteen has a loose plan to escape his limited life in this top-heavy society. There is one job within the confines of the metropolis that can raise him above his static station. Determined to achieve his goal, Marteen embarks on a chaotic and bumbling journey through the concrete class system epitomizing the phrase, be careful what you wish for. Welcome to the arcane and Kafkaesque world of The Concierge.

A well written book. it was a quick read. I just found myself wanting more story and a more dramatic ending that I could understand better.

Just started my new book!!! I'm about a quarter finished and so far I am loving it! I will write a more in depth review later but for now I would like to thank the author for giving me a copy. It's really great!

Update: I have just finished The Concierge and I have to say I really enjoyed it! The plot was engaging, the characters were interesting, and I found it thought provoking. I am very happy I won the book and I would like to thank the author again for sending it to me. Your a very talented writer!

This was a quick read which was good because the world Marteen lives in is very oppressive and strict. There are so many rules. This is not the type of book I usually read. However, as I read more I was curious to find out if Marteen would start his own business, what would he do, the people he would meet, etc. After all that and what happened (you will have to read it yourself), I really liked how it ended. I think this is a book that will stay with you for a while and give you something to ruminate. I thank the author, publisher, and Goodreads for the book. My opinions are my own. #goodreadsgiveaway
