## **Artful Persuasion** Harry Mills

"There's really nothing mysterious about getting people to change their minds. No special, inborn gifts. No subliminal tricks.

Instead, the best persuaders--advertisers, salespeople, politicians, spin doctors--depend on the fact that everyone responds to messages in just two ways: thoughtfully or mindlessly. And they know how to manipulate these two persuasion routes to make even the most doubtful say ""yes.""

Jam-packed with fascinating case studies and surprising examples, this comprehensive, entertaining how-to guide puts the powerful tool of persuasion at anyone's disposal. It explains:

\* How the master persuaders--the Churchills, Lincolns, and Roosevelts--create powerful, memorable messages that convince people of their arguments' logic and rightness.

\* How successful persuaders exploit the psychological triggers that cause people to subconsciously move from ""no"" to ""yes.""

## Dr Ted Edwards DC says

The book starts with a questionnaire. The How High is Your Persuasion IQ? What I decided to do with this is turn each of the 60 entries into a healing intention statement. After which I do a Sacred Circle Empowerment which downloads and installs each statement for my highest good.

This is a highly technical piece that is well orchestrated both in terms of content and graphical presentation. If you just did 15% of the 5 of the ideas presented in this book you would likely double your Persuasive abilities.
