The final installment of the Broken series. It's a great ending to a great series and really wraps things up for Bennett and Gray.

Even after all that they've been through, Gray and Bennett still find that it's easy to love each other unconditionally. Charlie is the light of their life and so is the newest edition to their family.

Even though they don't have to worry about Raylon anymore, the worry isn't gone yet. But they manage to push through it and become stronger because of it. Neither of them would give up what they have for any other day in the world. They are utterly happy and it is amazing to watch their love grow even after all that they've been through.

Hannah and Theo have their own problems but like Gray and Bennett they push through it and become stronger because of it.

There are two new friends added to their group at the end of the book but it makes things better. Bennett and Gray are happy and have two beautiful babies to prove it. Hannah and Theo are happy but also have a changed life style which they both settled into nicely.

This is a great book and I'm sad to see the series end but I like how it ended and feel like everything was wrapped up nicely. Even though their problems aren't like they used to be, they still have problems and I think that adds to the character development and helps the reader connect to the character. It was another amazing story by Amanda Bennett!

What a fantastic way to end the series.

Loved Gray and Bennett, and so glad it was definitely a HEA for them.

I REALLY do love my follow up stories on how characters are doing it is seriously like crack to me, especially when I love the characters as much as I do Gray and Bennett! Gray is still cray-cray for his girl, "if this old weathering structure brought that much joy to her, I was willing to practically break my back every

day." He still doesn't know what to do in a certain situation, "very funny. No, I was just trying to...Oh screw it; I'm freaking out here. I don't know what to grab and what not to grab." And he's still as playful, "I smacked her a**, catching her off guard just before leaning in and pulling out the car seat..." I normally don't read novellas but I really do love Amanda so I had to read it.

Great a addition to the series. I love me some Gray.....Kind of dry on the sex appeal but it provides you with a better understand of the love Gray and Bennett share with one another and it was gives you an insight on how Gray and Bennett's marries life is with their daughter Charlie and the new arrival of their son Daniel.

Thank you for bringing back Gray and Bennett. It was very good but way to short! only 77 pages.

Loved this ending. Gray and Bennett got the ending they deserved after all the horrible things they had to face along the way. Ryan is such an amazing husband and father, Bennett couldn't ask for a better life. Great ending to this wonderful story

I'm very disappointed in this last book. The first two books were filled with so much drama. In my opinion this last book should have been the conclusion of the sencond book. To me it was like the author ran out of material.

Bennett and Gray's final book was very well done and I enjoyed reading it. It was nice to see the epilogue at the end and to see how their relationship as a couple and with their friends had progressed.

Helen King says

A perfect ending to the series. I love that Gray and Bennett communicate without even saying a word. Gray is so in tuned with Bennett. How do you find a real person who is so eager to make you happy that they learn to read you that well????

Amy says

I think this was a great ending to a great series!
