The Last Angel Natasha Rhodes

The sequel to the popular *Dante's Girl*

An angel is found murdered on the streets of Sunset Boulevard. To the media gossip mongers, it's the biggest story ever. To the Hunters, an underground monster-fighting hit-squad, it's just another case of 'whodunnit'. To Kayla Steele, their youngest and newest member, it means a last, desperate chance to bring her murdered fiancé back from the dead, and to others with a far darker purpose it is the means to destroy the human race. If the Hunters are to stop the onset of Armageddon they must join forces with their most hated enemies, the werewolves...

For some reason this series is hard for me to get into completely. I read book #1, *Dante's Girl* many years ago, but remembered the gist of Kayla's story.

In *The Last Angel*, Kayla is now the newest and youngest member of the Hunters. In *Dante's Girl*, her fiance, Karrell Dante, was murdered. She had hoped that joining the Hunters could help her find a way to bring him back from the dead. She still has a lot of questions, but they are put on hold when an angel is found murdered on the streets of LA. The Hunters, who fight any sup they find, try hard and fast to solve the case of the fallen angel and stop Armageddon.

This series is full on UF, which I typically love. It's full of action and lots of sups - werewolves, vampires and now angels. But, for whatever reason it will just never be one of my favorites.

The ending is a cliff hanger meant to keep you on edge for book #3, *Circus of Sins*, due out later this year.

OK here's the thing.... I liked the first book but this one not so much I have got as far as page 173 but I dont care what happens. The only character I like is Mutt and there is not enough of him in it to keep me interested and as for Karrel I just him to shut the hell up and get on with dying. The only bit of the book I can say I really liker was the Blackadder reference and this book made me want to go wibble. So I can say categorically that I will NOT be reading the third book!!

At first it was a choppy confusion.

The story jumps from an angel dying, talking about saving 'her' then to a man (Karrel) with a group of 'Hunters'. They're searching for a vampire he loved who turned evil. Finally we meet Kayla Steele. She's at Karrel's grave. Like I said choppy confusion. So Karrel turns out to be Steele's finace. We do eventually find out how everything is linked but it should have been more clearer and better flow during those transitions.

I instantly liked Wylie, great personality there. As for Steele her character is fantastic and really comes to life with witty one liners that are worth remembering.

Then we meet Mutt. He's sweaty, bloody and still sounds hot enough to drool over. He's my favorite character throughout the whole book. That said, with all the choppy motions and everything going on it was all too much. It left questions and new characters randomly introduced. We don't know how any of it relates until later on. By page 130 I was ready to give up.

Well I trudged on and it was totally worth it. The story has twists, turns, action and even some romance. Besides I absolutely loved Mutt. He's a badass, hot, pissed off werewolf.

So, the question is - Would I get the next book in the series? Answer: Yes, yes I would. It was good story even if it was weighed down. Kayla is a wonderful character that I want to read more about.

Just like the first book of this series, "The Last Angel" by Natasha Rhodes, is a smart and good to read book. Humans, vampires, werewolves, angels and demons are the main characters in this strange story. There are too many secrets that we have to learn and this book reveals only a few.

It's a dark book with some great scenes like the last one! I'm looking forward to read the next of the series! Natasha Rhodes is a very talented author and I like the world she has create.

This was the second book in the Kayla Steele series and it wasn't that good. Kayla is a very annoying and dumb main character. She doesn't do anything right, she is still mooning over her dead boyfriend and involved with the Hunters. She doesn't have a very strong personality and she is not that memorable. The only characters that I like in this series so far is Phil and Ninette and even they are a little flat.

Not a whole lot happens in this book, an angel is found and "killed" and then there's a whole lot of breaking and entering into places to save people. There was nothing that was important to the plot that happened.

Karrel is still part of the story even though he is dead. It took me awhile to get through this book because I was so bored! I don't care about the characters, the plot moves so slowly that I don't care about that.

Overall 2 out of 5 stars and I guess I will read the last book since I already have it but I am not looking forward to it.
